June xx, 2022

Honorable Mayor and Members of the City Council,

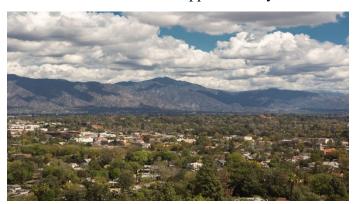

We proudly present to you the City of South Pasadena's Annual Comprehensive Financial Report. This report consists of management's representations concerning the finances of the City of South Pasadena. It was prepared by the Finance Department in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Government Accounting Standards Board (GASB). Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. We believe that the data presented is complete and reliable in all material respects; that it is presented in a manner designed to fairly set forth the financial activity of the City's various funds; and that all disclosures necessary to enable the reader to gain a good understanding of the City's financial activity have been included.

The City's financial statements have been audited by Rogers, Anderson, Malody & Scott, LLP, a licensed certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of South Pasadena's financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors in the financial section of the Annual Comprehensive Financial Report.

Profile of the City of South Pasadena

South Pasadena is located approximately six miles northeast of downtown Los Angeles, on the

west side of the San Gabriel Valley between the cities of Pasadena, San Marino, Los Angeles and Alhambra and has a population of 25,992. Founded in 1874 by the Indiana Colony, the City encompasses 3.44 square miles and was incorporated as a General Law city of the State of California on March 2, 1888. South Pasadena is noted for its beautiful, historically significant homes on tree-lined streets, for its excellent public schools and

for a small-town atmosphere in the midst of greater Los Angeles.

The City is a full-service general law city that operates under the Council-Manager form of government. The City Council consists of five members, each representing one of five districts, elected to four-year staggered terms of office. The Mayor is selected from the City Council members and serves a one-year term. The City's other elected official is the City Treasurer who serves a four-year term of office.

The City provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; sewer services; water utility; refuse collection; public improvements; planning and zoning; recreational activities and cultural events; library operations; and general administrative and support services.

The annual budget serves as the foundation of the City's financial planning and control. The City Council holds public hearings and adopts an annual budget resolution by July 1 of each fiscal year for all funds and account groups. The City Council may modify appropriations with majority approval. The budgets are adopted and presented on a basis consistent with generally accepted accounting principles.

Changes in budget appropriations at the fund level during the year must be approved by the City Council. The legal level of expenditures is controlled at the fund level, and appropriations lapse at the end of each fiscal year unless encumbered for re-appropriation by the City Council in the following fiscal year. Department heads may, without Council approval, amend individual line items within their departments, within the same fund and only within the maintenance and operations portions of the budget, without increasing total appropriations. The City Manager may, without Council approval, amend individual line items within any fund, and between divisions and programs, in the personnel costs, maintenance and operations, capital outlay and capital projects portions of the budget without increasing total appropriations for that fund.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the environment within which the City of South Pasadena operates.

Local Economy

Towards the end of FY 2020/2021, the City of South Pasadena, the greater Los Angeles region and the State of California, began to rebound from the economic effects of the pandemic. Local business began to re-open and many County-led restrictions began to be lifted.

The four largest sources of revenue to the City's General Fund and their overall share are Taxes at \$27.1 million (72%), Use of Money and Property at \$4.8m (13%), Charges for Services at \$3.2m (9%) and Licenses and Permits at .8m (2%).

The City of South Pasadena generates the lion's share of its revenue from taxes and more specifically Property taxes which make up more than half of the General Fund revenues. This revenue stream has proved solid despite the wavering of its other counterparts during the pandemic. While revenue streams such a Sales Tax and Transient Occupancy Tax at other cities suffered tremendous fluctuations during the pandemic, the City enjoyed the continued uptick of local property values which increased local valuations and ultimately revenue. This continued strong showing was further compounded by the fact that the City retains \$0.24 for every dollar of property tax collected within the City, while new cities receive only \$0.05 for every dollar of property tax collected within their city boundaries. Additionally, many cities that had no or low property tax rates at the onset of the 1970's era Prop 13 were left with a frozen low tax rate.

The Utility Users Tax (UUT) is the second largest revenue source for the General Fund, at \$3.4 million. At the November 2020 General Municipal elections, the South Pasadena community voted to extend the UUT in perpetuity, while retaining the amount at the current 7.5%. For this renewal, the usual sunset clause was removed.

In November 2019, Measure A was placed on a special election ballot. It represented an initiative to create a ".75" Transaction Tax on all applicable goods and transactions taking place in the City. The measure was passed by the voters and despite having a lower percentage (.75% to 1.00%) than the traditional Bradley-Burns Sales Tax would eventually outpace the original sales tax. This is largely due to the advent of the pandemic forced consumers to stay indoors and the "at-home" delivery of food, goods and services. The transaction tax would now pick up such transactions and the City would benefit from the full .75% (not allocated to County pool).

The City remains in satisfactory financial condition due to these stable revenue streams and also is able to keep revenues in line with expenditures by its perpetual adoption of the fee schedule which is tied to changes in the Consumer Price Index (CPI).

Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, error and omissions; injuries to employees and natural disasters. The City utilizes a combination of self-insurance, Joint Powers Authority participation and excess insurance to address these concerns. The City's primary coverage provider is Public Risk Innovation, Solutions and Management (PRISM). The purpose of this organization is to provide a form of liability, workers compensation and property coverage whereby risks are transferred to the JPA to fund appropriately for its member agencies. General liability, Workers Compensation and Property losses are pooled among the member cities at certain levels, and coverage is jointly purchased in excess layers. The City pays an annual deposit based on a calculation of prior claims experience and payroll (or Total Insured Values for Property coverage). For Liability, the City has a selfinsured retention of \$100,000, losses exceeding the self-retention limit up to \$5 million per claim are recovered from deposits paid by member cities. Individual claims in excess of \$5 million up to a maximum of \$50 million are covered by private insurance carriers. For Workers Compensation, the City has a self-insured retention of \$125,000, losses exceeding the self-retention limit up to \$5 million per claim are recovered from deposits paid by member cities. Individual claims in excess of \$5 million are covered by private insurance carriers who provide 'Statutory' coverage. Additional information on the City's risk management activity can be found in the notes to the financial statements.

Pension Obligations

The City contributes to the California Public Employees Retirement System, an agent multiple-employer public employee defined benefit pension plan for its employees. Each year, an independent actuary engaged by the pension plan calculates the amount of the annual contribution that the City must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the City fully funds each year's annual required contribution to the pension plan as determined by its funding policy. The unfunded actuarial liability associated with employee services rendered to date is being systematically funded over a set number of years for safety and miscellaneous employees as part of the annual required contribution calculated by the actuary. The City also provides postretirement health care benefits for certain retired employees. Most recently, the City updated its retiree health contribution to the PEMHCA minimum. Additional information regarding the City's pension arrangements and post-employment benefits can be found in the notes to the financial statements.

The City has five retirement plans Miscellaneous (Classic), Safety (Classic), Miscellaneous PEPRA, Police PEPRA and Fire PEPRA. PEPRA stands for Public Employees' Pension Reform act of 2013. This act drastically limited the benefits a retiree may receive in an effort to limit the spiraling retirement costs that cities were facing. The spirit of PEPRA is to have new employees beginning in 2013 pay a greater share of their retirement costs. The two major plans amongst those listed above are the Miscellaneous and Safety (Fire and Police) plans for Classic members. The Miscellaneous plan is approximately 71% funded and the Safety plan is about 68% funded. South Pasadena offers one of the lowest pension formulas (2% at 55) which has kept the City's liability low compared to cities who pay 2.5%, 2.7% or even 3.0% at 55.

At the beginning of 2021-2022, the City received an advance payment of its Cell Tower revenue in the amount of \$4,374,439. The City responsibly conducted an actuarial study as it examined the potential benefits of paying down unfunded liability. The City would eventually use the Cell Tower proceeds as well as an additional \$1,000,000 to pay down pension and Other Post Employment (OPEB) debt. This will serve to reduce annual payments over the next few fiscal years.

Cash Management Policies and Practices

Cash temporarily idle during the year was invested in accordance with the City's approved Investment Policy. The policy affords a broad spectrum of investment opportunities, as long as the investment is deemed prudent and permissible under currently effective legislation of the State of California and other imposed restrictions. Criteria for selecting investments and the order of priority are: safety, liquidity and yield. The cash management system of the City is designed to accurately monitor and forecast expenditures and revenues, thus ensuring the investment of monies to fullest extent possible. Attempts are made to obtain the highest yields available as long as investments meet the criteria required for safety and liquidity.

Internal Controls

The management of the City is responsible for establishing and maintaining an internal control structure to ensure that the assets of the City are protected from loss, theft or misuse, and to ensure that adequate account data is compiled for the preparation of financial statements, in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control structure should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits require estimates and sound judgments by management. In early fiscal year 2022-23, the City will adopt organization-wide financial policies and procedures.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of South Pasadena for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2019. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements. The City has applied for the June 30, 2020 award but has not heard back officially from GFOA.

The preparation and publication of this report is made possible through the dedication of the entire Finance Department staff. Despite the lack of staffing and all the perils that came with the two

Draft - Subject to change

major waves of the pandemic, we feel a sense of accomplishment in completing this audit. Finally, a sincere measure of gratitude to our audit firm of Rogers, Anderson, Malody & Scott, LLP, for their contributions toward improving our financial reporting and year end processes.

FINANCIAL SECTION

Independent Auditor's Report

The Honorable City Council of the City of South Pasadena South Pasadena, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Pasadena, California (the City), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the City's internal control. Accordingly, no
 such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information [Included in the Annual Report]

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections, but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Rogers, Anderson, Malody e Scott, LLP.

In accordance with *Government Auditing Standards*, we have also issued our report dated June xx, 2022 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

Management's Discussion and Analysis

As management of the City of South Pasadena, we offer readers of the City of South Pasadena's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the City's financial statements.

(A) Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$95,361,365. Unrestricted net position in a negative amount of (\$119,124) is primarily due to the City recording the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, and information about the fiduciary net position of the City's CalPERS plans per GASB Statements No. 68 and 71 and 75.
- The City's total net position increased by \$13,037,060.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$40,053,954 an increase of \$9,258,444. Of this amount, \$17,410,725 or approximately 43% of total fund balances are available for spending at the City's discretion (unassigned fund balance).
- At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$18,710,860, or 67% of the total General Fund Expenditures.
- The City's net investment capital assets decreased \$1,029,332 from the prior fiscal year.

(B) Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, deferred outflows/inflows of resources, and liabilities, with the difference between these items reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of South Pasadena is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, with the use of the accrual basis of accounting, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of South Pasadena, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of South Pasadena maintains 35 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund for the purposes of this report. Data from the other 34 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these *non-major* governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of South Pasadena adopts an annual appropriated budget for its General Fund and each of its special revenue funds. A budgetary comparison statement has been provided for each governmental fund to demonstrate compliance with this budget. The budgetary comparison statement for the General Fund is located in the basic financial statements; the budgetary comparison statements for the non-major governmental funds are presented in the Additional Financial Information section of this report.

Proprietary funds. The City of South Pasadena maintains two types of proprietary funds: enterprise fund and internal service fund. The enterprise fund is used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for the operations for its water and sewer utilities, and the municipal golf course. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The internal service fund is used to accumulate and allocate costs internally among the City's functions for general liability and workers' compensation insurance. Because the internal service operations benefit both governmental and business-type functions, they have been proportionally allocated and included within the governmental and business-like activities in the government-wide financial statements. Individual fund data for the internal service fund is provided in the form of combining statements in this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

Fiduciary funds. The City of South Pasadena maintains one type of fiduciary fund, a private purpose trust fund. *Fiduciary funds* are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The City uses one type of fiduciary fund, a private purpose trust fund, to account for the assets and liabilities of the former Community Redevelopment Agency.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found in notes to the financial statements.

The combining statements referred to earlier in connection with non-major governmental funds together with information are presented immediately following the notes to the financial statements.

(C) Government-wide Financial Analysis

Net position may serve as a useful indicator of a government's financial position. In the case of the City of South Pasadena, assets exceeded liabilities by \$95,361,365 at the close of the most recent fiscal year. This represents an increase of \$13,037,060 or 16% from the prior year, primarily due to an increase in other taxes accompanied by decreases in expenses in various departments. Capital Assets are by far the largest portion of the City's net position; \$83,621,234 or 88% reflects its investment in non-liquid capital assets (e.g. land, infrastructure, buildings, and equipment). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

City of South Pasadena Net Position As of June 30, 2021 and 2020

	Governmen	tal Activities	Business-Ty	pe Activities	Total

The second portion of the City net position of \$11,859,255 represents special revenue resources that are subject to external restrictions on how they may be used. Unrestricted net position shows a negative balance of (\$119,124).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

The City's governmental current assets increased by \$8,650,567 and capital assets increased by \$1,267,368. Current assets increased due to more cash on hand and capital assets increased due to completion of capital projects.

The City's business-type current assets increased by \$2,433,826 due to capital spending on water and sewer projects.

Governmental Activities

Governmental activities net position increased by \$7,368,462 due to a decrease in expenses, mainly in general government, and Public Safety.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

Business-type Activities

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but offers more detail in the form of a statement of cash flows. Unrestricted net position of the fund at the end of the fiscal year shows \$21,337,200. Total net position for these funds was \$45,454,016 an increase of \$5,668,598 (14%) over the prior year, due to increases in the capital construction expenses and other capital improvement projects in process.

(D) Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows and outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$40,053,954 an increase of \$9,258,444 from the prior fiscal year. Approximately 43% of fund balances constitute the unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is either restricted for projects undertaken in the Special Revenue Funds, committed by City Council action for specific purposes, or represents net position that are non-spendable resources.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$18,710,860, while the total fund balance reached \$25,643,607. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance (\$18,710,860) and total fund balance to total fund expenditures (\$28,023,716). The unassigned fund balance represents 67% of General Fund expenditures. Note the fund balance increase of 38% over the previous fiscal year.

General Fund Budgetary Highlights

The City adopts annual appropriated operating budgets for its governmental funds (General Fund, Special Revenue and Capital Projects Funds) and reports the results of operations on a budgetary comparison basis. The City also uses annual financial plans as a management tool for its enterprise funds, although the City does not report the results of these funds on a budgetary comparison basis.

In preparing its budgets, the City attempts to estimate its revenues using realistic, but conservative, methods so as to budget its expenditure appropriations and activities in a prudent manner. As a result, the City Council adopts budget adjustments during the course of the fiscal year to reflect both changed priorities and availability of additional revenues to allow for expansion of existing programs. During the course of the year, the City Council amended the originally adopted budget for various additional programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

The General Fund reflected a net total favorable budget variance of \$3,122,187 when comparing actual amounts to the final budget for the current fiscal year. This budget variance reflects a favorable variance in revenues of \$2,363,269, a favorable variance in total expenditures of \$711,367, and a favorable variance in transfers out of \$47,551.

Capital Asset and Debt Administration

Capital assets. The City's net investment in capital assets for its governmental activities and business-type activities as of June 30, 2021, amounts to \$60,662,686 and \$85,166,004 (net of accumulated depreciation), respectively. This investment in capital assets includes land, buildings, park improvements, roadways, vehicles, computer equipment, furniture, other equipment, and construction in progress.

Additional information on the City's capital assets can be found in Note 3 in the Notes to Financial Statements section of this report.

Long-term liabilities. At the end of the current fiscal year, the City of South Pasadena had total liabilities outstanding related to governmental activities of \$58,190,993.

Governmental Activities Long-term Liabilities

	 Governmental Activities				
	2021		2020		
Employee compensated absences	\$ 863,279	\$	935,322		
OPEB liability	17,511,294		14,581,610		
Net pension liability	 39,816,420		35,591,004		
Total long-term liabilities	\$ 58,190,993	\$	51,107,936		

The City's governmental activities long-term liabilities increased during the current fiscal year primarily due to changes in the net pension and OPEB liabilities.

Business-Type Activities Long-term Liabilities

Dualmana Tuma Astivitias

	Business-Type Activities				
	2021 2020		2020		
Employee compensated absences	\$ 88,987	\$	66,358		
Loans payable	14,740,387		15,138,700		
Bonds payable	42,560,331		44,066,081		
OPEB liability	2,709,600		2,256,277		
Net pension liability	2,836,413		3,736,073		
Total long-term liabilities	\$ 62,935,718	\$	65,263,489		

Business-type activities long-term liabilities decreased \$2,327,771 during the current fiscal year due to principal debt service payments on the 2012 State Loan, 2013 Water Revenue Bonds, and 2016 Water Revenue Bonds. Further details on long-term debt can be found in Notes 5 through 7 in the Notes to Financial Statements section of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

Economic Factors and Next Year's Budget

- Increases in the contributions toward employee pensions through the California Public Employees Retirement System (PERS) as well as the increasing unfunded liability for Other Post-Employment Benefits remain serious concerns. To mitigate this situation, in 2021-2022 the City Council would give direction to use the \$4.3m in Cell Tower revenue as well as an additional million from reserves to pay down the current CalPERS unfunded liability as well as setting up an Other Post- Employment Benefits (OPEB) trust. The effect will be to lower required CalPERS contributions as well as responsibly setting up a trust for future employee post-retirement benefits.
- Despite all the issues brought on by the pandemic, the City of South Pasadena remains fiscally healthy due to its strong Property Tax base. The City is fortunate to receive \$.24 of each property tax dollar paid. Many cities receive as low as 5%.
- The 2019 implementation of the Measure A .75% Sales/Transaction Tax would loom large for the City in future years and would eventually outpace the Bradley-Burns traditional 1% Sales Tax.

During the 2021 fiscal year, unassigned fund balance in the General Fund remained substantial at \$18,710,860. The City has a policy of keeping no less than 30% in reserves when comparing Unassigned/Unrestricted Fund Balance to Annual Revenues. Under this formula, the General Fund would be at approximately 53% well over the 30% requirement.

Requests for Information

This financial report is designed to provide a general overview of the financial position of the City of South Pasadena for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Finance Department, FinanceDepartment@southpasadenaca.gov, 626.403.7250, or by U.S. mail: Finance Department, 1414 Mission Street, South Pasadena, CA 91030.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2021

Net changes in fund balances - total governmental funds		\$ 9,258,444
Amounts reported for governmental activities in the statement of activities are different because:	:	
, , ,	2,509,163 1,241,795)	1 267 260
Certain revenues in the governmental funds are deferred inflows of resources because they are measurable but not available under the modified accrual basis of accounting. However, the revenues are included on the accrual basis used in the government-wide statements. This amount represents the change during the year:		1,267,368
Grants and other reimbursement revenue		(54,700)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Change in compensated absences	72,043	
· · · · · · · · · · · · · · · · · · ·	2,355,135)	
· · · · · · · · · · · · · · · · · · ·	(660,718)	
	<u> </u>	(2,943,810)
Internal service funds are used by management to charge the costs of		,
certain activities to individual funds. The net revenue (expense) of the		
internal service funds is included in the statement of activities.		 (158,840)
Changes in net position of governmental activities		\$ 7,368,462

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 1: Summary of Significant Accounting Policies

A. Description of Entity

As required by accounting principles generally accepted in the United States of America, these financial statements present the City of South Pasadena, California (the City) and its component units, entities for which the City is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the Government's operation, so data from these units are combined herein. The criteria used in determining the scope of the reporting entity is based on the provisions of GASB Statement No. 14 as amended by Statement 39, 61 and 80 and were as follows:

- 1. The members of the City Council also act as the governing body of the City of South Pasadena Housing Authority (the Authority).
- 2. The Authority is managed by employees of the City.
- 3. The Authority is financially interdependent with the City.

The City of South Pasadena was incorporated on March 2, 1888, under the general laws of the State of California. The City provides a full range of municipal services, including public safety (police and fire), streets, sanitation, refuse collection, sewer, water, parks and recreation, public improvements, planning and zoning, housing and community development, and general administrative and support services.

Blended Component Units

City of South Pasadena Housing Authority - The Authority was established pursuant to California Housing Authorities Law (Health and Safety Code Sections 34200 et seq.) on April 6, 2011. The purpose of the Housing Authority is to provide safe and sanitary housing opportunities for South Pasadena residents. The primary government has operational responsibility for the Housing Authority. Although the Housing Authority is legally separate, it is reported as if it were part of the City because the City Council also serves as the governing board of the Housing Authority. Separate financial statements of the Housing Authority are not prepared. Additionally, the Housing Authority took over the housing activities from the former Community Redevelopment Agency due to its dissolution on January 31, 2012.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. All fiduciary activities are reported only in the fiduciary fund financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Note 1: Summary of Significant Accounting Policies (continued)

B. Government-wide and Fund Financial Statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Other general revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Note 1: Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The City reports the following major governmental fund:

• The <u>General Fund</u> is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The City reports the following major proprietary funds:

- The <u>Water Fund</u> is used to account for the construction, operation, and maintenance of the City-owned water system.
- The <u>Sewer Fund</u> is used to account for the provision of sewer construction, maintenance, and operation services to residents of the City.

The City's fund structure also includes the following fund types:

- The <u>Private Purpose Trust Fund</u> accounts for the assets and liabilities of the former community redevelopment agency and its allocated revenue to pay estimated installment payments of enforceable obligations until obligations of the former community redevelopment agency are paid in full and assets have been liquidated. Please refer to Note 11 for more information.
- The <u>Internal Service Fund</u> is used to accumulate and allocate costs internally among the City's functions for general liability and worker's compensation insurance. Because the internal service operations benefit both governmental and business-type functions, they have been proportionally allocated and included within the governmental and business-like activities in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Note 1: Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Proprietary funds and the internal service fund distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City has elected to follow all pronouncements of the GASB.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. For financial statement presentation purposes, cash and cash equivalents are shown as both restricted and unrestricted cash and investments in the Governmental and Proprietary Funds.

Investments for the City, as well as for its component units, are reported at fair value. The City's policy is generally to hold investments until maturity or until market values equal or exceed cost. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans), or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Receivables and Payables (continued)

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

Property tax revenue is recognized in the fiscal year for which the taxes have been levied providing they become available. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter (not to exceed 60 days) to be used to pay liabilities of the current period. The County of Los Angeles collects property taxes for the City. Tax liens attach annually as of 12:01 A.M. on the first day in January proceeding the fiscal year for which the taxes are levied. The tax levy covers the fiscal period July 1 to June 30. All secured personal property taxes and one-half of the taxes on real property are due November 1; the second installment is due February 1. All taxes are delinquent, if unpaid, after December 10 and April 10, respectively. Unsecured personal property taxes become due on the first of March each year and are delinquent after August 31.

Functional Classifications

Expenditures of the Governmental Funds are classified by function. Functional classifications are defined as follows:

General Government includes legislative activities which have a primary objective of providing legal and policy guidelines for the City. Also included in this classification are those activities which provide management or support services across more than one functional area.

Public Safety includes those activities which involve the protection of people and property.

Community Development includes those activities which involve the enhancing of the general quality of life.

Community Services includes activities such as administering the Senior Center, recreation classes, and special events committees.

Public Works includes those activities that involve the maintenance and improvement of City streets, roads and park department development and maintenance.

Capital Outlay includes those activities that account for the acquisition of capital assets.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Inventories

Inventory consisting primarily of materials and supplies is held by the Water Enterprise Fund. Such goods are valued using the average-cost method applied on a first-in, first-out (FIFO) basis. Inventories reported in the City's General Fund are charged to inventories when purchased and treated as an expenditure when issued.

Restricted Assets

Certain proceeds of debt issues, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet and statement of net position because their use is limited by applicable bond covenants. In addition, funds have been restricted for future capital improvements by City resolution.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 for non-infrastructure assets and \$25,000 for infrastructure assets (amount not rounded). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Capital Assets (continued)

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Improvements other than buildings	10 - 25
Machinery and equipment	3 - 30
Vehicles	8
Infrastructure	Years
Sewer collection system	60
Storm drain system	60
Bridges	60
Hardscape	40
Parkways and medians	40
Pavement, curbs and gutters, and sidewalks	35
Streetlights	20
Electronic traffic control devices	20

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and balance sheet of governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position and balance sheet of governmental funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from three sources: property taxes, special assessments, and reimbursable grants billed but not yet available. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Compensated Absences

It is the policy of the City to record the cost of annual vacation as accrued. Employees are 100% vested in accrued vacation after six months of employment. The entire compensated absence liability for the Enterprise Fund is accrued as earned in the Enterprise Fund. All accumulated compensated absence liability of governmental funds is accrued when incurred in the government-wide financial statements. Compensated absences are reported in governmental funds only if they have matured.

It is the policy of the City to pay sick leave as used; accordingly, the expenditures are recorded when paid. Sick leave does not vest with employees. Accordingly, employees do not receive a payout for unused sick leave upon termination, although employees do receive credit for unused sick leave upon retirement.

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website at www.calpers.ca.gov.

GASB Statement No. 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date (VD) June 30, 2019 Measurement Date (MD) June 30, 2020

Measurement Period (MP) July 1, 2019 to June 30, 2020

Other Postemployment Benefits (OPEB)

For purposes of measuring the totaled OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD) June 30, 2019 Measurement Date (MD) June 30, 2020

Measurement Period (MP) July 1, 2019 to June 30, 2020

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Fund Equity

In the fund financial statements, governmental funds report the following fund balance classification:

Nonspendable include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted include amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws of regulations of other governments or (b) by law through constitutional provisions or enabling legislation.

Committed include amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest authority, City Council. The formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution of the City Council.

Assigned include amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The City Council, with Resolution No. 7152, authorized the Finance Director to assign fund balance amounts for specific purposes.

Unassigned include the residual amounts that have not been restricted, committed, or assigned to specific purposes. The General Fund is the only fund that can report a positive unassigned fund balance.

Note 1: Summary of Significant Accounting Policies (continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (continued)

Fund Equity (continued)

An individual governmental fund could include nonspendable resources and amounts that are restricted or unrestricted (committed, assigned, or unassigned) or any combination of those classifications. Restricted amounts are to be considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and committed, assigned, and then unassigned amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balances classifications can be used.

The City Council adopts and amends committed fund balance amounts for specific purposes through a resolution. When expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted amounts to be used first. When expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, they are considered to be spent in the order as follows: committed, assigned, and then unassigned.

Net Position

In the government-wide financial statements and proprietary fund financial statements, net position is classified as follows:

<u>Net Investment in Capital Assets</u> – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of those assets.

<u>Restricted</u> – This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

<u>Unrestricted</u> – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses, during the reporting period. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 2: Cash and Investments

Cash and investments are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments	\$ 56,424,442
Cash and investments with fiscal agents	1,158,268
Statement of fiduciary net position:	
Cash and investments	155,695
Cash and investments with fiscal agents	 196,526

Total cash and cash equivalents \$ 57,934,931

Cash and investments at June 30, 2021, consists of the following:

Cash and cash equivalents:

Petty cash	\$ 9,235
Deposits with financial institutions	10,657,686
Investments	47,268,010

Total cash and cash equivalents \$ 57,934,931

The City of South Pasadena maintains a cash and investment pool that is available for use for all funds. Each fund type's position in the pool is reported on the combined balance sheet as cash and investments. The City has adopted an investment policy which authorizes it to invest in various investments.

A. Deposits

At June 30, 2021, the carrying amount of the City's deposits was \$10,657,686 and the bank balance was \$9,851,885. The difference between the two represents outstanding checks and other reconciling items.

The California Government Code requires California banks and savings and loan associations to secure a City's deposits by pledging government securities with a value of 110% of a City's deposits. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of a City's total deposits. The City Treasurer may waive the collateral requirement for deposits which are fully insured up to \$250,000 by the FDIC. The collateral for deposits in federal and state chartered banks is held in safekeeping by an authorized Agent of Depository recognized by the State of California Department of Banking. The collateral for deposits with savings and loan associations is generally held in safekeeping by the Federal Home Loan Bank in San Francisco, California as an Agent of Depository. These securities are physically held in an undivided pool for all California public agency depositors.

Under Government Code Section 53655, the placement of securities by a bank or savings and loan association with an "Agent of Depository" has the effect of perfecting the security interest in the name of the local governmental agency. Accordingly, all collateral held by California Agents of Depository are considered to be held for, and in the name of, the local governmental agency.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 2: Cash and Investments (continued)

B. Investments

Under provision of the City's investment policy, and in accordance with Section 53601 of the California Government Code, the City may invest in the following types of investments:

Authorized Investment Type	Authorized by Investment Policy	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer	Minimum Quality Requirements
Local Agency Bonds	Yes	5 years	None	None	N/A
U.S. Treasury Obligations	Yes	5 years	None	None	N/A
State Obligations - CA & Others	Yes	5 years	None	None	N/A

County Pooled Investment Funds	Yes	N/A	None	None	N/A
Joint Powers Authority Pool	Yes	N/A	None	None	N/A
Local Agency Investment Fund	Yes	N/A	None	None	N/A
Voluntary Investment Program Fund	Yes	N/A	None	None	N/A

The City has monies held by trustees or fiscal agents pledged to the payment or security of certain bonds. The California Government Code provides that these monies, in the absence of specific statutory provisions governing the issuance of bonds, may be invested in accordance with the ordinance, resolutions, or indentures specifying the types of investments its trustees or fiscal agents may make.

C. Investments in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with State statute. The State Treasurer's Office audits the fund annually. The fair value of the position in the investment pool is the same as the value of the pool shares.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 2: Cash and Investments (continued)

D. Credit Risk

The City's investment policy limits investments in medium-term notes (MTN's) to those rated "A" or better by a nationally recognized statistical rating organization. Investments in U.S. government securities are not considered to have credit risk and, therefore, their credit quality is not disclosed.

Presented below is the minimum rating required by the City's Investment Policy and the actual rating as of June 30, 2021:

					Rating as of Fiscal Year End								
Investment Type	Amount	Minimum Legal Rating	Exempt from Disclosure		AA+		AA / AA-		A+		A / A-		Not Rated
Local Agency Investment Fund	\$ 29,503,040	N/A	\$	-	\$	-	\$	-	\$	-	\$	-	\$ 29,503,040
Money Market Mutual Funds	103,429	N/A		-		-		-		-		-	103,429
U.S. Treasury Notes	8,630,587	N/A	8,6	30,587		-		-		-		-	-
Government Agency Securities	3,879,321	Α	-		3,879,321		-		-		-		-
Medium-Term Notes	5,151,633	Α		-	3	802,800		439,575	2,	666,043	1,7	743,215	
Total	\$ 47,268,010		\$ 8,6	30,587	\$4,1	82,121	\$	439,575	\$2,	666,043	\$1,7	743,215	\$ 29,606,469

E. Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the bank balances, up to \$250,000 is federally insured and the remaining balances are collateralized in accordance with the California Government Code.

F. Concentration of Credit Risk

The City's investment policy imposes restrictions on the percentage that the City can invest in a single type of investment in accordance with CA Government Code. In addition, GASB 40 requires a separate disclosure if any single issuer comprises more than 5% of the total investment value. As of June 30, 2021, investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments are as follows:

			Reported
Investment Type	Issuer	_	Amount
Federal National Mortgage Association	FNMA	\$	3,362,038

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 2: Cash and Investments (continued)

G. Interest Rate Risk

The City's investment policy limits investment maturities, in accordance with CA Government Code, as a means of managing its exposure to fair value losses arising from increasing interest rates. The certificates of deposit in cash with fiscal agent below with a maturity of three to five years are governed by the debt agreements, rather than the City's investment policy. The City has elected to use the segmented time distribution method of disclosure for its interest rate risk.

As of June 30, 2021, the City had the following investments and original maturities:

	Remaining Maturity (in months)							
			6 ı	months to 1				
Investment Type	6 n	nonths or less		year	1 to 3 years	_3	to 5 years	Total
Local Agency Investment Fund	\$	29,503,040	\$	-	\$ -	\$	-	\$ 29,503,040

Government Agency Securities		-		517,283	2,652,833		709,205	3,879,321
Medium-Term Notes				435,211	 3,883,643	_	832,779	5,151,633
Total	\$	31,114,810	\$	1,852,566	\$ 11,508,157	\$	2,792,477	\$ 47,268,010

H. Fair Value Measurements

The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The City categorizes its fair value measurements within the fair value hierarchy established by the generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs.

The following table presents the balances of the assets measured at fair value on a recurring basis as of June 30, 2021.

Investment by Fair Value Level	Fair Value		Level 1	 Level 2	Le	evel 3
Debt securities:	 	·				
Money Market Mutual Funds	\$ 103,429	\$	103,429	\$ -	\$	-

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 4: Interfund Receivable, Payable and Transfers

A. Due To/From Other Funds

At June 30, 2021, the City had the following internal balances:

	Due To Other Funds			
	Nonmajor			
Due From Other Funds	Funds	Total		
		* 4		
General Fund	\$ 1,308,865	\$ 1,308,865		

The due to General fund of \$1,308,865 for various Nonmajor Governmental Funds was a result of temporary cash deficit balances in those funds.

B. Advances to/from Other Funds

The General Fund advanced \$750,000 to the Sewer Fund on July 11, 2012, in order to fund the construction of the Arroyo Drive, Marengo Ave, Meridian Ave, and Huntington Drive Sewer Improvement Project. The advance bears interest at the City's portfolio rate of return, with payments due within ten years. The balance outstanding at June 30, 2021 is \$150,000.

C. Transfers

Transfers In				
Internal	Total			
Service	Governmental	Transfers		
Fund	Funds	Out		
\$ 1,227,250	\$ 1,294,627	\$ 2,521,877		
\$ 1,227,250	\$ 1,294,627	\$ 2,521,877		
	Service Fund \$ 1,227,250	Internal Non-Major Service Governmental Fund Funds \$ 1,227,250 \$ 1,294,627		

All transfers were made as budgeted or as approved by Council. \$509,948 was transferred from the General Fund to the Street Improvements Fund for various projects. \$784,679 was transferred from the General Fund to the Facilities and Equipment Capital Projects Fund for planned facilities maintenance and equipment replacement, such as improvements to the stables and City Hall server upgrades; \$1,227,250 was transferred from the General Fund to the Internal Service Fund for increasing the City's coverage of the actuarial estimated liability for insurance claims and the general cost of insurance.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 5: Long-Term Debt

The following is a summary of changes in long-term liabilities for the year ended June 30, 2021:

	Balance			Balance	Due Within
	June 30, 2020	Additions	Deletions	June 30, 2021	One Year
Business-Type Activities:

2012 State Loan Payable (Direct Borrowing)

California State Water Resources Control Board loaned the City an assessable amount of \$11,000,000 over the term agreement starting December 1, 2013 through May 30, 2037. The proceeds from the loan are to be used by the City for its rehabilitation and replacement of the City's sewer infrastructure. The loan acts as an installment sale agreement, in which, the City must expend its own funds prior to drawing on the accessible loan amount for reimbursement. Repayment of project funds, together with all interest accrued thereon, by the City shall be repaid in annual installments commencing 1 year after the completion of the project.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2021, including interest are as follows:

Year Ending June 30,	Principal	Interest	Total	
2022	\$ 242,951	\$ 182,857	\$ 425,808	
2023	248,053	177,755	425,808

Total	\$ 8,707,478	\$ 2,789,343	\$ 11,496,821	

Note 5: Long-Term Debt (continued)

SRF State Loan Payable (Direct Borrowing)

California State Water Resources Control Board loaned the City an assessable amount of \$10,803,550 over the term agreement starting November 15, 2017 through January 1, 2050. The proceeds from the loan are to be used by the City for the Graves Reservoir Replacement Project. The loan acts as an installment sale agreement, in which, the City must expend its own funds prior to drawing on the accessible loan amount for reimbursement. Repayment of project funds, together with all interest accrued thereon, by the City shall be repaid in annual installments commencing 1 year after the completion of the project.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2021, including interest are as follows:

Year Ending			
June 30,	Principal	Interest	Total
2022	\$ 163,097	\$ 101,869	\$ 264,966

2047-2051	999,769	37,039	1,036,808
Total	\$ 6,032,909	\$ 1,628,060	\$ 7,660,969

2013 Water Revenue Bonds

In March, 2013, the South Pasadena Public Financing Authority issued \$6,995,000 Water and Wastewater Revenue Bonds, 2013 Series A. The bonds were issued to refund of a portion of the outstanding California Statewide Communities Development Authority Water and Wastewater Revenue Bonds, Series 2004A that were issued on behalf of the City of South Pasadena, to purchase a surety for a reserve fund for the Bonds, and to pay costs of issuance of the bonds. The bonds are secured by a pledge of system net revenues of the City's water system.

Bond proceeds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. In addition, funds have been restricted for future capital improvements by City resolution.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 5: Long-Term Debt (continued)

The serial bonds mature annually from October 1, 2014 to October 1, 2029, in increasing amounts from \$325,000 to \$545,000. The bonds bear interest at rates ranging from .35% to 3.4%. The term bonds mature on October 1, 2029, and carry an interest rate of 5.0%. Interest is payable semi-annually on April 1 and October 1, commencing on October 1, 2014 and October 1, 2029, respectively.

If the City defaults on its obligations to make debt service payments on the bonds, the trustee, as assignee of the City, has the right to accelerate the total unpaid principal amount of the bonds. However, in the event of a default and such acceleration, there can be no assurance that the trustee will have sufficient moneys available for payment of the bonds.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2021, including interest are as follows:

Principal		Interest		Total
\$ 405,000	\$	143,088	\$	548,088
420,000		128,688		548,688

2016 Water Revenue Bonds

In November, 2016, the City of South Pasadena issued \$37,845,000 Water Revenue Refunding Bonds. The bonds were issued to refund all of the outstanding 2009 Water Revenue Bonds, purchase a municipal bond insurance policy to guarantee payment of the principal of and interest on the 2016 bonds and to pay costs of issuance of the 2016 bonds.

The serial bonds mature annually from October 1, 2017 to October 1, 2036, in amounts from \$835,000 to \$2,610,000. The bonds bear interest at rates ranging from 2% to 5%. The term bonds mature on October 1, 2039, and carry an interest rate of 5.0%. Interest is payable semi-annually on April 1 and October 1, commencing and ending on April 1, 2017 and April 1, 2037, respectively.

If the City defaults on its obligations to make debt service payments on the bonds, the trustee, as assignee of the City, has the right to accelerate the total unpaid principal amount of the bonds. However, in the event of a default and such acceleration, there can be no assurance that the trustee will have sufficient moneys available for payment of the bonds.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2021, including interest are as follows:

Note 6: Compensated Absences

The City's liability at June 30, 2021 for vested and unpaid compensated absences (accrued vacation and compensatory time) is as follows:

	Balance ne 30, 2020	 Additions	 Deletions	Balance ne 30, 2021	 ie Within ne Year
Governmental activities Business-type activities	\$ 935,322 66,358	\$ 530,595 80,227	\$ (602,638) (57,598)	\$ 863,279 88,987	\$ 86,328 8,899
Total compensated absences payable	\$ 1,001,680	\$ 610,822	\$ (660,236)	\$ 952,266	\$ 95,227

Compensated absences are paid, if matured, out of the General Fund, other various special revenue funds and enterprise funds.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 7: City Employees Defined Benefit Pension Plan

A. General Information about the Pension Plans

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The City sponsors five rate plans (two miscellaneous and three safety). Benefit provisions under the Plan are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website, at www.calpers.ca.gov.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan operates under the provisions of the California Public Employees' Retirement Law (PERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by the CalPERS Board of Administration. The Plan's authority to establish and amend the benefit terms are set by the PERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the CalPERS Board.

Note 7: City Employees Defined Benefit Pension Plan (continued)

Total	388	91	208	26

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 7: City Employees Defined Benefit Pension Plan (continued)

A. General Information about the Pension Plans (continued)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions. Employer Contributions to the Plan for the fiscal year ended June 30, 2021 were \$5,001,568. The actual employer payments of \$4,295,978 made to CalPERS by the City during the measurement period ended June 30, 2020 differed from the City's proportionate share of the employer's contributions of \$5,069,418 by \$773,440, which is being amortized over the expected average remaining service lifetime in the Public Agency Cost-Sharing Multiple Employer Plan.

B. Net Pension Liability

The City's net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2020, using an annual actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is as follows:

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 7: City Employees Defined Benefit Pension Plan (continued)

B. Net Pension Liability (continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

Valuation Date June 30, 2019 Measurement Date June 30, 2020

Actuarial Cost Method Entry Age Normal in accordance with the

requirements of GASB 68

Asset Valuation Method Market Value of Assets

Actuarial Assumptions:

Discount Rate 7.15% Inflation 2.50%

Mortality Rate Table (1) Derived using CALPERS' membership data

for all Funds

Post Retirement Benefit Increase The lesser of contract COLA up to 2.50%

until purchasing power protection allowance floor on purchasing power applies, 2.50%

thereafter

(1) The mortality table used was developed based on CalPERS' specific data. The probabilities of mortality are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015. Preretirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from December 2017 that can be found on the CalPERS website.

All other actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website, at www.calpers.ca.gov.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Note 7: City Employees Defined Benefit Pension Plan (continued)

B. Net Pension Liability (continued)

The expected real rates of return by asset class are as follows:

Asset Class ¹	Current Target Allocation	Real Return Years 1 - 10 ²	Real Return Year 11+ ³
Clobal aquity	E0.00/	4.80%	5.98%
Global equity	50.0%		
Fixed income	28.0%	1.00%	2.62%
Inflation assets	-	0.77%	1.81%
Private equity	8.0%	6.30%	7.23%
Real assets	13.0%	3.75%	4.93%
Liquidity	1.0%	-	(0.92%)
Total	100.0%		

¹ In the System's ACFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

Change of Assumptions

The Plan adopted a new amortization policy effective with the 2019 actuarial valuation. The new amortization policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount. In addition, the new policy does not utilize a five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy also does not utilize a five-year ramp-down on investment gains/losses. These changes apply only to new UAL bases established on or after June 30, 2019.

Discount Rate

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

² An expected inflation of 2.0% used for this period

³ An expected inflation of 2.92% used for this period

Miscellaneous Plan

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 7: City Employees Defined Benefit Pension Plan (continued)

B. Net Pension Liability (continued)

Pension Plan Fiduciary Net Position

Information about the pension plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position are presented in CalPERS' audited financial statements, which are publicly available reports that can be obtained at CalPERS' website, at www.calpers.ca.gov. The plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis used by the pension plan, which is the economic resources measurement focus and the accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

C. Proportionate Share of Net Pension Liability

The following table shows the Plans' proportionate share of the net pension liability over the measurement period.

Increase (Decrease)

		increase (Decrease	/

Valuation Date (VD), Measurement Date (MD)

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 7: City Employees Defined Benefit Pension Plan (continued)

C. Proportionate Share of Net Pension Liability (continued)

The City's proportion of the net pension liability was determined by CalPERS using the output from the Actuarial Valuation System and the fiduciary net position, as provided in the CalPERS Public Agency Cost-Sharing Allocation Methodology Report, which is a publicly available report that can be obtained at CalPERS' at www.calpers.ca.gov. The City's proportionate share of the net pension liability for each Plan as of the June 30, 2019, and 2020 measurement dates was as follows:

	Miscellaneous	Safety
Proportionate Share of NPL - June 30, 2019	0.336490%	0.414132%
Proportionate Share of NPL - June 30, 2020	0.341834%	0.423784%
Change - Increase	0.005344%	0.009652%

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability of each Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

	Disc	ount Rate - 1% (6.15%)	Current Discount Rate (7.15%)		Discount Rate + 1% (8.15%)	
Miscellaneous Plan's Net Pension Liability	\$	21,380,178	\$	14,418,830	\$	8,666,887
Safety Plan's Net Pension Liability	\$	40,926,855	\$	28,234,003	\$	17,818,317

Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

NOTES TO THE FINANCIAL STATEMENTS **JUNE 30, 2021**

Note 7: City Employees Defined Benefit Pension Plan (continued)

C. Proportionate Share of Net Pension Liability (continued)

The amortization period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on pension plan investments

5 year straight-line amortization

All other amounts

Straight-line amortization over the expected average remaining service lives (EARSL) of all members that are provided with benefits (active, inactive and retired) as of the beginning of the

measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the Public Agency Cost-Sharing Multiple-Employer Plan (PERF C).

The EARSL for PERF C for the measurement period ending June 30, 2020 is 3.8 years, which was obtained by dividing the total service years of 548,581 (the sum of remaining service lifetimes of the active employees) by 145,663 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

As of the start of the measurement period (July 1, 2019), the City's net pension liability was \$39,327,077. For the measurement period ending June 30, 2020 (the measurement date), the City incurred a pension expense of \$6,526,297.

As of June 30, 2021, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources		 red Inflows of Resources
Changes of Assumptions	\$	-	\$ 196,889
Differences between Expected and

Governmental activities net pension liability Business-type activities net pension liability	\$ 39,816,420 2,836,413
Total net pension liability	\$ 42,652,833

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 8: Other Post-Employment Benefits

A. Plan Description

The City provides certain other post-employment benefits (OPEB) through a single-employer defined benefit healthcare plan which provides health insurance for its retired employees according to the Personnel Rules and Regulations for each of the five employee groups. Benefit provisions are included annually in the Memorandum of Understanding between the City and each of its employee groups and ultimately passed by Council action. Separate financial statements for the plan are not available.

B. Employees Covered

As of the June 30, 2020 measurement date, the following numbers of participants were covered by the benefit terms under the Plan:

Active employees	104
Inactive employees or beneficiaries currently receiving benefits	99
Inactive employees entitled to, but not yet receiving benefits	22
Total	225

C. Funding Policy

The contribution requirements of plan members and the City are established and may be amended by the City, City Council and/or employee associations. Currently, contributions are not required from plan members.

The City pays for postemployment health insurance on a pay-as-you-go basis (no prefunding). For fiscal year 2020-2021, the City paid \$374,744 for other postemployment benefits.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 8: Other Post-Employment Benefits (continued)

D. Total OPEB Liability

The City's total OPEB liability was measured as of June 30, 2020 and was based on the following actuarial methods and assumptions:

Actuarial Assumptions	June 30, 2020 Measurement Date
Actuarial Valuation Date	June 30, 2019
Contribution Policy	No pre-funding
Discount Rate	2.21% at June 30, 2020

E. Discount Rate

A discount rate of 2.21 percent was used in the valuation for measurement date June 30, 2020.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 8: Other Post-Employment Benefits (continued)

F. Changes in the OPEB Liability

The changes in the total OPEB liability for the Plan are as follows:

	 Fotal OPEB Liability
Balance at June 30, 2020	
(6/30/19 measurement date)	\$ 16,837,887
Changes recognized for the measurement period:	
Service cost	666,996
Interest	600,512
Changes of benefit terms	-
Actual vs. expected experience	-
Changes in assumptions	2,810,290
Benefit payments	(694,791)
Net changes	3,383,007
Balance at June 30, 2021	
(6/30/20 measurement date)	\$ 20,220,894

G. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2020:

	Current						
	1% Decrease (1.21%)			Discount Rate (2.21%)		1% Increase (3.21%)	
Total OPEB Liability	\$	23 242 635	\$	20 220 894	\$	17 767 336	-

H. Sensitivity of the Total OPEB Liability to Changes in the Health Care Trend Rates

The following presents the total OPEB liability of the City if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2020:

	Current					
	Healthcare					
	Cost Trend					
_	1% Decrease Rates			1% Increase		
Total OPEB Liability	\$	18.758.355	\$	20.220.894	\$	21.925.628

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 8: Other Post-Employment Benefits (continued)

I. OPEB Plan Fiduciary Net Position

As the City is not prefunding with an OPEB trust, Plan Fiduciary Net Position was \$0 at the June 30, 2020 measurement date.

Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The net difference between projected and actual earnings on OPEB plan investments is amortized using the straight-line method over 5 years, while all other amounts are amortized over the expected average remaining service lifetime (EARSL) of plan participants.

J. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2021, the City recognized OPEB expense of \$1,263,697. As of fiscal year ended June 30, 2021, the City reported deferred outflows of resources related to OPEB from the following sources:

		red Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience Changes in assumptions Contributions to OPEB plan subsequent to the measurement date		3,000,991 500,744	\$	1,004,048 1,072,831 -
Total	\$	3,501,735	\$	2,076,879

The \$500,744 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2020 measurement date will be recognized as a reduction of the net OPEB liability during the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows or inflows of resources related to OPEB will be recognized as expense as follows:

		Deferred		
Fiscal Year Ended June	Ou	tflows/(Inflows) of		
30	Resources			
2022	\$	(9,633)		
2023		(9,633)		
2024		(9,636)		
2025		231,451		
2026		319,093		
Thereafter		404,470		
	\$	926,112		

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 9: Insurance

The City is partially self-insured for general liability insurance. The City is responsible for claims up to \$100,000 per occurrence. Coverage in excess of the City's self-insured retention is purchased through CSAC Excess Insurance Authority (CSAC-EIA) up to the statutory limits. The City participates in a risk pool for general liability insurance through CSAC-EIA above the City's self-insured retention of \$100,000 up to \$4,900,000 per occurrence. Reinsurance coverage in excess of the pool layer up to \$25,000,000 is purchased through CSAC-EIA. CSAC-EIA retains responsibility for claims in excess of each member's self-insured retention.

For workers' compensation insurance, the City is covered from the first dollar. Coverage between \$1 and \$5,000,000 is provided by CSAC-EIA. CSAC-EIA participates in an excess pool which provides coverage from \$5,000,000 to \$50,000,000 and purchases excess insurance above \$50,000,000 to the statutory limit.

Workers' compensation and general liability claims incurred prior to July 1, 2014 were covered through the City's participation in the California Joint Powers Insurance Authority.

Note 10: Commitments and Contingencies

Due to the occurrence of several spills from the City's sanitary sewer system, the City entered into a settlement on November 16, 2011, with the Regional Water Quality Control Board, Los Angeles Region and the state Attorney General for violations of the state's general waste discharge requirements. The settlement required the City to cover fines and attorney fees, complete repairs to its sanitary sewer system over a 10 year period, and implement specified system maintenance programs. These requirements will be monitored through an open court proceeding and, if not met; the City could be subjected to further monetary penalties.

The City is presently involved in certain matters of litigation that have arisen in the normal course of conducting City business. City management believes that based upon consultation with the City Attorney, that these cases in the aggregate are not expected to result in a material adverse financial impact on the City beyond that already accrued for in the basic financial statements. Additionally, City management believes that sufficient resources are available to the City to cover any potential losses, should an unfavorable outcome materialize.

Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("the Bill") that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City of South Pasadena that previously had reported a community redevelopment agency within the reporting entity of the City as a blended component unit.

The Bill provides that upon dissolution of a community redevelopment agency, a "successor agency" is to be established to hold the assets until they are distributed to other units of state and local government. On January 4, 2012, the City Council elected to become the Successor Agency for the former community redevelopment agency in accordance with the Bill as part of City resolution number 7205.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency (continued)

After enactment of the law, which occurred on June 28, 2011, community redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

Successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former community redevelopment agency until all enforceable obligations of the prior community redevelopment agency have been paid in full and all assets have been liquidated.

Cash and investments

At June 30, 2021, Cash and investments reported in the accompanying financial statements consisted of the following:

Cash and investments pooled with the City	\$ 155,695
Cash and investments with fiscal agent	 196,526
	\$ 352,221

Long-term debt

The following is a summary of changes in long-term liabilities for the year ended June 30, 2021:

	Add	ditions	Deletions	_	Balance e 30, 2021	 ıe Within ne Year	
2000 Tax Allocation Bond	\$ 825,000	\$	-	\$ (145,000)	\$	680,000	\$ 155,000
Total	\$ 825,000	\$	-	\$ (145,000)	\$	680,000	\$ 155,000

A description of long-term debt outstanding (excluding defeased debt) of the Successor Agency as of June 30, 2021, follows:

2000 Tax Allocation Bonds

In July 2000, the Agency issued \$2,600,000 in tax allocation bonds for the Downtown Revitalization Project No. 1, which mature annually from May 1, 2001 to May 1, 2025, in increasing amounts from \$55,000 to \$185,000, plus interest at 4.4% to 6.0%, payable semiannually on May 1 and November 1, commencing on November 1, 2000. Bonds are subject to redemption at the option of the Agency beginning May 1, 2010, at a price ranging from 102% to 100% of principal value. Debt service on the bonds is provided by incremental property tax revenues generated within the Downtown Redevelopment Project Area. At June 30, 2021, \$680,000 was outstanding.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 11: Successor Agency Trust for Assets of Former Community Redevelopment Agency (continued)

Pledged Revenue

The City pledged, as security for bonds issued, either directly or through the Financing Authority, a portion of tax increment revenue (including Low and Moderate Income Housing set-aside and pass through allocations) that it receives. The bonds issued were to provide financing for various capital projects, accomplish Low and Moderate Income Housing projects and to defease previously issued bonds. Assembly Bill 1X 26 provided that upon dissolution of the community redevelopment agency, property taxes allocated to community redevelopment agencies no longer are deemed tax increment but rather property tax revenues and will be allocated first to successor agencies to make payments on the indebtedness incurred by the dissolved community redevelopment agency. Total principal and interest remaining on the debt is \$979,500 with annual debt service requirements as indicated above. For the current fiscal year, the total property tax revenue recognized by the City and Successor Agency for the payment of indebtedness incurred by the dissolved Community Redevelopment Agency was \$285,849 and the interest expense on the bonds was \$48,050.

The annual requirements to amortize the outstanding bond indebtedness as of June 30, 2021, including interest are as follows:

Year Ending June 30,		Principal	Interest	Total		
Julie 30,	'	ППСІраї	 IIICICSI	 TOLAI		
2022	\$	155,000	\$ 40,800	\$ 195,800		
2023		165,000	31,500	196,500		
2024		175,000	21,600	196,600		
2025		185,000	 11,100	 196,100		
Total	\$	680,000	\$ 105,000	\$ 785,000		

Insurance

The Successor Agency is covered under the City of South Pasadena's insurance policies. Therefore, the limitation and self-insured retentions applicable to the City also apply to the Successor Agency. Additional information as to coverage and self-insured retentions can be found in Note 9.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

Note 12: Deficit Fund Balances

The following funds have deficits in fund balance at June 30, 2021:

Fund		Amount
Nonmajor Governmental Funds:		
Special Revenue Funds: MTA Pedestrian Improvement	\$	(29,951)
CTC Traffic Improvement	Ψ	(23)
Rogan HR 5294 Grant		(5,708)
Mission Meridian Public Garage		(353,005)
County Park Bond		(173,785)
MSRC Grant		(150,000)
Measure H		(80,089)
BTA Grant		(416,948)
Golden Streets Grant		(24,914)
CDBG		-
Homeland Security Grant		(21,011)
HSIP Grant		(44,701)

The City intends to fund these deficits with future revenue, transfers and reductions of expenditures in future years.

Note 13: Net Investment in Capital Assets

The net investment in capital assets category of net position is comprised of the following:

	Water	Sewer	royo Seco olf Course	Business-Type Activities Total
Capital assets, net of accumulated depreciation	\$ 75,071,882	\$ 9,315,287	\$ 778,835	\$ 85,166,004

Notes to Schedule:

Change in Benefit Terms: None

Changes in Assumptions: For 2020, the Plan adopted a new amortization policy effective with the 2019 actuarial valuation. The new amortization policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount. In addition, the new policy does not utilize a five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy also does not utilize a five-year ramp-down on investment gains/losses. These changes apply only to new UAL bases established on or after June 30, 2019. There were no changes in assumptions in 2019. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate in 2019. In 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes in the discount rate. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

^{*}Fiscal Year 2017-18 was the first year of implementation

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

Note 1: General Budget Policies

Budgetary control is an essential element in governmental financial reporting. The City, a general law city in the State of California, does not legally require a budget. However, the City Council adopted budgets for the General, Special Revenue, and Capital Projects Funds with the exception of the Measure H, Prop C Exchange, Homeland Security Grant, MSRC Grant, Golden Streets Grant, HSIP Grant, MTA Pedestrian Improvement, CTC Traffic Improvement Grant, Rogan HR 5294 Grant, and Historic Preservation Grant Special Revenue Funds.

To facilitate a greater understanding of the City's operations, budget information for the General, Special Revenue and Capital Projects Funds is included in the accompanying basic financial statements. This detailed budget document is published and is a matter of public record. Each year, the City Manager submits his proposed budget to the City Council. The City Council holds public hearings and may modify the appropriations by majority approval. The legal level of expenditures is controlled at the fund level and operating appropriations lapse at the end of each fiscal year. All budgeted amounts are reported on the same basis as the fund types and adopted on a basis consistent with accounting principles generally accepted in the United States of America. Changes in appropriations at the fund level during the year must be submitted by the City's departments for City Council review and approval. The City Manager may, without Council approval, amend individual line items within any fund and between divisions and programs, in personnel costs, maintenance and operations, capital outlay and capital projects portions of the budget without increasing total appropriations for that fund. Department heads may, without Council approval, amend individual line items within any fund in the maintenance and operation portions of the budget without increasing total appropriations for that division.

Note 2: Supplementary Budget Information

Excess of expenditures over appropriations at the fund level were as follows:

Fund	Appropriations	Expenditures	Excess
General Fund:			
Public safety	\$ 15,701,154	\$ 16,748,679	\$ (1,047,525)
Community services	2,266,657	2,326,661	(60,004)
Non-Major Governmental Funds:			
Housing Authority	10,000	10,361	(361)

SUPPLEMENTARY INFORMATION

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

- *201-MTA Pedestrian Improvement Fund To account for MTA grants used for the Fair Oaks/Mission pedestrian improvement projects which include pedestrian accessibility, widened bikeways, landscaping, lighting modification and aesthetics.
- **205-Proposition "A" Local Return Fund** To account for all revenues and expenditures associated with the one-half cent sales tax approved by Proposition A in 1980. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.
- **207-Proposition "C" Local Return Fund** To account for all revenues and expenditures associated with the one-half cent sales tax approved by Proposition C in 1990. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.
- *211-CTC Traffic Improvement Grant Fund To account for state and federal funding of street and intersection improvements relieving congestion at our busiest intersections.
- *214-Rogan HR 5294 Grant Fund To account for the revenue and expenditures associated with the 110 FWY Hook Ramp Project funded by Rogan grant.
- **215-Street Lighting and Landscaping Fund** To account for the costs associated with the City's street lighting and median landscaping programs. These costs are deemed to benefit all property owners who are assessed their proportionate share of the costs. These assessments are placed on the property tax bill and collected and remitted to the City by the County of Los Angeles.
- **218-Clean Air Act Fund** To account for revenues and expenditures expended for air quality improvement projects as established by the South Coast Air Quality Management District.
- **220-Parking and Business Improvement Tax (BIT) Fund** To account for business improvement tax returns collected by the City for specified purposes within the Parking and Business Improvement Area: (1) decoration of any public place, (2) promotion of public events; (3) furnishing of music; (4) general promotion of retail trade activities.
- **223-Gold Line Mitigation Fund** To account for the MTA's funding for the improvements to the Gold Line Mission Street Station.
- **226-Mission Meridian Public Garage Fund** To account for the revenues and expenditures of the Mission Meridian Public Garage.

- **230-State Gas Tax Fund** To account for all state gas tax related revenues and expenditures, including street repair, reconstruction and maintenance. State law requires these gasoline taxes to be used to maintain the City's street and highway system.
- **232-County Park Bond** To account for the revenues and expenditures for the County Park Bond related improvements.
- **255-Capital Growth Requirement Fund** To account for fees paid to the City for building development to be applied towards the costs of public facilities improvements.
- **260-Community Development Block Grant (CDBG) Fund** To account for the revenues and expenditures for Community Development Block Grant projects.
- *270-Asset Forfeiture Fund To account for proceeds received from forfeiture in narcotics investigations allocated for law enforcement activities.
- **239-Measure W Fund** To account for all revenues and expenditures associated with improving conditions of stormwater runoffs funded by parcel tax.
- **245-Bike and Pedestrian Paths Fund** To account for the revenues and expenditures for bike and pedestrian facilities improvements funded by the State of California Transportation Development Act.
- **272-State Police Grant Fund** To account for revenue and expenditures for frontline police services funded by COPS (AB 3229) grant.
- *274-Homeland Security Grant Fund To account for revenue and expenditures the operations of police equipment and conferences funded by Homeland Security.
- **275- Park Impact Fees Fund** To account for the proceeds of a development fee used for the purpose of park facilities improvements and related expenditures.
- **233-Measure R Fund** To account for all revenues and expenditures associated with the one-half cent sales tax approved by Measure R in 2009. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.
- **236-Measure M Fund** To account for all revenues and expenditures associated with the one-half cent sales tax approved by Measure M in 2016. All revenues of this fund must be expended for transportation-related items as established by the Los Angeles County Transportation Commission.
- **208-TDA/Metro Grant Fund** To account for all revenues and expenditures associated with the TEA/Metro Fund. All revenues of this fund must be expended for transportation-related items.

- **217-Public, Education, and Government Fund** To account for revenues and expenditures used for public education and government access charges that the City's cable franchise collects. Monies in this fund must be used to purchase equipment related to the production of public education and government access television.
- **237-Road Maintenance & Rehab Fund** To account for all revenues and expenditures associated with State Gas Tax SB1.
- *238-MSRC Grant Fund To account for the revenues and expenditures for the Mobile Source Air Pollution Reduction Review Committee projects.
- *241-Measure H Fund To account for the revenues and expenditures for the "Los Angeles County Plan to Prevent and Combat Homelessness" for the specific purposes of funding homeless services and short-term housing.
- *242-Prop C Exchange Fund To account for all revenues and expenditures associated with competitive Metro Grant for eligible transportation projects.
- **248-BTA Grant Fund** To account for the revenues and expenditures for the Bicycle Transportation Account (BTA) grant funded by the Los Angeles County Metropolitan Transportation Authority. This grant was awarded to fund two projects from the City's Bicycle Master Plan: the Mission Street Green Sharrow Lane Project and the South Pasadena Bicycle Parking Project.
- **228-Housing Authority Fund** To account for the revenues and expenditures for the City of South Pasadena Housing Authority.
- *249-Golden Streets Grant Fund To account for the revenues and expenditures for the open streets grant funded by the Los Angeles County Metropolitan Transportation Authority. The goals of the Open Streets Grant Program is to provide opportunities for 1) riding transit, walking and riding a bike, possibly for the first time, 2) to encourage future mode shift to more sustainable transportation modes, and for 3) civic engagement to foster the development of multi-modal policies and infrastructure at the city/community level.
- *277- Highway Safety Improvement Program Grant (HSIP) Fund To account for revenues and expenditures related to street improvements funded by the grant.
- *276-Historic Preservation Grant Fund To account for revenues and expenditures related to historic preservation grant funds.

^{*}Note that no budget was adopted for this fund.

Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

105-Facilities and Equipment Replacement Fund – To account the replacement costs of City vehicles and equipment.

106-Technology Surcharge Fund – To account for the funding collected through the City's Technology Fee Surcharge intended for acquiring and maintenance of a permitting software system.

327-2000 Tax Allocation Bonds Fund – To account for capital expenditures for improvements funded by the bonds formerly held by the Successor Agency to the Community Redevelopment Agency.

104-Street Improvements Program Fund – To account for capital expenditures related to street improvements projects.

STATISTICAL SECTION

The statistical section of the City of South Pasadena's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information say about the City's overall financial health.

CONTENTS	Page
Financial Trends	117
These schedules contain trend information to help the reader understand how the City's financial performance and well being have changed over time.	
Revenue Capacity	127
These schedules contain information to help the reader assess one of the City's most significant local revenue source, the property tax.	
Debt Capacity	131
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and its ability to issue additional debt in the future.	
Demographic and Economic Information	135
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	138
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the government provides and the activities it performs.	

Source: Unless otherwise noted, the information in the schedules is derived from the annual financial comprehensive reports for the relevant year.

Note: a Estimated Actual Taxable is not available

In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of the property may be increased by an "inflation factor" (limited to a maximum of 2%)

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Honorable City Council City of South Pasadena

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Pasadena (the City) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June xx, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying *Schedule of Findings and Responses*, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Responses as items 2021-001, 2021-002 and 2021-003 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying *Schedule of Findings and Responses* as item 2021-004.

City's Response to Findings

The City's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Responses. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rogers, Anderson, Malody e Scott, LLP.

San Bernardino, California

June xx, 2022

Schedule of Findings and Responses

Finding 2021-001 Material Weakness – Bank Reconciliations (previously reported as Finding 2020-001)

Criteria

Bank reconciliations should be prepared, reviewed and approved in a timely manner.

Condition and Context

During our audit, we noted that bank statements for various accounts were not reconciled to the general ledger in a timely manner.

<u>Cause</u>

The City did not have controls in place to ensure bank reconciliations were performed in a timely manner

Effect

Most of the problems encountered within the area of cash can be avoided if a proper system of checks and balances is incorporated into the City's procedures.

Recommendation

We recommend that all of the bank accounts be reconciled monthly to the general ledger and that all unusual reconciling items be promptly investigated and adjusted with adequate explanations. This is a repeat finding from the prior year, and although we observed some progress toward correcting this item, it was not sufficient to fully remove the finding.

Views of Responsible Officials and Planned Corrective Actions

See accompanying "Corrective Action Plan".

Finding 2021-002 Material Weakness – Accounting and Management of Capital Assets (previously reported as Finding 2020-002)

Criteria

Capital asset listings should be complete and depreciation expense should be calculated on each asset individually, utilizing accounting software.

Condition and Context

During our audit, we noted that certain capital assets were missing from the detailed listing of capital assets, journal entries to record depreciation expense were recorded to incorrect accounts and the calculation of depreciation expense was done incorrectly and manually. We also noted that several projects were open for multiple years, and those projects were continued to be carried as construction in progress when they have been completed. Some projects were carried in the construction in progress account when the project has been abandoned and there is no plan to complete the construction.

Cause

The City did not have controls in place to ensure capital assets and related depreciation expense was properly recorded.

Effect

The lack of procedures and controls over capital assets and related depreciation expense has led to inaccurate reporting of capital asset costs.

Schedule of Findings and Responses

Recommendation

We recommend that the City utilize the accounting software to assist in tracking capital asset purchases and disposals and assist in calculating depreciation expense and recoding the related entries. This is a repeat finding from the prior year, and although we observed some progress toward correcting this item, it was not sufficient to fully remove the finding.

Views of Responsible Officials and Planned Corrective Actions

See accompanying "Corrective Action Plan".

Finding 2021-003 Material Weakness – Year-End Closing Process (previously reported as Finding 2020-003)

Criteria

An important element of internal controls over financial reporting is for the entity to have procedures in place to ensure that all relevant accounts are reconciled at year-end.

Condition and Context

Over the past three years, the City has experienced a high turnover at the management level in the Finance Department. As a result, many accounts were not properly reviewed and/or reconciled at year-end in preparation for the audit. These accounts include (but are not limited to) capital assets amongst all funds, water fund inventory, interest income, fund balance and cash.

Cause

The City did not maintain the appropriate staffing levels to allow for the proper year-end closing process.

Effect

The City could be under/overstating amounts reported in the financial statements.

Recommendation

We recommend the City maintain proper staffing levels within the Finance Department to allow for the proper review and reconciliation at year-end. This is a repeat finding from the prior year, and although we observed some progress toward correcting this item, it was not sufficient to fully remove the finding.

Views of Responsible Officials and Planned Corrective Actions

See accompanying "Corrective Action Plan".

Finding 2021-004 – Noncompliance with Debt Reporting (previously reported as Finding 2020-006)

Criteria

In order to maintain compliance with bond requirements, annual filings must be made in a timely manner to Electronic Municipal Market Access (EMMA).

Condition and Context

During the audit, we noted reporting of continuing disclosure on the 2016 Water Revenue Refunding Bonds had not been submitted to Electronic Municipal Market Access (EMMA) agency in a timely manner.

Schedule of Findings and Responses

Cause

Due to the delay of financial reporting and issuance of the June 30, 2020 financial statements, the City fell out of compliance with the requirements noted above.

Effect

The City is not in compliance with bond reporting requirements.

Recommendation

We recommend the City prioritize timely financial reporting in the future to allow for timely reporting to EMMA. This is a repeat finding from the prior year, and although we observed some progress toward correcting this item, it was not sufficient to fully remove the finding.

<u>Views of Responsible Officials and Planned Corrective Actions</u> See accompanying "Corrective Action Plan".

Corrective Action Plan

Finding 2021-001 Material Weakness – Bank Reconciliations

<u>Corrective Action</u>: Management is in agreement with the recommendation and has been working diligently to improve the reconciliation process. There is a dedicated staff member responsible for the reconciliation process. Staff has cleared all of the backlog and is currently caught up.

<u>Proposed Completion Date:</u> While the City was still lagging behind for Fiscal Year 2020-2021, the City is currently caught up with the monthly Bank reconciliation.

Finding 2021-002 Material Weakness – Accounting and Management of Capital Assets

<u>Corrective Action:</u> Management agrees with the recommendation and will be exploring the capability of the current accounting software to manage the capital assets and assist in tracking purchases, disposals and assist in calculating depreciation expense.

<u>Proposed Completion Date:</u> Management will continue utilizing the current up-to-date Capital Assets worksheet to track purchases, disposals and depreciation expense until such time that resources would be available to be delegated to the transition of the information from the current worksheet to the accounting software.

Finding 2021-003 Material Weakness – Year-End Closing Process

<u>Corrective Action:</u> Management agrees with the recommendation and will be looking to implement procedures for the year end process to ensure all relevant accounts are reconciled at year end. Management will also review the current staffing levels to determine appropriate staffing levels are maintained.

<u>Proposed Completion Date:</u> Management will be sure to designate resources to create year end procedures to ensure all relevant accounts are reconciled prior to the 2021/2022 audit. Management will be preparing for the 2021/2022 audit promptly after completing the 2020/2021 audit. The internal deadline to complete the 2021/2022 audit is December 31, 2022.

Finding 2021-004 – Noncompliance with Debt Reporting

<u>Corrective Action:</u> Due to the delay of financial reporting and issuance of the June 30, 2021 financial statements, the City fell out of compliance with the debt reporting requirements. Management is working through the backlog to ensure the ACFR is completed timely in all future years and financial statements are available to be submitted to comply with the debt reporting requirements.

<u>Proposed Completion Date:</u> Management anticipates completing the 2021/2022 ACFR in a timely manner thereby placing the City in a position to comply with the debt reporting requirements by providing audited financials to the authoritative agency.
