*Re: Agenda Item #4
Wireless Antennae at 625 Fair Oaks Avenue
From: Filippo Marchino*

To Whom It May Concern:

See below the following questions to the Planning Commission regarding Agenda Item No. 4 at tonight's Public Hearing regarding the proposed new wireless antennae to be located at 625 Fair Oaks Avenue:

1. What data does the Planning Commission rely on when assessing the safety of long-term radiofrequency ("RF") exposure to the tenants and nearby residents of 625 Fair Oaks Avenue?
2. Has an RF exposure survey been conducted at 625 Fair Oaks Avenue to determine that the tenant spaces are safe from exposure beyond the levels permitted by the FCC?
3. What steps are being proposed to mitigate the risks of long-term RF exposure to the tenants and nearby residents of 625 Fair Oaks Avenue.
4. Is there a limit to how many RF antennae the Commission will permit in one location based on increased RF exposure to tenants and nearby residents?

Sincerely,

Filippo Marchino, Esq.
