**Applicant: Anthony George, Architect**

**Project #: 1499 – DRX**

A proposal for a 421 square foot single story addition, and a 285 square foot basement, to an already permitted, partially completed, 3,161 square foot structure. The existing structure was approved as a car wash but is proposed to be an office building, occupied by a single owner-tenant. The addition is proposed as an enclosed trellis with storefront system; the space originally intended for use as automobile drying area is proposed to be used as an exterior courtyard, with a canvas tensile awning system, and landscaped planters. Perimeter walls and fencing are proposed to be added, along with raised planter areas, and concrete paving is proposed to be replaced with decorative pervious paving. One additional parking space is proposed to be added, for a total of 15 spaces. The existing Spanish-Mediterranean style, all design elements (clock tower, trellis, windows and doors, and finishes), and site design (site entrances and exits) are to remain the same.
