My name is Josh Albrektson . I own 1123 Windsor place, the property directly south of the subject property.

I strongly support Megs project.

I am pretty outraged this is even in front of you today. She is adding a parapet to a garage in a place that cannot be seen from the street. It cannot even be seen from any part of my property which is directly south of her.

In the housing element and repeatedly in public statement South Pasadena planning members and director Angelica Frausto Lugo have said they they plan to do whatever they can to facilitate ADU production in South Pasadena.

The fact Meg is here having to waste time and money paying for her architect to be there and write a letter to you guys shows this was a lie. Having this come to you is because of a parapet is barely legal.

I would like to correct my earlier email. In it I said it was barely legal to hold this hearing.

It should state:

It is illegal to have any design or development standards for garage conversions and this meeting and requirements are completely illegal.
