

### CITY OF SOUTH PASADENA FINANCE COMMISSION SPECIAL MEETING AGENDA

### 1424 Mission Street, South Pasadena, CA, 91030 Commissioners to participate via ZOOM

October 15, 2020, at 6:30 pm.

**CALL TO ORDER:** Commission Chair Findley

**ROLL CALL:** Chair Findley, Vice Chair Tao, Commissioners

Choi, Elsner and Wood, and City Treasurer Pia

**COUNCIL LIAISON:** Mayor, Robert Joe

**STAFF PRESENT:** Interim Assistant City Manager, Elaine Aguilar

### NOTICE OF PUBLIC PARTICIPATION AND ACCESSIBILITY

Pursuant to Section 3 of Executive Order N-29-20, issued by Governor Newsom on March 17, 2020, the Special Meeting of the Finance Commission for October 15, 2020 will be conducted remotely and held by video conference, beginning at 6:30 p.m. The Meeting will be broadcast live on the City's local cable channel and the City's website at: (www.southpasadenaca.gov/financecommission).

Please be advised that pursuant to the Executive Order, and to ensure the health and safety of the public by limiting human contact that could spread the COVID-19 virus, the Council Chambers will not be open for the meeting. Commissioners will be participating remotely and will not be physically present in the Council Chambers.

If you would like to comment on an agenda item, or make a general public comment, members of the public may submit their comments in writing for Commission consideration, by emailing them to: fcpubliccomment@southpasadenaca.gov.

Public Comments must be received by 12 p.m., October 15, 2020 to ensure adequate time to compile and post. Public Comment portion of the email is limited to 150 words. Please make sure to indicate: 1) your name; 2) what agenda item you are submitting public comment on, or if it is a general public comment; and 3) clearly state if you wish for your comment to be read.

### **PUBLIC COMMENT**

Public Comments received by 12 p.m. October 15, 2020 will be read during this time, limited to 150 words. Public comments received will be posted to the website and entered into the record of the meeting.

### ACTION/DISCUSSION

- 1. Presentation of the Comprehensive Annual Financial Report (CAFR) Fiscal Year 2018-19
- 2. Discussion Regarding Temporary Finance Department Staffing Needs

AD	JO	IIR	N	MEN	T
$\boldsymbol{\sigma}$			T 4 T		

### **FUTURE FINANCE COMMISSION MEETINGS**

October 22, 2020

Virtual Meeting

### PUBLIC ACCESS TO AGENDA DOCUMENTS

Prior to meetings, agenda related documents are available for public inspection at, City Hall, 1414 Mission Street, South Pasadena, CA 91030. The complete agenda packet may also be viewed on the City's website at: <a href="https://www.southpasadenaca.gov/financecommission">www.southpasadenaca.gov/financecommission</a>

### **ACCOMMODATIONS**

The City of South Pasadena wishes to make all of its public meetings accessible to the public. Meeting facilities are accessible to persons with disabilities. If special assistance is needed to participate in this meeting, please contact the City Clerk's Division at (626) 403-7230. Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities. Hearing assistive devices are available in the Council Chamber. Notification at least 48 hours prior to the meeting will assist staff in assuring that reasonable arrangements can be made to provide accessibility to the meeting (28 CFR 35.102-35.104 ADA Title II).

I declare under penalty of perjury that I posted this notice of agenda on the bulletin board in the courtyard of City Hall at 1414 Mission Street, South Pasadena, CA 91030, and on the City's website as required by law.

## Finance Commission Agenda Report

**DATE:** October 15, 2020

**FROM:** Elaine Agular, Interim Assistant City Manager

**SUBJECT:** Presentation of Draft Comprehensive Annual Financial Report for

Fiscal Year Ending June 30, 2019

### Recommendation

It is recommended that the Finance Commission review, and receive and file the Draft Annual Financial Report (CAFR) for fiscal year ending June 30, 2019.

### **Discussion/Analysis**

The draft CAFR will be presented to Council on October 21, 2020.

### Background

The attached staff report and draft CAFR for fiscal year ending June 30, 2019, are included in the agenda packet for your reference. A representative of Rogers, Anderson, Malody, & Scott, LLP, will be present to present the audit and report.

### **Fiscal Impact**

There is no fiscal impact.

### **Public Notification of Agenda Item**

The public was made aware that this item was to be considered this evening by virtue of its inclusion on the legally publicly noticed agenda, posting of the same agenda and reports on the City's website and/or notice in the *South Pasadena Review* and/or the *Pasadena Star-News*.

September xx, 2020

Honorable Mayor and Members of the City Council,

We proudly present to you the City of South Pasadena's Comprehensive Annual Financial Report (CAFR). This report consists of management's representations concerning the finances of the City of South Pasadena. It was prepared by the Finance Department in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Government Accounting Standards Board (GASB). Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. We believe that the data presented is complete and reliable in all material respects; that it is presented in a manner designed to fairly set forth the financial activity of the City's various funds; and that all disclosures necessary to enable the reader to gain a good understanding of the City's financial activity have been included.

The City's financial statements have been audited by Rogers, Anderson, Malody & Scott, LLP, a licensed certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of South Pasadena's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors in the financial section of the CAFR.

### Profile of the City of South Pasadena

South Pasadena is located approximately six miles northeast of downtown Los Angeles, on the west side of the San Gabriel Valley between the cities of Pasadena, San Marino, Los Angeles and Alhambra and has a population of 25,992. Founded in 1874 by the Indiana Colony, the City

encompasses 3.44 square miles and was incorporated as a General Law city of the State of California on March 2, 1888. South Pasadena is noted for its beautiful, historically significant homes on tree-lined streets, for its excellent public schools and for a small-town atmosphere in the midst of greater Los Angeles.

The City is a full-service general law city that operates under the Council-Manager form of government. The City Council consists of five members elected to four-year

staggered terms of office. The Mayor is selected from the City Council members and serves a one-year term. The City's other elected officials are the City Treasurer and City Clerk, each of whom serves a four-year term of office.

The City provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; sewer services; water utility; refuse collection; public improvements; planning and zoning; recreational activities and cultural events; library operations; and general administrative and support services.

The annual budget serves as the foundation of the City's financial planning and control. The City Council holds public hearings and adopts an annual budget resolution by July 1 of each fiscal year for all funds and account groups. The City Council may modify appropriations with majority approval. The budgets are adopted and presented on a basis consistent with generally accepted accounting principles.

Changes in budget appropriations at the fund level during the year must be approved by the City Council. The legal level of expenditures is controlled at the fund level, and appropriations lapse at the end of each fiscal year unless encumbered for re-appropriation by the City Council in the following fiscal year. Department heads may, without Council approval, amend individual line items within their departments, within the same fund and only within the maintenance and operations portions of the budget, without increasing total appropriations. The City Manager may, without Council approval, amend individual line items within any fund, and between divisions and programs, in the personnel costs, maintenance and operations, capital outlay and capital projects portions of the budget without increasing total appropriations for that fund.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the environment within which the City of South Pasadena operates.

### Local Economy

For FY 2018/19, the City of South Pasadena, the greater Los Angeles region and the State of California, have shown increasing revenues over the last several years as the region has recovered from the 2008 recession.

The five largest sources of revenue to the City's General Fund are property taxes, utility taxes, sales taxes, current services, and licenses and permits. Property taxes make up 54% of all General Fund revenues. Utility users' taxes (UUT) make up 12% of total General Fund revenues. Sales taxes make up 6% of total General Fund revenues. Current services make up 9% of the total General Fund revenues. License and permits make up 3% of the total General Fund Revenues.

The top five revenue sources represent approximately 84% of the General Fund revenues. Historical data indicates that the City's General Fund is becoming more reliant on these five revenue sources.

Property taxes are the City's largest tax source and make up approximately half of the General Fund revenues. The City of South Pasadena experienced a net taxable value increase of 6.7% for the 2018/19 tax roll, which was slightly more than the increase experienced countywide at 6.5%. The assessed value increase between 2017/18 and 2018/19 was \$306 million. The change attributed to the 2% Proposition 13 inflation adjustment was \$86.2 million, which accounted for 28% of all growth experienced in the city. The housing market has fully recovered from the recent recession in many urban and coastal areas of the State while housing recovery has tended to lag in more rural and inland areas. Current median home prices, in many regions are at or above the pre-recession peak values. Affordability and inventory constraints are the main contributor to increases in home prices over the last year. The numbers of sales year over year have declined and the lack of significant new home construction in California is one of the main factors affecting supply. Moreover, the City's proximity to commercial and cultural developments in greater Pasadena offers our residents distinct lifestyle advantages. South Pasadena's assessed values and property taxes are expected to continue performing strongly as the general economy improves. Data also show that South Pasadena retains \$0.24 for every dollar of property tax collected within the City, while new cities receive only \$0.05 for every dollar of property tax collected within their city boundaries.

New subdivision and mixed-use development by 820 Mission Development, along with sales of finished units triggered reassessments that added \$35 million in value among all of the new properties.

The Utility Users Tax (UUT) is the second largest revenue source for the General Fund, at \$3.4 million. At the November 2018 local elections, the South Pasadena community voted to extend the UUT for four years, while retaining the amount at the current 7.5%. The Utility Users' Tax collects approximately \$3.4 million annually for the City of South Pasadena and is set to sunset on June 30, 2020, unless extended by voters.

The City underwent a comprehensive fee study in the spring of 2018, which is expected to increase overall revenue to the City by approximately \$350,000, and included a resolution to adjust fees according to Consumer Price Index (CPI) moving forward.

Overall, South Pasadena continues to remain in satisfactory financial condition thanks to a relatively diverse and stable revenue base. Our core services have remained consistent despite certain revenue losses to the State as a result of the dissolution of redevelopment agencies. However, with the shifting of the former property tax increment back to affected taxing agencies, the City has been recovering some of this lost revenue.

### Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, error and omissions; injuries to employees and natural disasters. The City utilizes a combination of self-insurance, Joint Powers Authority participation and excess insurance to address these concerns. The City's primary coverage provider is Public Risk Innovation, Solutions and Management (PRISM). The purpose of this organization is to provide a form of liability, workers compensation and property coverage whereby risks are transferred to the JPA to fund appropriately for its member agencies. General liability, Workers Compensation and Property losses are pooled among the member cities at certain levels, and coverage is jointly purchased in excess layers. The City pays an annual deposit based on a calculation of prior claims experience and payroll (or Total Insured Values for Property coverage). For Liability, the City has a self-insured retention of \$100,000, losses exceeding the self-retention limit up to \$5 million per claim are recovered from deposits paid by member cities. Individual claims in excess of \$5 million up to a maximum of \$50 million are covered by private insurance carriers. For Workers Compensation, the City has a self-insured retention of \$125,000, losses exceeding the self-retention limit up to \$5 million per claim are recovered from deposits paid by member cities. Individual claims in excess of \$5 million are covered by private insurance carriers who provide 'Statutory' coverage. Additional information on the City's risk management activity can be found in the notes to the financial statements.

### **Pension Obligations**

The City contributes to the California Public Employees Retirement System, an agent multipleemployer public employee defined benefit pension plan for its employees. Each year, an independent actuary engaged by the pension plan calculates the amount of the annual contribution that the City must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the City fully funds each year's annual required contribution to the pension plan as determined by its funding policy. The unfunded actuarial liability associated with employee services rendered to date is being systematically funded over a set number of years for safety and miscellaneous employees as part of the annual required contribution calculated by the actuary. The City also provides postretirement health care benefits for certain retired employees. Most recently, the City updated its retiree health contribution to the PEMHCA minimum. Additional information regarding the City's pension arrangements and post-employment benefits can be found in the notes to the financial statements.

Increased demands from CalPERS have also added significant costs. The State's pension fund lost almost 35% of its value during the recession and has been unable to achieve return rates assumed in the pro forma. As with pension programs across the Country, PERS has also found other fundamental assumptions to be unsustainable. For example, retirees are living much longer than originally planned and are pulling benefits for at least a decade longer than anticipated. This is the same issue faced by Social Security and most State pension plans created in the early 20th Century. Currently, funded at just under 70%, PERS is aiming to bring fund balances closer to 90-95%. With few other options, PERS has mandated huge payments from member cities to cover unfunded liability. Pension reforms have been enacted at the State level to reduce future liability, but those changes will not be fully realized for another 20 years. In the meantime, nearly every city in the State is struggling to fund the increases, with experts estimating many small cities will go bankrupt as a result.

South Pasadena offers the lowest possible pension formula (2% at 55) which has kept the City's liability low compared to Cities who pay 2.5%, 2.7% or even 3.0% at 55. Nonetheless, the City must bear the cost of increased payments to PERS over the next five years at least. Further, it remains unclear how PERS management decisions will impact the City in the future. Investment funds continue to perform far below projected returns and actuarial reports from PERS are several years behind. Many cities are hiring independent actuarial consultants to better analyze future impacts and plan appropriate strategies.

### Retiree Health

This past year, the City reduced its retiree healthcare contribution for all employees hired after July 1, 2020. The future retirees will receive a medical benefit equal only to the PEMHCA minimum. By reducing the retiree health contributions for future employees from \$625/month to the PEMCHA minimum (currently \$139/month,) the City will see significant long-term savings and substantially reduce the City's unfunded liabilities.

### Fee Study

As part of the 2018-19 Strategic Plan, the City engaged in a fee study to review current fees. The User Fee Study evaluates delivery methods, staffing, and overhead costs to determine the appropriate fee structures and full cost recovery potential of individual services. The study revealed that in total the City collected approximately 59% of the cost of services.

The Fee study indicated the majority of City fees were set at a rate far below the cost of providing the service and that additional fees would be appropriate to align with new services. The study also recommended annual CPI increases which have been incorporated into the resolution for the proposed Fee Schedule.

Long-Term Financial Planning for Infrastructure. In 2009, the City established a long-range vision for its sewer and water enterprises by issuing bonds and adjusting charges for service to finance many critically needed improvements. Since then, the water and sewer rates needed for the restoration and rehabilitation of the aging water and sewer infrastructure have increased by over 100%. Since 2009, the City has spent approximately \$37.0 million upgrading the water system, and \$7.08 million upgrading the sewer system. The City expects to spend an additional \$10 million over the next two years on these projects.

In 2018, the City created its first Five Year Capital Improvement Plan (CIP) which outlined over \$100 million in Capital repairs that were largely unfunded. For the last five fiscal years, the City Council has also voted to commit at least \$2 million annually towards the rehabilitation of city streets and \$146,000 annually to the Capital and Equipment Fund.

Most recently, the City has been working with its local and regional partners to restart the "Rogan Funds" project, which was originally identified to fund a hookramp onto SR-110. Further, following the elimination of the SR-710 project, the county has identified nearly \$100 million in available transportation funds for the City. All of these projects will require matching dollars or initial studies to implement, which should be considered in the overall long-term funding for the City.

### **Cash Management Policies and Practices**

Cash temporarily idle during the year was invested in accordance with the City's approved Investment Policy. The policy affords a broad spectrum of investment opportunities, as long as the investment is deemed prudent and permissible under currently effective legislation of the State of California and other imposed restrictions. Criteria for selecting investments and the order of priority are: safety, liquidity and yield. The cash management system of the City is designed to accurately monitor and forecast expenditures and revenues, thus ensuring the investment of monies to fullest extent possible. Attempts are made to obtain the highest yields available as long as investments meet the criteria required for safety and liquidity.

Internal Controls. The management of the City is responsible for establishing and maintaining an internal control structure to ensure that the assets of the City are protected from loss, theft or misuse, and to ensure that adequate account data is compiled for the preparation of financial statements, in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control structure should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits require estimates and sound judgments by management.

### **Awards and Acknowledgements**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of South Pasadena for its CAFR for the fiscal year ended June 30, 2018. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of South Pasadena has received a Certificate of Achievement for the last 30 consecutive years (fiscal years ended 1987 through 2018). We believe our current report continues to conform to the Certificate of Achievement program requirements, and will again submit it to GFOA for award consideration.

The preparation and publication of this report is made possible through the dedication of the entire Finance Department staff, and especially from Albert Trinh, Finance Manager. This report would also not have been possible without the leadership of the City Manager, Stephanie DeWolfe, and continued commitment from the City Council in conducting the financial operations and corresponding financial disclosures of the City in an open, public and transparent manner. Finally, thanks are extended to the firm of Rogers, Anderson, Malody & Scott, LLP, for their contributions towards improving our financial reporting and year end processes.

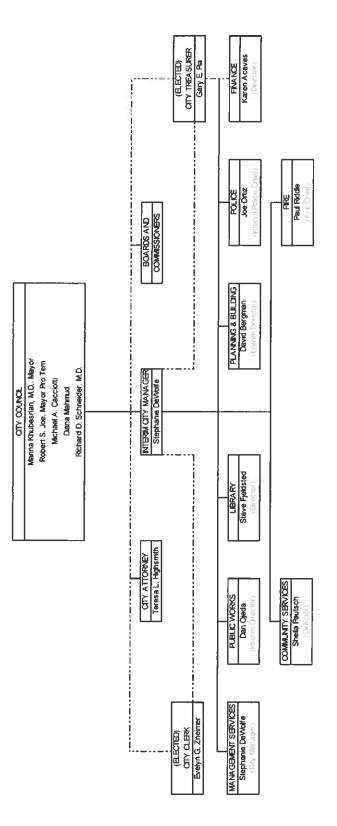

Respectfully submitted,

Karen Aceves

## City of South Pasadena California

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended

June 30, 2018

Christophe P. Morrill

Executive Director/CEO

**FINANCIAL SECTION** 

The Honorable City Council of the City of South Pasadena South Pasadena. California

Independent Auditor's Report

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Pasadena, California (City), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Pasadena, California, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Emphasis of a Matter

As discussed in Note 1 of the financial statements, the City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 88, Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements. Our opinion in not modified with respect to this matter.

### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as noted in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of South Pasadena's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the nonmajor fund budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### Other Reporting Required by Government Auditing Standards

Rogers, Anderson, Malody & Scott, LLP.

In accordance with Government Auditing Standards, we have also issued our report dated September xx, 2020 on our consideration of the City of South Pasadena's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of South Pasadena's internal control over financial reporting and compliance.

San Bernardino, California September xx, 2020 This page intentionally left blank.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

### Management's Discussion and Analysis

As management of the City of South Pasadena, we offer readers of the City of South Pasadena's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the City's financial statements.

### (A) Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$81,483,541. Unrestricted net position in an amount of (\$11,802,207) is primarily due to the City recording the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, and information about the fiduciary net position of the City's CalPERS plans per GASB Statements No. 68 and 71 and 75.
- The City's total net position increased by \$5,197,271, after the prior period adjustment.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$28,994,406 an increase of \$4,844,802. Of this amount, \$10,838,355 or approximately 37% of total fund balances are available for spending at the City's discretion (unassigned fund balance).
- At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$12,017,146, or 49% of the total General Fund Expenditures.
- The City's net investment capital assets decreased \$4,319,595 from the prior fiscal year.

### (B) Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows/inflows of resources, and liabilities, with the difference between these items reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of South Pasadena is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, with the use of the accrual basis of accounting, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of South Pasadena, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of South Pasadena maintains 35 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund for the purposes of this report. Data from the other 34 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these *non-major* governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of South Pasadena adopts an annual appropriated budget for its General Fund and each of its special revenue funds. A budgetary comparison statement has been provided for each governmental fund to demonstrate compliance with this budget. The budgetary comparison statement for the General Fund is located in the basic financial statements; the budgetary comparison statements for the non-major governmental funds are presented in the Additional Financial Information section of this report.

**Proprietary funds.** The City of South Pasadena maintains two types of proprietary funds: enterprise fund and internal service fund. The enterprise fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for the operations for its water and sewer utilities, and the municipal golf course. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The internal service fund is used to accumulate and allocate costs internally among the City's functions for general liability and workers' compensation insurance. Because the internal service operations benefit both governmental and business-type functions, they have been proportionally allocated and included within the governmental and business-like activities in the government-wide financial statements. Individual fund data for the internal service fund is provided in the form of combining statements in this report.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

**Fiduciary funds.** The City of South Pasadena maintains one type of fiduciary fund, a private purpose trust fund. *Fiduciary funds* are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The City uses one type of fiduciary fund, a private purpose trust fund, to account for the assets and liabilities of the former Community Redevelopment Agency.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found in notes to the financial statements.

The combining statements referred to earlier in connection with non-major governmental funds together with information are presented immediately following the notes to the financial statements.

### (C) Government-wide Financial Analysis.

Net position may serve as a useful indicator of a government's financial position. In the case of the City of South Pasadena, assets exceeded liabilities by \$81,483,541 at the close of the most recent fiscal year. This represents an increase of \$5,197,271 or 7% from the prior year, primarily due to a decrease in investments in capital assets. Capital Assets are by far the largest portion of the City's net position; \$84,013,174 or 103% reflects its investment in non-liquid capital assets (e.g. land, infrastructure, buildings, and equipment). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

### City of South Pasadena Net Position As of June 30, 2019 and 2018

	Governmen	tal Activities	Business-Ty	pe Activities	Total			
	2019	2018	2019	2018	2019	2018

Unrestricted	(22,350,735)	(24,210,258)	10,548,528	6,037,767	(11,802,207)	(18, 172, 491)		
Total net position	\$ 46,117,066	\$ 44,932,581	\$ 35,366,475	\$ 32,717,878	\$ 81,483,541	\$ 77,650,459		

The second portion of the City net position of \$9,272,574 represents special revenue resources that are subject to external restrictions on how they may be used. Unrestricted net position shows a negative balance of (\$11,802,207).

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

The City's governmental current assets increased by \$4,109,627 and capital assets decreased by \$2,454,916. Current assets increased due to more cash on hand and capital assets decreased due to decrease spending on capital projects and current year depreciation.

The City's business-type current assets decreased by \$580,360, due to debt service payments for capital spending water and sewer projects. The City reported a net increase of \$4,837,005 in capital assets due to an increase in construction-in-progress relating to the Garfield Reservoir Capital Project, Graves Well Rehabilitation Project, and Wellhead Treatment Project, and Sewer Project. Upon completion, the City will transfer the construction-in-progress costs to infrastructure.

### **Governmental Activities**

Governmental activities net position increased by \$2,465,434, after the prior period adjustment, due to an increase in general revenues which is offset with a small increase in the expenses across multiple departments.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

### **Business-type Activities**

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but offers more detail in the form of a statement of cash flows. Unrestricted net position of the fund at the end of the fiscal year shows \$10,548,528. Total net position for these funds was \$35,366,475, an increase of \$2,731,838 (8%) over the prior year, due to increases in the capital construction expenses for the Garfield Reservoir Construction Project, Graves Well Rehabilitation Project, and Wellhead Treatment Project

### (D) Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows and outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$28,994,406 an increase of \$4,844,802 from the prior fiscal year. Approximately 37% of fund balances constitute the unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is either restricted for projects undertaken in the Special Revenue Funds (28%), committed by City Council action for specific purposes (33%), or represents net position that are non-spendable resources (2%).

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$12,017,146, while the total fund balance reached \$18,417,885. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. The unassigned fund balance represents 49% of General Fund expenditures, while the total fund balance represents 75% of that same amount.

The fund balance of the City's General Fund increased by \$2,835,923 in the current fiscal year. This represents an increase of 18% in fund balance from FY 2018. Key factors in this increase are as follows:

- An overall increase in revenue by \$2,811,369 due to increase in taxes, intergovernmental funding, use of money, and miscellaneous.
- Capital outlay decreased \$1,157,523.

There was an increase in transfers out of \$1,860,956 for insurance funds, facilities and maintenance, street projects, and LLMD.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

### General Fund Budgetary Highlights

The City adopts annual appropriated operating budgets for its governmental funds (General Fund, Special Revenue and Capital Projects Funds) and reports the results of operations on a budgetary comparison basis. The City also uses annual financial plans as a management tool for its enterprise funds, although the City does not report the results of these funds on a budgetary comparison basis.

In preparing its budgets, the City attempts to estimate its revenues using realistic, but conservative, methods so as to budget its expenditure appropriations and activities in a prudent manner. As a result, the City Council adopts budget adjustments during the course of the fiscal year to reflect both changed priorities and availability of additional revenues to allow for expansion of existing programs. During the course of the year, the City Council amended the originally adopted budget for various additional programs.

The General Fund reflected a net total favorable budget variance of \$2,659,160 when comparing actual amounts to the final budget for the current fiscal year. This budget variance reflects a favorable variance in revenues of \$2,318,300 and a favorable variance in total expenditures of \$956,816, and an unfavorable variance in transfers out of (\$615,956).

### Capital Asset and Debt Administration

Capital assets. The City's net investment in capital assets for its governmental activities and business-type activities as of June 30, 2019, amounts to \$60,351,839 and \$23,661,335 (net of accumulated depreciation), respectively. This investment in capital assets includes land, buildings, park improvements, roadways, vehicles, computer equipment, furniture, other equipment, and construction in progress.

Additional information on the City's capital assets can be found in Note 3 in the Notes to Financial Statements section of this report.

Long-term debt. At the end of the current fiscal year, the City of South Pasadena had total debt outstanding related to governmental activities of \$48,511,520.

### City of South Pasadena Long-term Debt

Governmental Activities						
	2018					
\$	603,136	\$	801,087			
	14,416,661		14,482,468			
	33,491,723		33,307,942			
\$	48,511,520	\$	48,591,497			
	\$	2019 \$ 603,136 14,416,661 33,491,723	2019 \$ 603,136 14,416,661 33,491,723			

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

The City's long-term debt decreased during the current fiscal year primarily due to a decrease in employee compensated absences.

### Proprietary Fund Long-term Debt

	 Business-Type Activities						
	2019		2018				
2012 State Loan Payable - Direct							
Borrowing	\$ 9,186,997	\$	7,415,790				
SRF State Loan Payable - Direct							
Borrowing	679,462		-				
2013 Water Revenue Bonds	5,010,000		5,370,000				
Issuance Premium	284,053		311,765				
2016 Water Revenue Bonds	36,020,000		36,855,000				
Issuance Premium	 4,212,778		4,420,816				
Total long-term debt	\$ 55,393,290	\$	54,373,371				

Proprietary fund long-term debt increased \$1,019,919 during the current fiscal year due to drawdown on the 2012 State Loan and the initialization of the SRF State Loan. The further increase is offset by payments towards the principal for the 2012 State Loan, 2013 Water Revenue Bonds, and 2016 Water Revenue Bonds. Further details on long-term debt can be found in Notes 5 through 7 in the Notes to Financial Statements section of this report.

### Economic Factors and Next Year's Budget

- Increases in the contributions toward employee pensions through the California Public Employees Retirement System (PERS) as well as the increasing unfunded liability for Other Post-Employment Benefits remain serious concerns. In order to begin addressing these issues, the South Pasadena City Council has already committed \$1,000,000 of the General Fund balance towards funding retiree benefits and has prepaid the annual unfunded liability for both classic miscellaneous and safety employees
- Sales taxes generally are a direct reflection of the general economy. The City has a mature
  tax base, with no big box stores or car dealerships, etc. Sales taxes have been increasing.
  The City has emerged from recession and receipts have moved back to pre-recession levels.

During the 2019 fiscal year, unassigned fund balance in the General Fund remained substantial at \$12,017,146. The fiscal year 2020 Budget includes funding for much-needed capital improvements to the City's streets, sewer and water systems, the latter being funded with proceeds from the drawdown from the 2012 State Loan and the SRF State Loan. It remains the intention of City management not to use fund balance reserves for purposes of meeting costs of operations.

### Requests for Information

This financial report is designed to provide a general overview of the financial position of the City of South Pasadena for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Finance Department, FinanceDepartment@southpasadenaca.gov, 626.403.7250, or by U.S. mail: Finance Department, 1414 Mission Street, South Pasadena, CA 91030.

# RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2019

Fund balances of governmental funds		\$ 28,994,406
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets net of depreciation have not been included as financial		
resources of the governmental funds. This amount excludes capital assets		
reported in the internal service funds.		60,351,839
Deferred outflows and inflows of resources related to pensions have not been		
reported in the governmental funds. These amounts exclude pension related		
deferred outflow and inflows reported in the internal service funds.		
Pension related deferred outflows of resources	\$ 7,808,857	
Pension related deferred inflows of resources	(1,627,244)	
Total other post-employment benefits related deferred inflows of resources	(1,498,428)	
Total other post-employment benefits related deferred outflows of resources	576,642	
		5,259,827
Long-term liabilities are not due and payable in the current period and are not reported in the governmental funds.		
Compensated absences	(603,136)	
Net pension liability	(33,491,723)	
Total other post-employment benefits liability	(14,416,661)	
	<u>,                                      </u>	(48,511,520)
Internal service funds are used to charge the cost of activities to individual funds.  The assets and liabilities are included in governmental activities in the statement		
of net position.		 22,514
Net position of governmental activities		\$ 46,117,066

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

Net changes in fund balances - total governmental funds		\$ 4,844,802
Amounts reported for governmental activities in the statement of activities are different	ent because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period:  Capital asset expenditures, net of deletions of capital assets  Depreciation expense, net of deletions of capital assets	\$ 1,913,465 (3,087,433)	(4.472.000)
Certain revenues in the governmental funds are deferred inflows of resources because they are measurable but not available under the modified accrual basis of accounting. However, the revenues are included on the accrual basis used in the government-wide statements. This amount represents		(1,173,968)
the change during the year:  Grants and other reimbursement revenue		(234,412)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:  Change in compensated absences Changes in total other post-employment benefits related items Changes in pension related items	197,951 (156,307) (975,683)	(934,039)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of the internal service funds is included in the statement of activities.		(36,950)
Changes in net position of governmental activities		\$ 2,465,433

# **Note 1: Summary of Significant Accounting Policies**

## A. Description of Entity

As required by accounting principles generally accepted in the United States of America, these financial statements present the City of South Pasadena, California (the City) and its component units, entities for which the City is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the Government's operation, so data from these units are combined herein. The criteria used in determining the scope of the reporting entity is based on the provisions of GASB Statement No. 14 as amended by Statement 39, 61 and 80 and were as follows:

- 1. The members of the City Council also act as the governing body of the City of South Pasadena Housing Authority (the Authority).
- 2. The Authority is managed by employees of the City.
- 3. The Authority is financially interdependent with the City.

The City of South Pasadena was incorporated on March 2, 1888, under the general laws of the State of California. The City provides a full range of municipal services, including public safety (police and fire), streets, sanitation, refuse collection, sewer, water, parks and recreation, public improvements, planning and zoning, housing and community development, and general administrative and support services.

#### Blended Component Units

City of South Pasadena Housing Authority - The Authority was established pursuant to California Housing Authorities Law (Health and Safety Code Sections 34200 et seq.) on April 6, 2011. The purpose of the Housing Authority is to provide safe and sanitary housing opportunities for South Pasadena residents. The primary government has operational responsibility for the Housing Authority. Although the Housing Authority is legally separate, it is reported as if it were part of the City because the City Council also serves as the governing board of the Housing Authority. Separate financial statements of the Housing Authority are not prepared. Additionally, the Housing Authority took over the housing activities from the former Community Redevelopment Agency due to its dissolution on January 31, 2012.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

## Note 1: Summary of Significant Accounting Policies (continued)

#### B. Government-wide and Fund Financial Statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

# C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting.

## Note 1: Summary of Significant Accounting Policies (continued)

# C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The City reports the following major governmental fund:

 The <u>General Fund</u> is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The City reports the following major proprietary funds:

- The <u>Water Fund</u> is used to account for the construction, operation, and maintenance of the City-owned water system.
- The <u>Sewer Fund</u> is used to account for the provision of sewer construction, maintenance, and operation services to residents of the City.

The City's fund structure also includes the following fund types:

- The <u>Private Purpose Trust Fund</u> accounts for the assets and liabilities of the former community redevelopment agency and its allocated revenue to pay estimated installment payments of enforceable obligations until obligations of the former community redevelopment agency are paid in full and assets have been liquidated. Please refer to Note 10 for more information.
- The <u>Internal Service Fund</u> is used to accumulate and allocate costs internally among
  the City's functions for general liability and worker's compensation insurance. Because
  the internal service operations benefit both governmental and business-type functions,
  they have been proportionally allocated and included within the governmental and
  business-like activities in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

# **Note 1: Summary of Significant Accounting Policies (continued)**

# C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Proprietary funds and internal service fund distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City has elected to follow all pronouncements of the GASB.

### D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity

#### Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. For financial statement presentation purposes, cash and cash equivalents are shown as both restricted and unrestricted cash and investments in the Governmental and Proprietary Funds.

Investments for the City, as well as for its component units, are reported at fair value. The City's policy is generally to hold investments until maturity or until market values equal or exceed cost. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

# Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans), or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

# NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

### Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Receivables and Payables (continued)

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

Property tax revenue is recognized in the fiscal year for which the taxes have been levied providing they become available. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter (not to exceed 60 days) to be used to pay liabilities of the current period. The County of Los Angeles collects property taxes for the City. Tax liens attach annually as of 12:01 A.M. on the first day in January proceeding the fiscal year for which the taxes are levied. The tax levy covers the fiscal period July 1 to June 30. All secured personal property taxes and one-half of the taxes on real property are due November 1; the second installment is due February 1. All taxes are delinquent, if unpaid, after December 10 and April 10, respectively. Unsecured personal property taxes become due on the first of March each year and are delinquent after August 31.

#### Functional Classifications

Expenditures of the Governmental Funds are classified by function. Functional classifications are defined as follows:

General Government includes legislative activities which have a primary objective of providing legal and policy guidelines for the City. Also included in this classification are those activities which provide management or support services across more than one functional area.

Public Safety includes those activities which involve the protection of people and property.

Community Development includes those activities which involve the enhancing of the general quality of life.

Community Services includes activities such as administering the Senior Center, recreation classes, and special events committees.

Public Works includes those activities that involve the maintenance and improvement of City streets, roads and park department development and maintenance.

Capital Outlay includes those activities that account for the acquisition of capital assets.

#### Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Functional Classifications (continued)

#### Inventories

Inventory consisting primarily of materials and supplies is held by the Water Enterprise Fund. Such goods are valued using the average-cost method applied on a first-in, first-out (FIFO) basis. Inventories reported in the City's General Fund are charged to inventories when purchased and treated as an expenditure when issued.

### Restricted Assets

Certain proceeds of debt issues, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet and statement of net position because their use is limited by applicable bond covenants. In addition, funds have been restricted for future capital improvements by City resolution.

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 for non-infrastructure assets and \$25,000 for infrastructure assets (amount not rounded). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

### Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Functional Classifications (continued)

Capital Assets (continued)

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Improvements other than buildings	10 - 25
Machinery and equipment	3 - 30
Vehicles	8
Infrastructure	Years
Sewer collection system	60
Storm drain system	60
Bridges	60
Hardscape	40
Parkways and medians	40
Pavement, curbs and gutters, and sidewalks	35
Streetlights	20
Electronic traffic control devices	20

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and balance sheet of governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position and balance sheet of governmental funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from three sources: property taxes, special assessments, and reimbursable grants billed but not yet available. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

## Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Functional Classifications (continued)

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

# Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

### Compensated Absences

It is the policy of the City to record the cost of annual vacation as accrued. Employees are 100% vested in accrued vacation after six months of employment. The entire compensated absence liability for the Enterprise Fund is accrued as earned in the Enterprise Fund. All accumulated compensated absence liability of governmental funds is accrued when incurred in the government-wide financial statements. Compensated absences are reported in governmental funds only if they have matured.

It is the policy of the City to pay sick leave as used; accordingly, the expenditures are recorded when paid. Sick leave does not vest with employees. Accordingly, employees do not receive a payout for unused sick leave upon termination, although employees do receive credit for unused sick leave upon retirement.

# Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Functional Classifications (continued)

#### Pensions

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website at www.calpers.ca.gov.

GASB Statement No. 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date (VD)
Measurement Date (MD)
Measurement Period (MP)

June 30, 2017 June 30, 2018

July 1, 2017 to June 30, 2018

Other Postemployment Benefits (OPEB)

For purposes of measuring the totaled OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD)
Measurement Date (MD)
Measurement Period (MP)

January 1, 2018 June 30, 2018

July 1, 2017 to June 30, 2018

#### Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Functional Classifications (continued)

Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Fund Equity

In the fund financial statements, governmental funds report the following fund balance classification:

Nonspendable include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted include amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws of regulations of other governments or (b) by law through constitutional provisions or enabling legislation.

Committed include amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest authority, City Council. The formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution of the City Council.

Assigned include amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The City Council, with Resolution No. 7152, authorized the Finance Director to assign fund balance amounts for specific purposes.

Unassigned include the residual amounts that have not been restricted, committed, or assigned to specific purposes. The General Fund is the only fund that can report a positive unassigned fund balance.

## Note 1: Summary of Significant Accounting Policies (continued)

# D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Functional Classifications (continued)

Fund Equity (continued)

An individual governmental fund could include nonspendable resources and amounts that are restricted or unrestricted (committed, assigned, or unassigned) or any combination of those classifications. Restricted amounts are to be considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and committed, assigned, and then unassigned amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balances classifications can be used.

The City Council adopts and amends committed and assigned fund balance amounts for specific purposes through a resolution. When expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted amounts to be used first. When expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, they are considered to be spent in the order as follows: committed, assigned, and then unassigned.

### Net Position

In the government-wide financial statements and proprietary fund financial statements, net position is classified as follows:

<u>Net Investment in Capital Assets</u> – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of those assets.

<u>Restricted</u> – This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

<u>Unrestricted</u> – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

#### E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses, during the reporting period. Actual results could differ from those estimates.

# Note 1: Summary of Significant Accounting Policies (continued)

### F. Implementation of New Accounting Principle

Effective July 1, 2018, the City adopted the provisions of GASB Statement No. 88 Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. The objective of GASB Statement No. 88 is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for the purposes of disclosure in notes to financial statements and requires that additional essential information related to debt be disclosed in notes to the financial statements and requires that additional essential information related to debt be disclosed in the notes to the financial statements.

#### Note 2: Cash and Investments

Cash and investments are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments	\$ 41,413,821
Cash and investments with fiscal agents	1,156,612
Statement of fiduciary net position:	
Cash and investments	65,548
Cash and investments with fiscal agents	 199,270
Total cash and cash equivalents	\$ 42,835,251

Cash and investments at June 30, 2019, consists of the following:

Cash and cash equivalents:		
Petty cash	\$	7,434
Deposits with financial institutions		3,680,744
Investments	<u></u>	39,147,073
Total cash and cash equivalents	_\$_	42,835,251

The City of South Pasadena maintains a cash and investment pool that is available for use for all funds. Each fund type's position in the pool is reported on the combined balance sheet as cash and investments. The City has adopted an investment policy which authorizes it to invest in various investments.

## Note 2: Cash and Investments (continued)

## A. Deposits

At June 30, 2019, the carrying amount of the City's deposits was \$3,680,744 and the bank balance was \$3,898,534. The \$217,790 difference represents outstanding checks and other reconciling items.

The California Government Code requires California banks and savings and loan associations to secure a City's deposits by pledging government securities with a value of 110% of a City's deposits. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of a City's total deposits. The City Treasurer may waive the collateral requirement for deposits which are fully insured up to \$250,000 by the FDIC. The collateral for deposits in federal and state chartered banks is held in safekeeping by an authorized Agent of Depository recognized by the State of California Department of Banking. The collateral for deposits with savings and loan associations is generally held in safekeeping by the Federal Home Loan Bank in San Francisco, California as an Agent of Depository. These securities are physically held in an undivided pool for all California public agency depositors.

Under Government Code Section 53655, the placement of securities by a bank or savings and loan association with an "Agent of Depository" has the effect of perfecting the security interest in the name of the local governmental agency. Accordingly, all collateral held by California Agents of Depository are considered to be held for, and in the name of, the local governmental agency.

# Note 2: Cash and Investments (continued)

#### **B.** Investments

Under provision of the City's investment policy, and in accordance with Section 53601 of the California Government Code, the City may invest in the following types of investments:

Authorized Investment Type	Authorized by Investment Policy	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer	Minimum Quality Requirements
Local Agency Bonds	Yes	5 years	None	None	N/A
U.S. Treasury Obligations	Yes	5 years	None	None	N/A
State Obligations - CA & Others	Yes	5 years	None	None	N/A
CA Local Agency Obligations	Yes	5 years	None	None	N/A
U.S. Agency Obligations	Yes	5 years	None	None	N/A
Banker's Acceptances	Yes	180 days	40%	30%	N/A
Commercial Paper - Select Agencies	Yes	270 days	25%	10%	A-1
Commercial Paper - Other Agencies	Yes	270 days	40%	None	A-1
Negotiable Certificates of Deposit	Yes	5 years	30%	None	N/A
CD Placement Service	Yes	5 years	30%	None	N/A
Repurchase Agreements	Yes	1 year	None	None	N/A

The City has monies held by trustees or fiscal agents pledged to the payment or security of certain bonds. The California Government Code provides that these monies, in the absence of specific statutory provisions governing the issuance of bonds, may be invested in accordance with the ordinance, resolutions, or indentures specifying the types of investments its trustees or fiscal agents may make.

# C. Investments in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with State statute. The State Treasurer's Office audits the fund annually. The fair value of the position in the investment pool is the same as the value of the pool shares.

## Note 2: Cash and Investments (continued)

#### D. Credit Risk

The City's investment policy limits investments in medium-term notes (MTN's) to those rated "A" or better by a nationally recognized statistical rating organization. Investments in U.S. government securities are not considered to have credit risk and, therefore, their credit quality is not disclosed.

Presented below is the minimum rating required by the City's Investment Policy and the actual rating as of June 30, 2019:

Investment Type	Amount	Minimum Legal Rating	Exempt from Disclosure		AA+	<u> </u>	AA	A+	A	A-	Not Rated
Local Agency Investment Fund	\$ 22,183,13	3 N/A	\$ -	\$ 10	1 20	\$ -	s -	\$ .	s .	s -	\$22,183,133
Money Market Mutual Funds	186.40	B N/A	A 100 PT 20		2.0	-	-				186,408
U.S. Treasury Notes	7 138 28	3 N/A	7,138,283				4		-	-	
Government Agency Securities	4.820.51	2 A		2.6	4.820.512	-				-	-
Medium-Term Notes	4.818,73	<u>7.</u> A		82,829	325 209	240 172	614,683	1,107,110	1,458,355	992.379	
Total	\$ 39 147,97	3	\$ 7.138.283	\$ 82,629	\$ 5.145,721	\$ 240.172	\$ 614.683	\$ 1,107,110	\$ 1,456,355	\$ 992,379	\$,22,369,541

#### E. Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the bank balances, up to \$250,000 is federally insured and the remaining balances are collateralized in accordance with the California Government Code.

#### F. Concentration of Credit Risk

The City's investment policy imposes restrictions on the percentage that the City can invest in a single type of investment in accordance with CA Government Code. In addition, GASB 40 requires a separate disclosure if any single issuer comprises more than 5% of the total investment value. As of June 30, 2019, investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments are as follows:

			Reported		5 0	nonths to 1	1 to 3	3 to 5
Investment Type	issuer		Amount	Interest Rate		year	years	years
Federal National Mortgage Association	FNMA	-\$	2,205,640	1.625% - 1.875%	\$	566,529	\$ 400,936	\$ 1,238,175
Federal Home Loan Mortgage Corporation	FHLMC		1,958,158	1.250% - 2.375%		1,461,013	497,145	-

# Note 2: Cash and Investments (continued)

#### G. Interest Rate Risk

The City's investment policy limits investment maturities, in accordance with CA Government Code, as a means of managing its exposure to fair value losses arising from increasing interest rates. The certificates of deposit in cash with fiscal agent below with a maturity of three to five years are governed by the debt agreements, rather than the City's investment policy. The City has elected to use the segmented time distribution method of disclosure for its interest rate risk.

As of June 30, 2019, the City had the following investments and original maturities:

		Remaining Maturity (in months)									
		·	6	months to 1							
Investment Type	<u>6 n</u>	nonths or less	_	year		1 to 3 years	3 to	5 years	Total		
Local Agency Investment Fund	\$	22,183,133	\$		\$	•	\$	-	\$ 22,183,133

Government Agency Securities		1,461,013		1,063,674		2,295,825		-	4,820,512		
Medium-Term Notes		404,561		380,112	_	4,034,064			4,818,737		
Total	\$	25,218,769	\$	1,847,788	\$	9,563,526	\$ 2,	516,990	\$39,147,073		

#### H. Fair Value Measurements

The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The City categorizes its fair value measurements within the fair value hierarchy established by the generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs.

The following table presents the balances of the assets measured at fair value on a recurring basis as of June 30, 2019.

Investment by Fair Value Level		Fair Value	Level 1		Level 2		Level 3	
Debt securities:		•				-		
Money Market Mutual Funds	\$	186,408	\$	186,408	\$	-	\$	-
U.S. Treasury Notes		7,138,283		7,138,283		-		-
Government Agency Securities		4,820,512		4,820,512		_		-
Medium-Term Notes	_	4,818,737	_	4,818,737		-

## Note 4: Interfund Receivable, Payable and Transfers

#### A. Due To/From Other Funds

At June 30, 2019, the City had the following internal balances:

	Due To Other Funds								
	Nonmajor	Internal							
Due From Other Funds	Funds	Sewer Fund	Service Fund	Total					
General Fund	\$ 1,043,615	\$ 123,313	\$ -	\$ 1,166,928					

The due to General fund of \$1,166,928 for various Nonmajor Governmental Funds, and the Sewer Fund was a result of temporary cash deficit balances in those funds.

#### B. Advances to/from Other Funds

The General Fund advanced \$750,000 to the Sewer Fund on July 11, 2012, in order to fund the construction of the Arroyo Drive, Marengo Ave, Meridian Ave, and Huntington Drive Sewer Improvement Project. The advance bears interest at the City's portfolio rate of return, with payments due within ten years. The balance outstanding at June 30, 2019 is \$450,000.

#### C. Transfers

	 Transfers In								
	 Internal		Non-Major	Total					
	Service		vernmental	Transfers					
	Fund		Funds	Out					
Transfers Out:									
General Fund	\$ 189,956	\$	1,671,000	\$	1,860,956				
Water Enterprise Fund	60,000		_		60,000				
Sewer Enterprise Fund	20,000				20,000				
Total Transfers In:	\$ 269,956	\$	1,671,000	\$	1,940,956				

All transfers were made as budgeted. \$1,100,000 was transferred from the General Fund to the Street Improvements Fund for various projects including the following: Alpha Ave & Camino Del Sol, Bushnell Ave & Diamond Ave, El Centro, Etc. \$546,000 was transferred from the General Fund to the Facilities and Equipment Capital Projects Fund for planned facilities maintenance such as improvements to the War Memorial Building and \$25,000 was transferred from the General Fund to the LLMD Fund for Professional Tree Removal and replacement. A total of \$269,956 was transferred to the internal service fund from the General Fund, Water Fund, and Sewer Fund as listed above for the Cost Allocation Plan.

#### Note 5: Long-Term Debt

The following is a summary of changes in long-term liabilities for the year ended June 30, 2019:

	Balance June 30, 2018	Additions	Deletions	Balance	Due Within
Business Tune Astivities	June 30, 2016	Additions	Deletions	June 30, 2019	One Year
Business-Type Activities:					
2012 State Loan Payable - Direct Borrowing	\$ 7,415,790	\$ 1,958,844	\$ (187,637)	\$ 9,186, <del>99</del> 7	\$ -
SRF State Loan Payable - Direct Borrowing	-	679,462	-	679,462	-

Total Business-Type Activities	\$ 54,373,371	\$ 2,638,306	\$ (1,618,387)	\$ 55,393,290	\$ 1,460,750

# 2012 State Loan Payable (Direct Borrowing)

California State Water Resources Control Board loaned the City an assessable amount of \$11,000,000 over the term agreement starting December 1, 2013 through May 30, 2037. The proceeds from the loan are to be used by the City for its rehabilitation and replacement of the City's sewer infrastructure. The loan acts as an installment sale agreement, in which, the City must expend its own funds prior to drawing on the accessible loan amount for reimbursement. Repayment of project funds, together with all interest accrued thereon, by the City shall be repaid in annual installments commencing 1 year after the completion of the project. For the period ended June 30, 2019, the amount payable to the California State Water Resources Control Board was \$9,186,997.

#### SRF State Loan Payable (Direct Borrowing)

California State Water Resources Control Board loaned the City an assessable amount of \$10,803,550 over the term agreement starting November 15, 2017 through January 1, 2050. The proceeds from the loan are to be used by the City for the Graves Reservoir Replacement Project. The loan acts as an installment sale agreement, in which, the City must expend its own funds prior to drawing on the accessible loan amount for reimbursement. Repayment of project funds, together with all interest accrued thereon, by the City shall be repaid in annual installments commencing 1 year after the completion of the project. The balance outstanding as of June 30, 2019 is \$679,462.

# Note 5: Long-Term Debt (continued)

### 2013 Water Revenue Bonds

In March, 2013, the South Pasadena Public Financing Authority issued \$6,995,000 Water and Wastewater Revenue Bonds, 2013 Series A. The bonds were issued to refund of a portion of the outstanding California Statewide Communities Development Authority Water and Wastewater Revenue Bonds, Series 2004A that were issued on behalf of the City of South Pasadena, to purchase a surety for a reserve fund for the Bonds, and to pay costs of issuance of the bonds. The bonds are secured by a pledge of system net revenues of the City's water system.

Bond proceeds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. In addition, funds have been restricted for future capital improvements by City resolution.

The serial bonds mature annually from October 1, 2014 to October 1, 2029, in increasing amounts from \$325,000 to \$545,000. The bonds bear interest at rates ranging from .35% to 3.4%. The term bonds mature on October 1, 2029, and carry an interest rate of 5.0%. Interest is payable semi-annually on April 1 and October 1, commencing on October 1, 2014 and October 1, 2029, respectively.

If the City defaults on its obligations to make debt service payments on the bonds, the trustee, as assignee of the City, has the right to accelerate the total unpaid principal amount of the bonds. However, in the event of a default and such acceleration, there can be no assurance that the trustee will have sufficient moneys available for payment of the bonds.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2019, including interest are as follows:

Year Ending June 30,	Principal		Interest	Total
2020	\$ 375,000	\$	174,288	\$ 549,288
2021 2022	390,000 405,000		158,988 143,088	548,988 548,088
2023 2024	420,000 435,000		128,688 113,688	548,688 548,688
2025-2029 2030	2,440,000 545,000		298,209 8,516	 2,738,209 553,516
Total	\$ 5,010,000	_\$	1,025,465	\$ 6,035,465

# Note 5: Long-Term Debt (continued)

### 2016 Water Revenue Bonds

In November, 2016, the City of South Pasadena issued \$37,845,000 Water Revenue Refunding Bonds. The bonds were issued to refund all of the outstanding 2009 Water Revenue Bonds, purchase a municipal bond insurance policy to guarantee payment of the principal of and interest on the 2016 bonds and to pay costs of issuance of the 2016 bonds.

The serial bonds mature annually from October 1, 2017 to October 1, 2036, in amounts from \$835,000 to \$2,610,000. The bonds bear interest at rates ranging from 2% to 5%. The term bonds mature on October 1, 2039, and carry an interest rate of 5.0%. Interest is payable semi-annually on April 1 and October 1, commencing and ending on April 1, 2017 and April 1, 2037, respectively.

If the City defaults on its obligations to make debt service payments on the bonds, the trustee, as assignee of the City, has the right to accelerate the total unpaid principal amount of the bonds. However, in the event of a default and such acceleration, there can be no assurance that the trustee will have sufficient moneys available for payment of the bonds.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2019, including interest are as follows:

Year Ending June 30,	Principal		Interest		Total		
2222		_		_			
2020	\$ 850,000	\$	1,576,988	\$	2,426,988		
2021	880,000		1,551,038		2,431,038		
2022	905,000		1,519,738		2,424,738		
2023	945,000		1,482,738		2,427,738		
2024	985,000		1,439,213		2,424,213		
2025-2029	5,755,000		6,382,813		12,137,813		
2030-2034	9,710,000		4,590,113		14,300,113		
2035-2039	13,050,000		1,824,212		14,874,212		
2040	2,940,000		49,613		2,989,613		
	 		_		_		
Total	\$ 36,020,000	\$	20,416,466	\$	56,436,466		

#### **Note 6: Compensated Absences**

The City's liability at June 30, 2019 for vested and unpaid compensated absences (accrued vacation and compensatory time) is as follows:

	 Balance e 30, 2018		Additions	 Deletions	Balance e 30, 2019	 ie Within ne Year
Governmental activities Business-type activities	\$ 801,087 42,291	\$	603,304 14,545	\$ (801,255) (35,562)	\$ 603,136 21,274	\$ 60,314 2,127
Total compensated absences payable	\$ 843,378	_\$_	617,849	\$ (836,817)	\$ 624,410	\$ 62,441

Compensated absences are paid, if matured, out of the General Fund and other various special revenue funds.

#### Note 7: City Employees Defined Benefit Pension Plan

#### A. General Information about the Pension Plans

# Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The City sponsors five rate plans (two miscellaneous and three safety). Benefit provisions under the Plan are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website, at www.calpers.ca.gov.

#### **Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

# Note 7: City Employees Defined Benefit Pension Plan (continued)

# A. General Information about the Pension Plans (continued)

The Plan operates under the provisions of the California Public Employees' Retirement Law (PERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by the CalPERS Board of Administration. The Plan's authority to establish and amend the benefit terms are set by the PERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the CalPERS Board.

#### Benefits Provided

The Plans' provisions and benefits in effect at June 30, 2019, are summarized as follows:

Miscellaneous		
Prior to	On or after	
January 1, 2013	January 1, 2013

#### **Employees Covered**

At June 30, 2017 (valuation date), the following employees were covered by the benefit terms:

	Miscellaneous - Classic	Miscellaneous - PEPRA	Safety - Classic	Safety - PEPRA
Inactive employees or beneficiaries	•	·		
currently receiving benefits	144	-	138	-
Inactive employees entitled to but				
not yet receiving benefits	184	20	31	7
Active employees	69	37	39	11_
Total	397	57	208	18

# Note 7: City Employees Defined Benefit Pension Plan (continued)

### A. General Information about the Pension Plans (continued)

#### **Contributions**

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions. Employer Contributions to the Plan for the fiscal year ended June 30, 2019 were \$3,460,075. The actual employer payments of \$3,082,379 made to CalPERS by the City during the measurement period ended June 30, 2018 differed from the City's proportionate share of the employer's contributions of \$4,216,267 by \$1,133,888. which is being amortized over the expected average remaining service lifetime in the Public Agency Cost-Sharing Multiple Employer Plan.

#### **B.** Net Pension Liability

The City's net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2018, using an annual actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is as follows:

#### Actuarial Methods and Assumptions Used to Determine Total Pension Liability

Valuation Date June 30, 2017

Measurement Date June 30, 2018

Actuarial Cost Method Entry Age Normal

Asset Valuation Method Market Value of Assets

Actuarial Assumptions:

Discount Rate 7.15%

Inflation 2.50%

Salary Increases (1) 3.3% - 14.2%

Mortality Rate Table (2) Derived using CALPERS'

Post Retirement Benefit Increase Contract COLA up to 2.75% until purchasing power protection

(1) Annual increases vary by category, entry age, and duration of service

<sup>(2)</sup> The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

# Note 7: City Employees Defined Benefit Pension Plan (continued)

#### B. Net Pension Liability (continued)

All other actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website, at www.calpers.ca.gov.

# Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by asset class are as follows:

Asset Class <sup>1</sup>	Current Target Allocation	Real Return Years 1 - 10 <sup>2</sup>	Real Return Year 11+ <sup>3</sup>
Global equity	50.0%	4.80%	5.98%
Fixed income	28.0%	1.00%	2.62%
Inflation assets		0.77%	1.81%
Private equity	8.0%	6.30%	7.23%
Real assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92%)
Total	100.0%		

<sup>&</sup>lt;sup>1</sup> In the System's CAFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

<sup>&</sup>lt;sup>2</sup> An expected inflation of 2.0% used for this period

<sup>&</sup>lt;sup>3</sup> An expected inflation of 2.92% used for this period

#### NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

#### Note 7: City Employees Defined Benefit Pension Plan (continued)

#### B. Net Pension Liability (continued)

#### Change of Assumptions

In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate.

#### Discount Rate

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Pension Plan Fiduciary Net Position

Information about the pension plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position are presented in CalPERS' audited financial statements, which are publicly available reports that can be obtained at CalPERS' website, at www.calpers.ca.gov. The plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis used by the pension plan, which is the economic resources measurement focus and the accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

The plan fiduciary net position disclosed in the GASB 68 accounting valuation report may differ from the plan assets reported in the funding actuarial valuation report due to several reasons. First, for the accounting valuations, CalPERS must keep items such as deficiency reserves, fiduciary self-insurance and Other Post-Employment Benefits (OPEB) expense included as assets. These amounts are excluded for rate setting purposes in the funding actuarial valuation. In addition, differences may result from early Comprehensive Annual Financial Report closing and final reconciled reserves.

#### Note 7: City Employees Defined Benefit Pension Plan (continued)

#### C. Proportionate Share of Net Pension Liability

The following table shows the Plans' proportionate share of the net pension liability over the measurement period.

#### Miscellaneous Plan

	Increase (Decrease)						
	Plar	Plan Total Pension		Plan Fiduciary Net		Plan Net Pension	
		Liability		Position		Liability	
	I	(a)		(b)		(c ) = (a) - (b)	
Balance at: 6/30/2017 (MD)	\$	49,340,576	\$	36,480,686	\$	12,859,890	
Balance at: 6/30/2018 (MD)		50,430,227		37,923,852		12,506,375	
Net Changes during 2017-18		1,089,651		1,443,166		(353,515)	

#### Safety

		Increase (Decrease)						
	Plan	Plan Total Pension		Plan Fiduciary Net		Plan Net Pension		
		Liability		Position		Liability		
		(a)		(b)		(c) = (a) - (b)		
Balance at: 6/30/2017 (MD)	\$	86,843,812	\$	63,293,621	\$	23,550,191		
Balance at: 6/30/2018 (MD)		89,590,960		65,701,200		23,889,760		
Net Changes during 2017-18		2,747,148		2,407,579		339,569		

Valuation Date (VD), Measurement Date (MD)

The City's net pension liability for each of the cost sharing, multiple-employer Plans is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2018, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018, using standard update procedures. The City's proportion of the net pension liability was determined by CalPERS using the output from the Actuarial Valuation System and the fiduciary net position, as provided in the CalPERS Public Agency Cost-Sharing Allocation Methodology Report, which is a publicly available report that can be obtained at CalPERS' at www.calpers.ca.gov. The City's proportionate share of the net pension liability for each Plan as of June 30, 2017, and 2018, was as follows:

	Miscellaneous	Safety
Proportionate Share of NPL - June 30, 2017	0.32622%	0.39413%
Proportionate Share of NPL - June 30, 2018	0.33185%	0.40715%
Change - Increase	0.00563%	0.01302%

#### Note 7: City Employees Defined Benefit Pension Plan (continued)

#### C. Proportionate Share of Net Pension Liability (continued)

### Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability of each Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

	Disc	ount Rate - 1% (6.15%)	ı	rrent Discount Rate (7.15%)	Disc	ount Rate + 1% (8.15%)
Miscellaneous Plan's Net Pension Liability	\$	19,328,131	\$	12,506,375	\$	6,875,127
Safety Plan's Net Pension Liability	\$	36,240,448	\$	23,889,760	\$	13,770,583

#### Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

#### Recognition of Gains and Losses

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings

5 year straight-line amortization

All other amounts

Straight-line amortization over the expected average remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the Public Agency Cost-Sharing Multiple-Employer Plan (PERF C).

#### Note 7: City Employees Defined Benefit Pension Plan (continued)

#### C. Proportionate Share of Net Pension Liability (continued)

The EARSL for PERF C for the measurement period ending June 30, 2018 is 3.8 years, which was obtained by dividing the total service years of 516,147 (the sum of remaining service lifetimes of the active employees) by 135,474 (the total number of participants: active, inactive, and retired). Note that inactive employees and retirees have remaining service lifetimes equal to 0. Also note that total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

## D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

As of the start of the measurement period (July 1, 2017), the City's net pension liability was \$36,410,081. For the measurement period ending June 30, 2018 (the measurement date), the City incurred a pension expense of \$4,351,440.

As of June 30, 2019, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

	Miscel	laneous	Saf	ety
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of Assumptions	\$ 1,076,337	\$ -	\$ 2,027,754	\$ -
Differences between Expected and Actual Experience Differences between Projected and Actual	316,558	-	511,363	•
Investment Earnings	61,828	-	161,745	•
Differences between Employer's Contributions and Proportionate Share of Contributions	-	(299,359)	-	(1,059,679)
Change in Employer's Proportion	115,834	(75,104)	754,549	(334,217)
Pension Contributions Made Subsequent to				
Measurement Date	1,352,663		2,107,412	
	\$ 2,923,220	\$ (374,463)	\$ 5,562,823	\$ (1,393,896)

These amounts above are net of outflows and inflows recognized in the 2017-18 measurement period expense. Contributions subsequent to the measurement date of \$3,460,075 reported with deferred outflows of resources will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Fiscal Year	Deferred Outflows/							
Ended	(Inflows) of Resources, Net							
June 30,	Mi	scellaneous	Safety					
2020	\$	1,126,319	\$ 1,863,039					
2021		618,829	1,010,268					
2022		(436,566)	(646,321)					
2023		(112,488)	(165,471)					
2024		-	-					
Thereafter		_	-					

#### Note 7: City Employees Defined Benefit Pension Plan (continued)

#### E. Payable to the Pension Plan

At June 30, 2019, the City reported a payable of \$0 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2019.

#### F. Pension Plan Summary

Miscellaneous plan NPL Safety plan NPL	\$ 12,506,375 23,889,760
Combined NPL	\$ 36,396,135
Governmental NPL Business-type	\$ 33,491,723
NPL	 2,904,412
Total NPL	\$ 36,396,135

#### **Note 8: Other Post-Employment Benefits**

#### A. Plan Description

The City provides certain other post-employment benefits (OPEB) through a single-employer defined benefit healthcare plan which provides health insurance for its retired employees according to the Personnel Rules and Regulations for each of the five employee groups. Benefit provisions are included annually in the Memorandum of Understanding between the City and each of its employee groups and ultimately passed by Council action. Separate financial statements for the plan are not available.

#### **B.** Employees Covered

As of the June 30, 2018 measurement date, the following numbers of participants were covered by the benefit terms under the Plan:

Active employees	152
Inactive employees or beneficiaries currently receiving benefits	96
Inactive employees entitled to, but not yet receiving benefits	23
Total	271

#### C. Funding Policy

The contribution requirements of plan members and the City are established and may be amended by the City, City Council and/or employee associations. Currently, contributions are not required from plan members.

#### Note 8: Other Post-Employment Benefits (continued)

#### C. Funding Policy (continued)

The City pays for postemployment health insurance on a pay-as-you-go basis (no prefunding). For fiscal year 2018-2019, the City paid \$644,554 for other postemployment benefits.

#### D. Total OPEB Liability

The City's total OPEB liability was measured as of June 30, 2018 and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation using the Alternative Measurement Method dated January 1, 2017 that was rolled forward to determine the June 30, 2018 total OPEB liability, based on the following actuarial methods and assumptions:

Actuarial Assumptions	June 30, 2018 Measurement Date
Actuarial Valuation Date	January 1, 2017
Contribution Policy	No pre-funding
Discount Rate	3.87% at June 30, 2018
	(Bond Buyer 20-Bond Index)
	3.58% at June 30, 2017
	(Bond Buyer 20-Bond Index)
General Inflation	2.75% annually
Mortality, Retirement,	CalPERS 1997-2011 Experience Study
Disability, Termination	
Salary increases	Aggregate - 3% annually
Medical Trend	Non-Medicare – 7.5% for 2019, decreasing to an
	ultimate rate of 4.0% in 2076
	Medicare – 6.5% for 2019, decreasing to an
	ultimate rate of 4.0% in 2076 and later
Healthcare Participation	90% of employees hired prior to July 1, 2012
	50% of employees receiving PEMHCA minimum

#### E. Discount Rate

A discount rate of 3.87 percent was used in the valuation for measurement date June 30, 2018.

#### Note 8: Other Post-Employment Benefits (continued)

#### F. Changes in the OPEB Liability

The changes in the total OPEB liability for the Plan are as follows:

	(a)	(b) Plan	(a) - (b) = (c)
	Total OPEB Liability	Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2018			
(6/30/17 measurement date)	\$ 16,723,404	\$ -	\$ 16,723,404
Changes recognized for the measurement period:			
Service cost	560,960	-	560,960
Interest	607,364	-	607,364
Changes in assumptions	(606,526)	-	(606,526)
Benefit payments	(637,788)	_	(637,788)
Net changes	(75,990)	-	(75,990)
Balance at June 30, 2019			
(6/30/18 measurement date)	\$ 16,647,414	\$ -	\$ 16,647,414

#### G. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

	1% Decrease (2.87%)	Current Discount Rate (3.87%)			1% Increase (4.87%)		
Total OPEB Liability	\$ 18,934,735	\$	16,647,414	\$	14,767,986		

#### H. Sensitivity of the Total OPEB Liability to Changes in the Health Care Trend Rates

The following presents the total OPEB liability of the City if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

	Current Healthcare						
	1% Decrease		Cost Trend Rates			1% Increase	
Total OPEB Liability	\$	15,492,061	\$	16,647,414	\$	18,037,267	

#### I. OPEB Plan Fiduciary Net Position

As the City is not prefunding with an OPEB trust, Plan Fiduciary Net Position was \$0 at the June 30, 2018 measurement date.

#### Note 8: Other Post-Employment Benefits (continued)

#### I. OPEB Plan Fiduciary Net Position (continued)

#### Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The net difference between projected and actual earnings on OPEB plan investments is amortized using the straight-line method over 5 years, while all other amounts are amortized over the expected average remaining service lifetime (EARSL) of plan participants.

#### J. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2019, the City recognized OPEB expense of \$846,362. As of fiscal year ended June 30, 2019, the City reported deferred outflows of resources related to OPEB from the following sources:

	 red Outflows Resources	Deferred Inflows of Resources	
Changes in assumptions Contributions to OPEB plan subsequent to the measurement date	\$ - 665,869	\$	(1,730,287) -
Total	\$ 665,869	\$	(1,730,287)

The \$665,869 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2018 measurement date will be recognized as a reduction of the net OPEB liability during the fiscal year ending June 30, 2019. Other amounts reported as deferred outflows or inflows of resources related to OPEB will be recognized as expense as follows:

	Deferred
Fiscal Year Ended	Outflows/(Inflows)
June 30	of Resources
2019	\$ (328,728)
2020	(328,728)
2021	(328,728)
2022	(328,728)
2023	(328,731)
Thereafter	(86,644)
	\$ (1,730,287)

#### NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

#### Note 9: Insurance

The City is partially self-insured for general liability insurance. The City is responsible for claims up to \$100,000 per occurrence. Coverage in excess of the City's self-insured retention is purchased through CSAC Excess Insurance Authority (CSAC-EIA) up to the statutory limits. The City participates in a risk pool for general liability insurance through CSAC-EIA above the City's self-insured retention of \$100,000 up to \$4,900,000 per occurrence. Reinsurance coverage in excess of the pool layer up to \$25,000,000 is purchased through CSAC-EIA. CSAC-EIA retains responsibility for claims in excess of each member's self-insured retention.

For workers' compensation insurance, the City is covered from the first dollar. Coverage between \$1 and \$5,000,000 is provided by CSAC-EIA. CSAC-EIA participates in an excess pool which provides coverage from \$5,000,000 to \$50,000,000 and purchases excess insurance above \$50,000,000 to the statutory limit.

Workers' compensation and general liability claims incurred prior to July 1, 2014 were covered through the City's participation in the California Joint Powers Insurance Authority.

#### Note 10: Commitments and Contingencies

Due to the occurrence of several spills from the City's sanitary sewer system, the City entered into a settlement on November 16, 2011, with the Regional Water Quality Control Board, Los Angeles Region and the state Attorney General for violations of the state's general waste discharge requirements. The settlement required the City to cover fines and attorney fees, complete repairs to its sanitary sewer system over a 10 year period, and implement specified system maintenance programs. These requirements will be monitored through an open court proceeding and, if not met; the City could be subjected to further monetary penalties.

The City is presently involved in certain matters of litigation that have arisen in the normal course of conducting City business. City management believes that based upon consultation with the City Attorney, that these cases in the aggregate are not expected to result in a material adverse financial impact on the City beyond that already accrued for in the basic financial statements. Additionally, City management believes that sufficient resources are available to the City to cover any potential losses, should an unfavorable outcome materialize.

#### Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("the Bill") that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City of South Pasadena that previously had reported a community redevelopment agency within the reporting entity of the City as a blended component unit.

## Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency (continued)

The Bill provides that upon dissolution of a community redevelopment agency, a "successor agency" is to be established to hold the assets until they are distributed to other units of state and local government. On January 4, 2012, the City Council elected to become the Successor Agency for the former community redevelopment agency in accordance with the Bill as part of City resolution number 7205.

After enactment of the law, which occurred on June 28, 2011, community redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

Successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former community redevelopment agency until all enforceable obligations of the prior community redevelopment agency have been paid in full and all assets have been liquidated.

#### Cash and investments

At June 30, 2019, Cash and investments reported in the accompanying financial statements consisted of the following:

Cash and investments pooled with the City	\$ 65,548
Cash and investments with fiscal agent	 199,270
	\$ 264,818

#### Long-term debt

The following is a summary of changes in long-term liabilities for the year ended June 30, 2019:

		Balance			1	Balance	Di	ue Within
	Ju	ne 30, 2018	 Additions	 Deletions	Jun	e 30, 2019		ne Year
2000 Tax Allocation Bond	\$	1,095,000	\$ -	\$ (130,000)	\$	965,000	\$	140,000
Total	\$	1,095,000	\$ 100000000	\$ (130,000)	\$	965,000	\$	140,000

A description of long-term debt outstanding (excluding defeased debt) of the Successor Agency as of June 30, 2019, follows:

## Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency (continued)

#### 2000 Tax Allocation Bonds

In July 2000, the Agency issued \$2,600,000 in tax allocation bonds for the Downtown Revitalization Project No. 1, which mature annually from May 1, 2001 to May 1, 2025, in increasing amounts from \$55,000 to \$195,000, plus interest at 4.4% to 6.0%, payable semiannually on May 1 and November 1, commencing on November 1, 2000. Bonds are subject to redemption at the option of the Agency beginning May 1, 2010, at a price ranging from 102% to 100% of principal value. Debt service on the bonds is provided by incremental property tax revenues generated within the Downtown Redevelopment Project Area. At June 30, 2019, \$965,000 was outstanding.

#### Pledged Revenue

The City pledged, as security for bonds issued, either directly or through the Financing Authority, a portion of tax increment revenue (including Low and Moderate Income Housing set-aside and pass through allocations) that it receives. The bonds issued were to provide financing for various capital projects, accomplish Low and Moderate Income Housing projects and to defease previously issued bonds. Assembly Bill 1X 26 provided that upon dissolution of the community redevelopment agency, property taxes allocated to community redevelopment agencies no longer are deemed tax increment but rather property tax revenues and will be allocated first to successor agencies to make payments on the indebtedness incurred by the dissolved community redevelopment agency. Total principal and interest remaining on the debt is \$1,177,400 with annual debt service requirements as indicated above. For the current fiscal year, the total property tax revenue recognized by the City and Successor Agency for the payment of indebtedness incurred by the dissolved Community Redevelopment Agency was \$191,735 and the debt service obligation on the bonds was \$65,570.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2019, including interest are as follows:

Year Ending June 30,	F	Principal		Interest		Total
2020	\$	140,000	\$	57,900	\$	197,900
2021	Ψ	145,000	Φ	49,500	Ф	194,500
2022		155,000		40,800		195,800
2023		165,000		31,500		196,500
2024		175,000		21,600		196,600
2025		185,000		11,100		196,100
Total	\$	965,000	\$	212,400	\$ =	1,177,400
				•		

## Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency (continued)

#### Insurance

The Successor Agency is covered under the City of South Pasadena's insurance policies. Therefore, the limitation and self-insured retentions applicable to the City also apply to the Successor Agency. Additional information as to coverage and self-insured retentions can be found in Note 9.

#### Note 12: Deficit Fund Balances

The following funds have deficits in fund balance at June 30, 2019:

Fund	Amount	
Nonmajor Governmental Funds:		
Special Revenue Funds:		
MTA Pedestrian Improvement	\$ (29,95	1)
CTC Traffic Improvement	(2	(3)
Rogan HR 5294 Grant	(2,49	7)
Mission Meridian Public Garage	(338,05	3)
County Park Bond	(140,76	3)
Measure W	(51	4)
Homeland Security Grant	(21,07	(8)
MSRC Grant Fund	(7,28	1)
BTA Grants	(245,94	0)
Golden Streets Grant	(346,17	(0)
HSIP Grant	(46,52	1)

The City intends to fund these deficits with future revenue, transfers and reductions of expenditures in future years.

#### NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

#### **Note 13: Supplementary Budget Information**

Excess of expenditures over appropriations at the fund level were as follows:

Fund	Appropriations	Expenditures	Excess
Non-Major Governmental Funds:			
Clean Air Act	15,000	22,856	(7,856)
Parking and Business Improvement	139,500	161,500	(22,000)
CDBG	140,834	143,480	(2,646)
Bike and Pedestrian Paths	-	22,735	(22,735)
Park Impact Fees	-	83,374	(83,374)
TDA/Metro Grant	-	8,675	(8,675)
Housing Authority	10,000	10,766	(766)
Facilities & Equipment Capital Project	425,000	565,103	(140,103)

#### Note 14: Restatement of Beginning Fund Balance and Net Position

#### **Fund Statements**

Beginning fund balance on the governmental funds balance sheet for the year ended June 30, 2019 has been restated as follows:

#### General Fund

#### General Fund

Fund balance - beginning, as previously reported Prior period restatement	<b>\$</b>	17,890,983 (2,309,021)
Fund balance - beginning, as restated	\$	15,581,962

Prior year transfers, adjustments, and corrections from various funds were made to correct fund balances for the various special revenue funds.

#### NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

#### Note 14: Restatement of Beginning Fund Balance and Net Position (continued)

#### Fund Statements, (continued)

#### Special Revenue Fund:

#### C.D.B.G.

Fund balance - beginning, as previously reported Prior period restatement	\$ (2,437) 2,437
Fund balance - beginning, as restated	\$ 

CDBG is a reimbursable grant. The revenue from the grant should offset any expenditures up to the limit provided by the grant. An adjustment was made to correct the fund balance to zero to reflect one-to-one match on expenditure and grant revenue.

#### Capital Projects Funds:

#### Facilities & Equipment Replacement Fund

Fund balance - beginning, as previously reported Prior period restatement	\$ 495,412 1,006,584
Fund balance - beginning, as restated	\$ 1,501,996
Streets Improvement Program Fund	
Fund balance - beginning, as previously reported Prior period restatement	\$ 301,309 1,300,000
Fund balance - beginning, as restated	\$ 1,601,309

Prior year budgeted transfers were not made. Adjustments were made to reflect the missed transfers.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

#### Note 14: Restatement of Beginning Fund Balance and Net Position (continued)

#### Fund Statements, (continued)

Beginning net position proprietary funds statement of net position for the year ended June 30, 2019 has been restated as follows:

#### **Proprietary Funds:**

٧	۷	а	te	ı

Net position - beginning, as previously reported Prior period restatement	\$	27,649,718 (2,470)
Net position - beginning, as restated	<u>\$</u>	27,647,248
Sewer		
Net position - beginning, as previously reported Prior period restatement	\$	3,840,240 (37,918)
Net position - beginning, as restated	\$	3,802,322
Arroyo Seco Golf Course		
Net position - beginning, as previously reported Prior period restatement	\$	1,227,920 (42,853)
Net position - beginning, as restated	\$	1,185,067

Adjustments were made to reflect correct beginning net position balances from truing up capital assets and accumulated depreciations from prior years.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2019

#### Note 14: Restatement of Beginning Fund Balance and Net Position (continued)

#### **Government-Wide Statements**

Beginning net position on the Statement of Activities for the year ended June 30, 2019 has been restated as follows:

#### Governmental Activities:

Net position - beginning, as previously reported Prior period restatement	\$ 44,932,581 (1,280,948)
Net position - beginning, as restated	\$ 43,651,633
Business-Type Activities:	
Net position - beginning, as previously reported Prior period restatement	\$ 32,717,878 (83,241)
Net position - beginning, as restated	\$ 32,634,637

The beginning net position of for governmental activities also includes the following prior period adjustment: during fiscal year 2018-19, prior period adjustments were needed to correct the depreciable capital assets.

#### Notes to Schedule:

#### Change in Benefit Terms: None

Changes in Assumptions: In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. In 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2019

#### **General Budget Policies**

Budgetary control is an essential element in governmental financial reporting. The City, a general law city in the State of California, does not legally require a budget. However, the City Council adopted budgets for the General, Special Revenue, and Capital Projects Funds with the exception of the Gold Line Mitigation, Asset Forfeiture, Measure W, Homeland Security Grant, MSRC Grant, BTA Grant, Golden Streets Grant, HSIP Grant, MTA Pedestrian Improvement, CTC Traffic Improvement Grant, Rogan HR 5294 Grant, and Historic Preservation Grant Special Revenue Funds.

To facilitate a greater understanding of the City's operations, budget information for the General, Special Revenue and Capital Projects Funds is included in the accompanying basic financial statements. This detailed budget document is published and is a matter of public record. Each year, the City Manager submits his proposed budget to the City Council. The City Council holds public hearings and may modify the appropriations by majority approval. The legal level of expenditures is controlled at the fund level and operating appropriations lapse at the end of each fiscal year. All budgeted amounts are reported on the same basis as the fund types and adopted on a basis consistent with accounting principles generally accepted in the United States of America. Changes in appropriations at the fund level during the year must be submitted by the City's departments for City Council review and approval. The City Manager may, without Council approval, amend individual line items within any fund and between divisions and programs, in personnel costs, maintenance and operations, capital outlay and capital projects portions of the budget without increasing total appropriations for that fund. Department heads may, without Council approval, amend individual line items within any fund in the maintenance and operation portions of the budget without increasing total appropriations for that division.

SUPPLEMENTARY INFORMATION

#### NON-MAJOR GOVERNMENTAL FUNDS

#### **Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

**201-MTA Pedestrian Improvement Fund** – To account for MTA grants used for the Fair Oaks/Mission pedestrian improvement projects which include pedestrian accessibility, widened bikeways, landscaping, lighting modification and aesthetics.

**205-Proposition "A" Local Return Fund** – To account for all revenues and expenditures associated with the one-half cent sales tax approved by Proposition A in 1980. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.

**207-Proposition "C" Local Return Fund** — To account for all revenues and expenditures associated with the one-half cent sales tax approved by Proposition C in 1990. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.

**208-TDA/Metro Grant Fund** – To account for all revenues and expenditures associated with the TEA/Metro Fund. All revenues of this fund must be expended for transportation-related items.

**211-CTC Traffic Improvement Grant Fund** – To account for state and federal funding of street and intersection improvements relieving congestion at our busiest intersections.

**214-Rogan HR 5294 Grant Fund** – To account for the revenue and expenditures associated with the 110 FWY Hook Ramp Project funded by Rogan grant.

**215-Street Lighting and Landscaping Fund** – To account for the costs associated with the City's street lighting and median landscaping programs. These costs are deemed to benefit all property owners who are assessed their proportionate share of the costs. These assessments are placed on the property tax bill and collected and remitted to the City by the County of Los Angeles.

**217-Public, Education, and Government Fund** – To account for revenues and expenditures used for public education and government access charges that the City's cable franchise collects. Monies in this fund must be used to purchase equipment related to the production of public education and government access television.

**218-Clean Air Act Fund** – To account for revenues and expenditures expended for air quality improvement projects as established by the South Coast Air Quality Management District.

**220-Parking and Business Improvement Tax (BIT) Fund** — To account for business improvement tax returns collected by the City for specified purposes within the Parking and Business Improvement Area: (1) decoration of any public place, (2) promotion of public events; (3) furnishing of music; (4) general promotion of retail trade activities.

#### NON-MAJOR GOVERNMENTAL FUNDS

- **223-Gold Line Mitigation Fund** To account for the MTA's funding for the improvements to the Gold Line Mission Street Station.
- **226-Mission Meridian Public Garage Fund** To account for the revenues and expenditures of the Mission Meridian Public Garage.
- **228-Housing Authority Fund** To account for the revenues and expenditures for the City of South Pasadena Housing Authority.
- **230-State Gas Tax Fund** To account for all state gas tax related revenues and expenditures, including street repair, reconstruction and maintenance. State law requires these gasoline taxes to be used to maintain the City's street and highway system.
- **232-County Park Bond** To account for the revenues and expenditures for the County Park Bond related improvements.
- **233-Measure R Fund** To account for all revenues and expenditures associated with the one-half cent sales tax approved by Measure R in 2009. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.
- **236-Measure M Fund** To account for all revenues and expenditures associated with the one-half cent sales tax approved by Measure M in 2016. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.
- 237-Road Maintenance & Rehab Fund To account for all revenues and expenditures associated with State Gas Tax SB1.
- **238-MSRC Grant Fund** To account for the revenues and expenditures for the Mobile Source Air Pollution Reduction Review Committee projects.
- **239-Measure W Fund** To account for all revenues and expenditures associated with improving conditions of stormwater runoffs funded by parcel tax.
- **245-Bike and Pedestrian Paths Fund** To account for the revenues and expenditures for bike and pedestrian facilities improvements funded by the State of California Transportation Development Act.
- **248-BTA Grant Fund** To account for the revenues and expenditures for the Bicycle Transportation Account (BTA) grant funded by the Los Angeles County Metropolitan Transportation Authority. This grant was awarded to fund two projects from the City's Bicycle Master Plan: the Mission Street Green Sharrow Lane Project and the South Pasadena Bicycle Parking Project.

#### NON-MAJOR GOVERNMENTAL FUNDS

**249-Golden Streets Grant Fund** – To account for the revenues and expenditures for the open streets grant funded by the Los Angeles County Metropolitan Transportation Authority. The goals of the Open Streets Grant Program is to provide opportunities for 1) riding transit, walking and riding a bike, possibly for the first time, 2) to encourage future mode shift to more sustainable transportation modes, and for 3) civic engagement to foster the development of multi-modal policies and infrastructure at the city/community level.

**255-Capital Growth Requirement Fund** – To account for fees paid to the City for building development to be applied towards the costs of public facilities improvements.

**260-Community Development Block Grant (CDBG) Fund** – To account for the revenues and expenditures for Community Development Block Grant projects.

**270-Asset Forfeiture Fund** – To account for proceeds received from forfeiture in narcotics investigations allocated for law enforcement activities.

**272-State Police Grant Fund** – To account for revenue and expenditures for frontline police services funded by COPS (AB 3229) grant.

**274-Homeland Security Grant Fund** – To account for revenue and expenditures the operations of police equipment and conferences funded by Homeland Security.

**275- Park Impact Fees Fund** – To account for the proceeds of a development fee used for the purpose of park facilities improvements and related expenditures.

**277- Highway Safety Improvement Program Grant (HSIP) Fund** – To account for revenues and expenditures related to street improvements funded by the grant.

**276-Historic Preservation Grant Fund** – To account for revenues and expenditures related to historic preservation grant funds.

#### Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

**104-Street Improvements Program Fund** – To account for capital expenditures related to street improvements projects.

105-Facilities and Equipment Replacement Fund - To account the replacement costs of City vehicles and equipment.

**327-2000 Tax Allocation Bonds Fund** – To account for capital expenditures for improvements funded by the bonds formerly held by the Successor Agency to the Community Redevelopment Agency.

Note: \* Estimated Actual Taxable is not available

In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of the property may be increased by an "inflation factor" (limited to a maximum of 2%)
