City Council Agenda Report

ITEM NO. 2

DATE: June 21, 2023
FROM: Arminé Chaparyan, City Manager *AC*
PREPARED BY: John Downs, Interim Finance Director
SUBJECT: Adoption of Fiscal Year 2023-24 Annual Operating and Capital Budgets Report, Master Fee Schedule and Resolution

Recommendation

Staff recommends that the City Council:

1. Adopt a Resolution approving the Fiscal Year (FY) 2023-2024 through 2027-2028 Five-Year Capital Improvement Program (CIP), making a finding of consistency with the City's General Plan;
2. Adopt the Fiscal Year 2023-24 Annual Operating and Capital Budgets;
3. Approve the Five Year Capital Improvement Program; and
4. Adopt A Resolution approving the Fiscal Year 2023-24 Annual Operating and Capital Budgets.

Background

The City of South Pasadena adopts an annual operating and capital Budgets every fiscal year. The City's fiscal year is from July 1st through June 30th. The operating budget includes the General Fund, Special Revenue Funds, Debt Service Funds, Internal Service Funds and Enterprise Funds (Water and Sewer). The Capital Improvement Program (CIP) Fund accounts for all multiyear infrastructure projects. In accordance with section 65401 of the California Government Code, a City that has adopted a General Plan and recommends, prepares plans for, or constructs major public works, shall also prepare a coordinated program of proposed public works for the ensuing fiscal year.

The General Fund accounts for all unrestricted revenues used for services that benefit the general public (e.g. Police). The Special Revenue Funds account for restricted money from other entities such as the state and federal governments. Restricted funding can only be used for a purpose stipulated by the resource agency (e.g. Gas Tax for street maintenance). The Internal Service Funds account for centralized services used by all departments, such as general liability insurance and workers compensation. The Enterprise funds account for fee-for-service activities that benefit individual users such as water and sewer service.

The revised Draft Proposed Fiscal Year 2023-24 Budget was most recently presented to the City Council on June 7, 2023, further revised following Council directives, and published on June 8, 2023. The final revised document as you review it tonight was reviewed and discussed at a Special Finance Commission meeting on June 12, 2023, per City Council direction and to have a final vetting and review of the final product ahead of consideration for adoption. The Finance Commission recommended the proposed budget for Council consideration with a 4-0 vote, with Commissioner Quade absent. All City departments contributed to these draft documents, which have been reviewed in draft form by the City Manager and City Council respectively for initial reviews and adjustments.

Staff began community input opportunities by hosting an online survey for budget input, which gleaned 165 comments, which have been publicly shared at City Council. This document has been revised following staff refinement of the document and incorporation of direction of the City Council, and there have been a number of discussions on the document:

- May 16, 2023 - Finance Commission
- May 30, 2023 - City Council Budget Workshop
- June 1, 2023 - Finance Commission
- June 7, 2023 - City Council
- June 12, 2023 - Finance Commission Special

The document has been further refined, and revised to reflect changes from the public meetings, including City Council directives.

Four materials changes occurred to the document between May 30 and June 7:

- City attorney services contract set at \$420,000 (\$80,000 savings);
- Positions in Comm Services shifted from GF to Prop A (\$92,706 savings);
- Senior nutrition program funding from CDBG (\$7,806 savings); and
- Revenue of senior meals program reflected in budget (\$39,600 revenue)

Also included for consideration was a proposed shift of the Stables CIP Reserve fund from the Designated Reserves, to its own Assigned Reserved fund.

City Council held extensive deliberations on June 7, 2023, and provided the following direction and policy decisions, which have been reflected in the June 12, 2023 version of the document:

- Lighting and Landscaping Maintenance District's revenue short fall of \$774,171 is to be funded in FY 2023-24 from General Fund Undesignated balance, and staff is to return to Council with an analysis and options to address the long term funding shortfall for this service.

- The Chamber of Commerce Business Improvement Tax (BIT) funding level shall be set at \$128,500, and the South Pasadena Rose Float Association Foundation shall receive a \$12,000 contribution directly from the City Council
- City Council priority project have been identified and resourced as follows:
 - \$150,000 for Library Master Plan from General Fund Undesignated balance
 - \$25,000 for Multi-Cultural Event, proposed in Council budget
- Staff to return with options for Council re: personnel/staffing
 - Costing provided is fully burdened, including taxes, CalPers/retirement, and benefits contributions.

Staffing

Hearing the feedback from the City Council, staff proposed three options for Finance Commission's consideration and discussion related to personnel/staffing requests:

- Option 1: fully fund the requested positions and reclassifications in the June 7, 2023 budget document (9 full time positions, and 5 reclassifications)
- Option 2: consider partial funding request of priority positions across the agency, including: (5 new positions, and 3 reclassifications)
 - (New) Accounting Technician I in Finance Department
 - (New/Return) Sergeant (Office of Professional Standards) in Police Department
 - (New) Principal Engineer in Public Works Department
 - (New- Water Fund/Non GF) Management Analyst in Public Works Department
 - (New- Water Fund/Non GF) Water Operations Supervisor in Public Works Department
 - (Reclass) Human Resources Analyst to Senior Analyst in Management Services to oversee Risk
 - (Reclass) Part-time to Full-time Community Improvement Officer in Community Development
 - (Reclass) Part-time Management Aide to Full-time Management Assistant in Fire Department
- Option 3: no staffing changes in FY 2023-24, pending the 5-year budget projections and long-term financial planning. If option 3 is to be considered, staff will return to City Council with discussions pertaining to prioritizing workload and projects.

Finance Commission, with the absence of Commissioner Quade, support the recommendation of Option 2, and with the caveat to come back to Finance Commission with further discussion related to staffing if the 5-year projection allows for it.

General Fund Revenues

A majority of General Fund Revenues continue to come from Property and Sales Tax:

- \$20,075,533 (51%) comes from property taxes and special taxes
- \$6,478,033 (16%) from sales tax
- \$4,352,462 (11%) from utility users tax
- \$4,141,520 (11%) from current city services
- Remainder 11% from use of money & property, and other revenue sources

General Fund Expenditures

The goal for the Fiscal Year 2023-24 budget season was to build a status-quo budget based on a zero-based budget, which allowed each Department to go through the exercise of starting from zero to build their respective budgets from the ground up, and to justify every line item. This exercise led to the leaning out of the budget to provide for the funding to make some priority and necessary staffing growth. Employee Wages and Benefits, and City Operations and Maintenance make up more 97% of Expenditures. Increases are due to Employee Labor negotiations and salary adjustments to bring staff

that were significantly behind (10-30%) up to more comparative salaries. In this budget we also ask for funding for a complete Comprehensive Classification and Compensation Study to further delve into our staff positions, pay and wages.

As signified in the Midyear Budget report to City Council and Finance Commission, the City continues to feel the impact of inflation, with rising costs to doing business, purchasing goods and materials, across the board.

- \$27,009,805 (68%) wages & benefits
- \$12,219,805 (31%) operations & maintenance
- \$258,000 (1%) capital projects

Personnel Changes

Any positional changes approved by the City Council will be reflected in the final adopted document. The document as presented provides for the fully burdened cost of nine (9) new positions and five (5) reclassifications across the agency. Staff has also provided alternative options for Council’s consideration and will make appropriate adjustments following Council’s direction tonight.

Capital Improvement Program

The CIP for CY 2023-2024 is included in the City's Proposed FY 2023-2024 Budget. In addition, a Five-Year CIP is included as an Attachment to this agenda report, which outlays proposed physical improvements, such as buildings, transportation and street projects, parks, water & sewer facilities, etc. The projects beyond FY 2023-2024 in years two through five of the 5-year CIP, are to be included in future proposed budgets for fiscal years 2024-2025 through 2027-2028. As is typical, this CIP does not include costs for operational functions, programs, and routine maintenance activities. Furthermore, the attached five-year CIP includes for each project the analysis to demonstrate that the proposed project is consistent with and supports, promotes, or implements the statements, goals, policies and programs in the General Plan, as applicable.

The CIP for FY 2023-2024, which is year one of the five-year program, consists of 48 projects with a total FY 2023-2024 budget of \$16,518,072. This amount is budgeted across 28 funds, including special, grant, and enterprise funds, as accounted for and detailed in the City's Proposed FY 2023-2024 Budget. Years two through five of the CIP is largely funded through multiple accounts, however approximately 40% of the project financial needs are unfunded, and projects will need to be reprioritized, removed, and/or delayed, unless funding sources are identified as the CIP is developed further through FY 2023-2024.

Fiscal Impact

The estimated General Fund revenues of \$39,563,231 will exceed the proposed appropriations of \$39,487,055 by \$76,176 within the Proposed FY 2023-24 Operating Budget.

Key Performance Indicators and Strategic Plan

This item is in line with the Finance Department's Key Performance Indicator. The Annual Operating and Capital Budgets are being presented in order to provide a more transparent spending plan for the fiscal year and help Departments stay on track with their revenue and expenditures. This item also aligns with Strategic Plan priority "4e", bringing forward a comprehensive Capital Improvement Plan.

Community Outreach

The proposed budget document has been made available for public review through the posting of the document for the Finance Commission meetings, on the City's website, through the City's social media and e-newsletter communications tools. The City held two Public Community Meetings on May 18, 2023 and Special City Council Meeting on May 30, 2023 and a regular City Council Meeting on June 7, 2023 where the public had the ability to comment and provide feedback on this item.

Commission Review and Recommendation

The Finance Commission met on May 16, 2023 and June 1, 2023 to receive a presentation on the FY 23/24 Proposed Budget, and provided feedback to staff on the Proposed Budget. The Commission met a third time on June 12, 2023 for further discussion, and with the absence of Commissioner Quade, the Commission voted 4-0 to recommend for the City Council to consider adoption with the below recommendations.

1. Finance Commission recommends staff to adjust the personnel budget by reducing four new positions requests as well as reducing two reclassifications within the proposed FY 2023-24 operating budget. (Supporting scenario 2 of the personnel changes) This will result in a reduction of expenditure to the General Fund of \$339,063 and other funds of \$13,048. Commission supports staff returning to Council and Commission on any additional personnel asks after

completing a 3–5 year financial projection as well as providing a long term financial plan.

2. Finance Commission also recommended adding narratives to the Budget Policies that state that the Proposed FY 2023-24 Budget currently does not align with the goals of the policies to benefit the Council's understanding of where the Budget stands in contrast to the Budget Policy;
 - Budget Policy #2: Balanced Budget. The City strives to maintain a balanced budget for all governmental funds with total on-going revenues equal to or greater than total on-going expenditure, so that at year end all these funds have a positive fund balance and the General Fund balance is maintained. For the Proposed FY 2023-24 budget, all governmental funds have in aggregate greater on-going revenues than total on-going expenditures, but not all funds have positive fund balances at year end. The Finance Team will work on analyzing and reviewing the funds with negative fund balances. After review, the Finance Team will discuss the outcome with Finance Commission.
 - Budget Policy #9: Risk Management. The City will identify and quantify all areas of financial and operating risk, and prepare contingencies for those risks, including legal liabilities, infrastructure maintenance, emergency response, and contract and employee obligations. The Finance Team will take a deep dive into the insurance fund and review if the amounts currently expensed are actual expenses. With a better understanding of the past accounting practices for the Insurance Fund, the Finance Team will be able to make recommendation on the funding level and determine if assigned reserves can be made in order to meet the 70% level of assurance for outstanding self-insured liabilities. Staff will also review the claims process, types of cases and historical data, as well as the relationship between GF and the Insurance Fund, per Commission direction.

Finance Commission will continue to work with the Finance Team in future meetings to take a deeper dive into the Insurance Fund, CIP, understanding all the Funds, and reviewing policies to ensure compliance or having explanations and work plans for non-compliance. The Finance Department will also return to Commission and Council with analysis and options to addressing the negative fund balance in the Insurance Fund, with a recommendation to proceed with a lump sum payment or multi-year financial commitment to work toward the 70% balance per policy.

About South Pasadena

The City of South Pasadena is located approximately six miles northeast of downtown Los Angeles, between the cities of Pasadena, San Marino, Los Angeles and Alhambra. It has a population of 26,314. Founded in 1874 by the Indiana Colony, the City was incorporated as a General Law city of the State of California on March 2, 1888. South Pasadena is known for its tree-lined streets, historic California Craftsman-style homes, unique small businesses and its outstanding public schools. This small-town atmosphere makes South Pasadena one of California's most desirable locations. South Pasadena has quality education, a strong religious community, an extensive network of parks and a rich architectural heritage. Dynamic civic organizations, a population of ethnic and cultural diversity, and a vital seniors' group further enrich our small-town quality of life. Small, proud and independent, the City of South Pasadena has battled for a hundred years to preserve its status as a distinct—and distinctive—community. South Pasadena possesses a full-service City government that provides high-quality services in general administration, police, fire, library, public works, community development, and redevelopment projects.

City History

In early 1874, the area that is now South Pasadena was a part of the San Gabriel-Orange Grove Association. In 1875, the stockholders of the association voted to name their town Pasadena and just three years later, residents living in the southern portion of Pasadena considered themselves South Pasadenans.

In February of 1888, in order to control their own territory, South Pasadenans voted eighty-five to twenty-five for incorporation. A board of trustees was elected and Ammon B. Cobb was appointed as the first marshal, with Marshal B. Selmen as his deputy.

On March 2, 1888, South Pasadena officially incorporated with a population of slightly over 500.

The City's boundaries established in 1889 are essentially the same today. South Pasadena consists of 3.44 square miles of prime residential property. In 1876, unimproved land with water was selling from \$75 to \$150 an acre. Today a vacant lot in South Pasadena can be sold for more than \$200,000.

Few cities in California are better recognized for the quality of its small-town atmosphere and rich legacy of intact late 19th and early 20th century neighborhoods and residences. South Pasadena also has a strong claim to having the oldest and most historic sites in the San Gabriel Valley. For many centuries, its adjacency to a natural fording place along the Arroyo Seco had served as a gateway to travel and commerce for aboriginal peoples here and along the coast. It was here that Hahamognas greeted Portola and the missionaries who later established the San Gabriel Mission a few miles to the west.

The initial buildings on the Rancho San Pascual, which subsequently gave birth to the Cities of Pasadena, South Pasadena and Altadena, were built here. The first of these adobe structures became headquarters for General Flores and his staff in 1847 where they agreed to surrender to American forces, ending Mexican Colonial rule in California.

In 1888, South Pasadena incorporated the southern portion of the Indiana Colony and land south and eastward to the Los Angeles border, becoming the sixth municipality in Los Angeles County. With the establishment of the Raymond Hotel and the Cawston Ostrich Farm, the small community was able to attract tourists and increasingly large waves of new residents to the Pasadena area in the late 19th and early 20th Centuries. With completion of the Pacific Electric Short Line, putting the entire city within easy walking distance of the "red car" stations, South Pasadena also became one of the first suburbs of Los Angeles. It is now certainly one of the best-preserved cities, maintaining a small-town quality and humanity in the scale of its buildings, its residential streetscapes and historic commercial core.

City Manager's Budget Message

Fiscal Year 2023-24

June 7, 2023

Honorable Mayor and City Council,

It is my pleasure to present to you the Fiscal Year (FY) 2023-2024 Annual Budget, which we embarked on under the theme of continued Transparency and Collaboration. As we close out this year, we reflect on the progress and improvements made during Fiscal Year 2022-23 across all our City departments, in professionalizing the agency and delivering it to new standards, and in the level of service we provide our community.

This year, we continued our efforts in completing organizational assessments, including the Finance and Community Services departments, and embarking on the Police assessment. These assessments provide the agency an opportunity to review staffing and resources, work flows and outputs, research and incorporate industry best practices, review and improve upon policy, and deliver each department, and the agency, to the next level. The Library has also completed a Strategic Plan and held a Joint study session with the City Council and Library Board of Trustees to discuss the future of the site. On the topic of site assessments, we have completed a facility assessment of the Library site, and will be beginning the City Hall site assessment shortly.

Hand in hand with the assessments, the City has remained committed to hiring the best and the brightest in our industry, and have facilitated over 50 recruitments and hirings in the last year, and also experienced the transitioning of a number of staff during this unprecedented recruiting season. New hires including the hiring of a new Deputy Finance Director/Controller for operational oversight, and a Senior Management Analyst in creating the City's Housing Division, in late 2022. This budget resources our departments to transition from temporary to permanent staffing, and allows us to focus the year ahead. **GWD: Get Work Done.**

The City continues implementing the 2021-2026 Strategic Plan, which highlights and resources the priorities of the City Council and community. With the City's Strategic Plan over 50% completed, and the onboarding of a new Councilwoman and City Treasurer in early 2023, staff will facilitate a Strategic Plan revisit, including community engagement and input, in Fall 2023, to revisit our priorities and ensure we are on track to meet the needs of the community.

We have engaged with our community more than before, and continue that commitment. Our launch of the City's mobile app, SouthPas Mobile, provided resources, information and customer requests at community member fingertips, and also provided another engagement tool with our constituents. We have released a Request for Proposal for a new City website, anticipated to launch end of year, which will be a user-friendly, welcoming resource to community members, visitors and staff. Community engagements and surveys gleaned information on communications preferences, input on the proposed budget, the housing element, and more. In working with the City Council, we have better utilized the tremendous brain power and servitude of our City commissions in providing actionable recommendations for consideration in policymaking, as well as come together on a number of study sessions focused on streets, housing, and the future of the library site, for brainstorming and priority setting efforts.

This year saw the return of our City's events and programming, including the Commissioner Congress as well as a City Hall Open House event to introduce the new staff to the community and welcome everyone back post-COVID. In this budget we have included a wish list of items we have heard back on from the City Council and the community, with the first phase costs listed below:

- Library Master Plan- \$150,000
- Multi-Cultural City Celebration- \$25,000

As we close out our pandemic years, we look to the future and to transitioning to the new normal, which includes a further commitment to resident and business support, resources and service. Our Economic Development Team continues building upon their programming and service to the City, working to put our business community on the map, in championing and strengthening the local economy, and in welcoming new investment to the community. Another significant transition includes the award of a new contract for City Attorney Services. The City Council directed staff to work with a Council sub-committee in developing and released a Request for Proposal for City Attorney Services, and staff from the City Manager's Office worked diligently on the process— City Council will consider the award of contract in June 2023.

We have established a Housing Division in the Community Development Department, and they have hit the ground running on key priorities and programs, including the Housing Element and various programs, the Caltrans surplus properties and the policy decisions that City Council will soon begin to make on the opportunity to exercise first right of refusal on those properties, research on the no-fault eviction moratorium as it related to our 52% of renter residents. The budget proposes almost \$1M in Housing Element implementation and programmatic efforts, including:

- Tenant protection- \$400,000
- Racially Restrictive Covenants- \$100,000
- Cultural Heritage Ordinance Update- \$200,000
- Inclusionary Housing Ordinance (IHO) In-Lieu Fee Study- \$23,000
- Ballot Measure on Height Limit Study- \$100,000
- General Plan/ Downtown Specific Plan consultant (Rangwalla)- \$150,000

We have also furthered our commitment to the social services, veterans, elder adults and various partner agencies. While not a direct service provider, the City recognizes that a number of service providers touch and serve our community, and we have identified the opportunity to establish a Social Services Task Force, which leverages resources available to our community, identify gaps in service to pursue further partnerships. The team has launched a Social Services Resource Guide and a Elder Adults Resource Guide, and will continue looking for opportunities here.

The year ahead holds many priorities and goals: implement the City Hall Electrification Project, which includes infrastructure investments at City Hall and the transition of the Police fleet vehicles to electric, street repaving and infrastructure improvements, the programmatic efforts in our Housing Element and transitioning to compliance and implementation including the finalizing of the General Plan and Downtown Specific Plan, the implementation of the Slow Streets Program. Staff will actively look for opportunities to solicit grant funding for City programming. We look forward to the progress we will make with our City Council, Commissions and Boards,

community members and staff.

Finances

Specifically, on the City's financials, we have made great strides. The City has adopted citywide policies and protocols, delivered a timely Mid-Year Budget Report to Council, has made notable improvements on the City audit, and is delivering a timely budget and 5-year Capital Improvement Program (CIP). We delivered on our commitment for transparency and information sharing, having delivered quarterly budget updates that have now shifted to monthly updates, delivering monthly operational status updates during a height of transition, and intentionally sharing pertinent information with the Finance Commission along with the City Council. We continue the commitment to share information and bring the community along with our efforts as good stewards of our finances.

The agency is financially healthy, and great efforts are being made to implement best practices, policies and protocols to best serve our agency and community. The City received \$6.1 million in State and Local Fiscal Recovery Funds for the fiscal year 2022-2023. City Council prioritized partial use of the funds toward significant resource replacements and citywide technological advances to support improved service and oversight, as well as improving the user experience.

For the FY 2023-2024 Budget, the Finance Department embarked on establishing a zero-base budget, and worked with all City Departments in utilizing this process to provide a collaborative product that provides a clean start to the budget document in justifying all appropriations. The FY 2023-2024 proposed Budget includes a minimal increase in expenditures verses the revenue received, and also addresses two large issues that staff became aware of in March 2023: an outstanding invoice of \$1.6M due to CJPIA, and about a \$1M structural issue in Workers Compensation Insurance Fund. These items have been accounted for and addressed in this budget, and staff will prioritize a review and improvements of the City's insurance procedures, carriers and process in the year ahead.

Financial Policies and Procedures

On September 7, 2022, the City Council adopted the 2022 Finance Policies and Procedures in order to, among other things, establish rules and regulations to establish efficient procedures for the purchase of supplies, services and equipment at the lowest possible cost commensurate with quality needed, to exercise positive financial control over purchases, to clearly define authority for the purchases function, and to assure the quality of purchases. On December 7, 2022, City Council adopted the Second Reading and Adoption of an ordinance of the City of South Pasadena, California, Amending Section 2.99-29 of Article XI Relating to "Purchasing Procedures", and Sections 2.99-35 and 2.99-37 of Article XIII "Awarding Public Works Contracts" of Chapter 2 of the South Pasadena Municipal Code.

On March 15, 2023, the Finance Department presented the Fiscal Year 2022-23 City Council Budget Policies at the Joint meeting of the City Council with Finance Commission, for review and direction. After deliberation, the City Council voted on the document with some edits to be made in working with the Finance Commission, and that document was approved at the May 16, 2023 Finance Commission and May 17, 2023 City Council meetings, respectively. The Finance Department will continue working with the Finance Commission on establishing a bi-annual review of the City Council's adherence to these policies, at the mid-year mark and at the end of each fiscal year. Together, these documents and efforts will continue to contribute to our commitment of good financial stewardship of our agency and community, coupled with working on a five-year projection of forecasting into the new fiscal year.

Budget Input

The FY 2023-24 Budget document includes the detailed Proposed Fiscal Year 2023-24 Budget document, Capital Improvement Plan and Miscellaneous Fee Schedule. Staff conducted Community input opportunities by hosting an online survey for Budget input, which gleaned 165 comments. The two major items determined from the online survey were continued Public Safety support, and improvements to infrastructure. The City also hosted two in person and virtual Community Budget Forums on May 18, 2023, and a review of the final proposed document to Finance Commission on June 1, 2023.

The budget process has focused on a zero-based budget that included a major clean up of the budget document as well as the Capital Improvement Program (CIP) five-year document. The process was collaborative across all City departments, and resources requested are to provide for workload catch up as well as adding capacity to meet the needs of the years ahead.

Thanks to the City Council, our Finance Commission, and all City Departments and staff for their diligence, hard work and efforts in producing this guiding document. I appreciate the continued support of the South Pasadena residents of the City and our efforts in serving our community. We look forward to a positive and fruitful 2023-24 fiscal year.

Respectfully submitted,

Arminé Chaparyan
City Manager

General Fund Revenues

A majority of General Fund Revenues continue to come from Property and Sales Tax:

- \$20,075,533 (51%) comes from property taxes and special taxes
- \$6,478,033 (16%) from sales tax
- \$4,352,462 (11%) from utility users tax
- \$4,141,520 (11%) from current city services
- Remainder 11% from use of money & property, and other revenue sources

General Fund Expenditures

The goal for the Fiscal Year 2023-24 budget season was to build a status-quo budget based on a zero-based budget, which allowed each Department to go through the exercise of starting from zero to build their respective budgets from the ground up, and to justify every line item. This exercise led to the leaning out of the budget to provide for the funding to make some priority and necessary staffing growth. Employee Wages and Benefits, and City Operations and Maintenance make up more 97% of Expenditures. Increases are due to Employee Labor negotiations and salary adjustments to bring staff that were significantly behind (10-30%) up to more comparative salaries. In this budget we also ask for funding for a complete Comprehensive Classification and Compensation Study to further delve into our staff positions, pay and wages.

As signified in the Midyear Budget report to City Council and Finance Commission, the City continues to feel the impact of inflation, with rising costs to doing business, purchasing goods and materials, across the board.

- \$27,009,805 (68%) wages & benefits
- \$12,219,805 (31%) operations & maintenance
- \$258,000 (1%) capital projects

FY 2023/2024 Budget Policies Draft

PURPOSE STATEMENT

To enhance fiscal transparency and maintain and improve fiscal sustainability, the City of South Pasadena annually adopts fiscal policies to establish a framework to ensure a balanced budget, maintain healthy reserves, appropriately fund the City's infrastructure needs, establish fees and charges, and ensure compliance with City Council directives. This policy is adopted annually as part of the Budget adoption process and may be revised by City Council action.

1. ANNUAL BUDGET

The City adopts an annual budget. The City's fiscal year starts on July 1st and concludes on June 30th. The annual budget for the new fiscal year will be adopted before June 30th.

The following are key elements of the City's budget and budget process:

- Budgetary appropriations are made by the City Council, through formal budget adoption.
- The City Manager submits the Proposed Budget to the City Council no later than the final City Council meeting in May.
- The budget is adopted by the City Council before June 30th, following a public meeting where constituents are given an opportunity to comment on the Proposed Budget.
- Prior to consideration by the City Council, the Proposed Budget will be reviewed by the Finance Commission.

2. BALANCED BUDGET

The City strives to maintain a balanced operating budget for all governmental funds (all funds except the enterprise funds), with total on-going revenues equal to or greater than total on-going expenditure, so that at year end all these funds have a positive fund balance and the General Fund balance is maintained.

- The budget is balanced at the individual fund level. The estimated revenue sources must be sufficient to cover proposed uses.
- Ongoing operations are funded by recurring revenues.
- City policies on reserve requirements for specific funds are adhered to in the budget.
- If shortfalls are projected after the budget adoption, during quarterly financial reviews, the City Manager will present a plan to address such shortfalls with sustainable measures in order to achieve a balanced budget by fiscal year-end.
- Non-recurring revenues or one-time funding may be used to balance the budget during economic downturns, or as a result of unforeseen events.

3. APPROPRIATIONS AND BUDGETARY CONTROL

The City Council holds public hearings and adopts the City's annual budget and may modify appropriations with majority approval. During the fiscal year, any budget adjustments (increases in appropriations at the fund level) that cannot wait for the Mid-Year review or that exceed the City Manager's budget authority described below, must be submitted by the City's departments for City Council review and approval. The review and approval may occur at any City Council meeting, at the request of staff or the City Council. The City Council approves any revisions that increase the total budgeted expenditures or revenues at the fund level, and any changes to permanent and full-time positions.

The legal level of expenditures is controlled at the fund level, and appropriations lapse at the end of each fiscal year. Re-appropriation by the City Council only occurs for multi-year infrastructure and capital projects.

Department Heads may, without Council approval, amend individual line items within any fund in the maintenance and operations portions of the budget without increasing total appropriations for that division. The City Manager may, without Council approval, amend individual line items within any fund, and between divisions and programs, in the personnel costs, maintenance and operations, capital outlay and capital projects portions of the budget without increasing total appropriations for that fund.

4. GENERAL FUND RESERVES

General Fund Reserves are described as:

- Unassigned Fund Balance - These reserves are in spendable form and may become either restricted, committed, or assigned. The City strives to attain a General Fund undesignated fund balance equal to a minimum 30% of General Fund revenues at year end.
- Assigned Fund Balance – These reserves are set aside or earmarked for particular purposes, and the authority to designate these reserves can be delegated, and may take less formal action to limit how the reserves are used.
- Restricted Fund Balance – These reserves are subject to restrictions that are legally enforceable by outside parties, such as bondholders.
- Committed Fund Balance – These reserves are designated by the City Council, and are designated for specific purposes, through formal action. Committed balances can be modified by the City Council taking formal action.

Committed (Designated) Reserves shall be reviewed and designated annually by the City Council prior to Budget adoption. Upon designation of a reserve for a specific purpose, the Council will ensure the following:

- The purpose of the reserve will be specified at the time of designation.
- The City Council will also identify whether the designation is a one-time designation or whether an amount specified by the City Council will be added to the designated reserve on an annual basis.
- Nothing limits the City Council's authority to un-designate, or re-designate any General Fund Designated Reserve for another governmental purpose, pursuant to formal City Council action.

5. ENTERPRISE FUND

The City requires the water, sewer, and golf course enterprise funds be self-supporting. The City recognizes that enterprise funds function with accounting practices that are different from those used by governmental funds. Therefore, for enterprise funds, the City will strive to maintain operating budgets that produce annual net revenues that meet or exceed the compliance requirements of debt coverage rations generally.

The sewer fund was recognized as an enterprise fund starting in FY 2009/10, with the requirement of self-supporting funding. Water and sewer rate increases will assure that revenues exceed operating expenditures, including debt service. Budgeted water capital projects will be paid from a \$37.8 million 2016 Water Bond issuance. Bond debt service will be

paid out of water revenues. Sewer revenues along with a revolving loan from the State will pay for sewer capital improvements.

The Water Fund will maintain a reserve equal to 30% of revenues. The Sewer fund will maintain a reserve equal to 30% of revenues.

6. INFRASTRUCTURE

The City maintains a long-range fiscal perspective through the use of a Capital Improvement Program to maintain the quality of City infrastructure, including streets, sidewalks, sewers, drains, lighting, buildings, parks, and trees. The City Council adopts capital projects budgets and may modify appropriations with majority approval. All changes in appropriations at the fund level during the year must be submitted to the City Council for approval.

Beginning in FY 2013/14, the City's goal has been to commit a minimum of \$2,000,000 per year towards street improvements. This amount has fluctuated based upon available resources

7. ACCOUNTING AND REPORTING STANDARDS

The City will comply with all requirements of generally accepted accounting principles, and will publish an Annual Comprehensive Financial Report (ACFR) in compliance with generally accepted accounting principles, prepared in coordination with our independent auditors, no later than the first quarter of each calendar year. The ACFR, along with the Auditor's report on internal controls and compliance, will be presented to the City Council at a public meeting, after first being presented to the Finance Commission. The City shall endeavor to achieve audits with minimal auditor findings in the form of significant deficiencies. The City shall swiftly and thoroughly respond, to auditor findings of material weakness.

8. MIDYEAR AND INTERIM FINANCIAL REPORTING

The City will publish a midyear budget update in March of each year. The midyear budget update shall present estimated outcomes and the implications for the budget year. The report shall give attention to the financial issues and policy matters anticipated to have the most significant short and long-term financial planning importance to the City Council. Pursuant to the content of the midyear report, the City Council shall provide specific and general direction to staff for short- and long-term budgetary planning.

To comply with the policy, the City Manager will ensure the following:

- The midyear budget update will be presented to the City Council in February or March of each year.
- At the midyear budget update, staff will present to the City Council any necessary adjustments to the budget. The adjustments are based on additional funding, or major changes in revenues or expenditures, or previously approved budget adjustments.
- Monthly budget updates will be provided to the City Council starting in the Spring of 2023.

9. RISK MANAGEMENT

The City will identify and quantify all areas of financial and operating risk, and prepare contingencies for those risks, including legal liabilities, infrastructure maintenance,

emergency response, and contract and employee obligations. The City will work with the City's insurance providers to seek full coverage of actuarially projected needs.

Liability and Workers Compensation liability is reported in accordance with GASB 10, and further explained below.

- The City manages risk through a combination of purchased insurance and self-insurance.
- The City self-insured workers' compensation claims with a self-insured retention of \$125,000 and general/auto liability claims, with a self-insured retention of \$100,000 per covered claim. Excess workers' compensation and general/auto liability insurance coverage shall be purchased.
- An annual actuarial study shall be conducted to provide an estimate of the self-insured liability to be recorded by the City in accordance with Governmental Accounting Standards Board Statement No. 10. This statement requires the City to accrue a liability on its financial statements for a reasonable estimate of the cost of claims and expenses associated with all reported and unreported claims.
- The City's goal is to maintain reserves to fund its outstanding self-insured liabilities at the minimum level of 70 percent.
- The City shall maintain a Self-Insurance Fund to both fund the liability reserve and workers compensation, and recover all associated risk management costs, including claim payments, insurance premiums and any deductibles, and claim administration (internal and external). The fund's revenues shall be generated through assessments to City funds based on their claim experience and outstanding liabilities. These departmental assessments shall be evaluated annually and adjusted as needed.
- Staff shall report to the Finance Commission and City Council at least annually on the claims processed, amounts paid, and steps taken to manage and reduce the City's risk and liability.

10. DEBT AND INVESTMENTS

The City will consider the use of debt for long-term capital assets when the cost of debt is lower than the City's investment return, and when operating revenues are available to pay the debt. We will maximize the investment return on City Cash balances within the higher concerns of safety and liquidity. An investment policy will be submitted annually to the City Council for review and adoption in September or October of each year. The City shall at all times maintain compliance with the California Government Code with respect to the content and function of its Investment Policy.

Annually, the Investment Policy is reviewed by the City's Finance Commission, prior to being approved by the City Council. Additionally, the City Treasurer shall provide monthly reports to the City Council which shall include all reportable elements specified in the City's Investment Policy.

11. CONTROL OF FINANCIAL ASSETS

All financial assets will be under the direct authority of the City Treasurer and Finance Director. Regarding Capital Assets, the City will capitalize assets and equipment with individual minimum value of \$5,000 for non-infrastructure assets, and \$25,000 for infrastructure assets.

12. SCHEDULE OF FEES FOR SERVICES

The City will publish, and the Finance Department will update, the schedule of fees for services as a component of the annual budget. The Fee Schedule will be reviewed by the Finance Commission prior to implementation each July 1st.

13. LONG-TERM LIABILITIES

The City shall evaluate long-term liabilities (debt borrowing, compensated absences, claims and judgements, pensions, post-employment benefits (OPEB), on a case by case basis. The City will work with the California Public Employee Retirement System and the City's insurance providers to seek full coverage of actuarially projected needs.

Funding is budgeted on a pay-as-you-go basis for leave liabilities, and retiree health insurance costs. In accordance with GASB 45, a third-party actuarial valuation of the City's liability for annual retiree medical costs has been completed every two years since FY 2008/09.

14. GANN APPROPRIATIONS LIMIT

The City will annually adopt a Resolution establishing the City's appropriation limit (the Gann Limit) calculated in accordance with Article x111-B of the constitution of the State of California Government code and any other voter approved amendments or state legislation that affects the City's appropriations limit. The Gann Limit will be adopted by Resolution.

The City is restricted to an amount of annual appropriations from proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller or returned to the taxpayers through revised tax rates or revised fee schedules. Alternatively, an excess of one year, may be offset against a deficit in the following year.

FY 2023 Key Performance Indicators Update

During the development of the Fiscal Year (FY) 2023 budget, the Management Services Department committed to working towards Key Performance Indicators (KPI). As reflected in the FY 23 accomplishments above, staff has done a commendable job at working towards meeting those KPIs.

City Clerk's Office

In FY 23, the City Clerk's Office made significant strides in enhancing customer service through innovation. The Division also experienced significant turnover and staffing challenges, which were addressed with the assistance of temporary staffing services. The turnover in staffing did cause delays in implementing projects, but it also allowed staff to analyze the path forward and create a plan. The City Clerk's Office is working closely with the City Manager's Office in procuring services for a new user-friendly website. A Request for Proposals (RFP) was issued by the CMO, and this project is expected to be completed in the next fiscal year. Along with the joint effort of procuring a new website, the Division began the selection process for the procurement of an agenda management program to streamline the agenda process and will be implementing the selected program in FY 2024. Core operations of the City Clerk Division, such as agenda processing, clerking city council meetings, and assisting commissions, continued without interruption this fiscal year. The Division worked closely with all commissions and the City Manager's Office to implement a Commissioner's/ Elected Official's Handbook to welcome and provide incoming elected officials with the tools and background information for their roles. The City Clerk's Office hosted AB1234 training for all elected officials and staff liaisons. The second annual Commissioners' Congress was also held this fiscal year. The Division successfully coordinated with Los Angeles County to hold the General Municipal Election in November 2022 and then held a reorganization ceremony for the outgoing and incoming elected officials. This fiscal year, the Division is in the process of completing the backlog of minutes for city council meetings, which consisted of over years' worth of meetings. To date, for FY 23, the City has received an unprecedented amount of public records requests. Since July 1, 2022, the city has received 469 requests, with less than 3 months remaining in FY 23. All but seven of those requests have been responded to and closed out.

Human Resources and Risk Management

In FY 23, the Human Resources and Risk Management Division experienced significant turnover and staffing challenges but has continued strong momentum in improving the organizational culture and building a strong employer brand to attract and retain top-caliber candidates. This fiscal year, the Human Resources Division made investments in employee development by purchasing a new learning management system (LMS) through NEOGOV. The implementation is well underway and is expected to be completed by the end of FY 23. Additionally, in efforts to enhance the employee experience, Human Resources will be revamping the employee onboarding process through the implementation of NEOGOV Onboard. The Human Resources Division kicked off the first Health and Wellness Fair and, through the Employee Engagement Team (E.E.T), had a successful summer BBQ, Halloween celebration, and holiday luncheon that also served as an opportunity to recognize staff and honor years of service to the City. The Division has proactively offered several training opportunities citywide through our partnership with LCW. On the Risk Management side, the Division is undergoing an internal review of our processes and procedures and working with our third-party administrators (TPAs) to improve communication flow and assess ways to increase efficiency in the claims process. On the Risk Management side, the Division worked closely with

our Police Department partners to roll out Active Shooter training citywide Division has compiled a full accounting of our claim's history for the last two years and has begun efforts to identify high-risk areas for mitigation. For the FY 24 budget development process, HR developed Budget Instructions and forms for departments to request changes to their personnel structure and positions formally and have worked closely with the Finance Department during budget development.

Innovation and Technology (IT)

In FY 23, the Management Services Department (MSD) made great strides in internally assessing our Information Technology infrastructure and needs. In FY 23, the department invested significant funds in updating computers and workstations citywide and will continue this effort into FY 24. In collaboration with our managed service provider, the City's Technology Master Plan was updated to reflect better the needs of the City, and important new tools were implemented to improve transparency and understanding of the City's infrastructure. As part of the hybrid work program, MSD has increased the deployment of laptops and started to phase out older PCs. A significant effort was made to consolidate many mobile phone carrier accounts, which has led to cost savings and more accurate billing. A major investment in technology was made to transition the City to the cloud-based Office 365 system, and the implementation of that system is underway and is expected to be fully implemented by the end of FY 23. MSD also replaced our aging multi-function devices (MFDs) with new leased machines, which also resulted in cost savings for the City. By the end of FY 23, MSD hopes to wrap up demonstrations and review initial proposals for a new Voice Over IP system (VoIP), to replace our legacy landline phone system that is out of date and in serious need of upgrading. On the cybersecurity front, MSD hopes to implement a new training and mitigation tool citywide to educate and train staff on potential cybersecurity threats to our organization's security.

Grants and Contracts

The Department has worked to centralize the tracking and execution of contracts. The City Clerk's Office has been delegated the responsibility of continuing to build on initial efforts. The Department has a centralized contracts tracker and is in the process of issuing official city contract numbers to make tracking easier. Our Senior Management Analyst has also worked with different departments regarding grant reporting and compliance obligations.

FY 2024 Key Performance Indicators

As the Department has developed, staff has had the opportunity to review the existing performance measures. New KPIs are listed below for FY 24 that better reflect organizational goals and priorities.

Fiscal Year 2022-23 Budget Snapshot

Overview

The Finance Department accounts for all City and Successor Agency expenditures, administers business licensing and water billing through third-party vendors, accounts for revenue collection, performs city wide accounting functions, including grant accounting, processes the biweekly payroll through a third-party vendor, prepares payment of all obligations for review and approval by the City Council, and sends out approved check warrants. In conjunction with, and subject to the independent certification of the City/Agency independent audit firm, the Department prepares the City's Annual Comprehensive Financial Report (ACFR). The Department also prepares annual reports for the State Controller and other State and Federal agencies. Under the direction of the City Manager, the Department prepares the City's annual budget.

The Finance Department oversees the utility billing function by utilizing a third-party vendor for the City's approximately 7,000 accounts for all water, refuse and sewer fees. The Department works with the City Treasurer, Finance Commission, and committees with respect to the various financial issues. As required by the Government Code, monthly investment reports are provided to the City Council summarizing investment holdings and rates of return on investments.

Notable Changes – Wages and Benefits

Overall, the full-time permanent salaries show an increase as the budget includes funds for a permanent full time Finance Director as well as a full year's cost of a full time Management Assistant position authorized by the City Council in FY 2022-23. Compared with FY 2022-23, part-time, temporary staff salaries show a decrease, due to the hiring of a full time Management Assistant and Accounting Technician I, versus the previous use of part-time interim and temporary staff.

Notable Changes – Operations and Maintenance

The Finance Department expects an increase in special departmental expenses and professional services. The Department will work with an outside vendor to conduct a Master Fee Study and Cost Allocation Study to update our fee schedules.

The Finance Department is responsible for accounting, revenue, treasury, debt administration, payroll, budget, and purchasing functions. We strive to work efficiently and effectively. We are dedicated to providing our City Council, City Commissions, City Manager, City departments, employees, and diverse community with efficient and courteous service.

Accounting Management

The Finance Department completed their audit and financial report by February 2023 and filed the following reports in a timely manner: Annual Comprehensive Financial Report with an unmodified “clean” audit opinion, State Controller’s Report, State and Street Report, and Metro Audit. The Finance Department also produced 12 Treasurer’s Reports for City Council, issued 3,569 warrants in FY 21-22, issued 115 1099s for Calendar Year 2022, and approved 825 journal entries in FY 21-22.

Payroll

The Finance department has successfully moved the payroll task in house for FY 22-23. In FY 22-23, we distributed 269 w-2s and 162 1095-Cs to employees. Finance has 207 direct deposit participants and 63 deferred compensation participants. Our goal for FY 23-24 is to implement the Springbrook Employee Self Service portal. This will provide an additional level of transparency for employees as they can view their w-2s and bi-weekly paychecks online.

Revenue

The Finance Department is responsible for ensuring revenue is recorded in a timely manner. In FY 22-23, Finance issued 1,500 business licenses, reviewed over 2,400 bank deposits, and secured 162 filming/special events permits.

Enterprise Resource Planning Upgrade

Finance currently utilizes a software called Springbrook for its accounting needs and resources. We have placed a hold on moving this platform into the cloud as we navigate our options.

Key Performance Indicators

The South Pasadena Police Department meets the needs of the community by providing professional services to safeguard the city in crime prevention. Community outreach is accomplished by active patrols, educational programs, and social media through the City's website. The Key Performance Indicators (KPI) for the department demonstrate the need to quantify its information in a concise and articulate manner.

Computer Aided Dispatch and Record Management System (CAD/RMS)

- On March 22, 2022, the Motorola Flex System went into effect, bringing the South Pasadena Police Department into the 21st century of law enforcement.
- The Motorola Flex System has established a detailed base of statistics for 2022 and year-to-date for 2023. In January 2022, the FBI modified reporting standards for Part 1 Crimes to include specific identifiers within each category.
- The table below shows Part 1 Crime statistics for 2022 and the first quarter of 2023. With an increased law enforcement presence through recruiting and hiring efforts, the Police Department aims for a 5% reduction in Part 1 Crimes compared to 2022 statistics.

	2022	2023 (Through 03/30/23)
Homicide	2	0
Rape	2	1
Robbery	9	2

- Due to the covid-19 pandemic, many community events have been canceled or on hold since 2020.
- The Police Department is ramping up community engagement efforts to reach pre-pandemic levels for events and communication with stakeholder groups.
- For the FY 22-23, the Department took part in or held the following events: Open House, Coffee with the Chief, Neighborhood Watch Meetings, Eggstravaganza, Catalytic Converter Etching Events, and the Women's Self-Defense Class

Community Development

Fiscal Year 2022-23 Budget Snapshot

Overview

The Community Development Department is comprised of five divisions: Planning, Building and Safety, Community Improvement, Housing, and Film and Art. Staff in Community Development supports the Planning Commission, Cultural Heritage Commission, Design Review Board and Public Art Commission. The Planning staff administers the City's Zoning Code including land use and development regulations, processes land use permits, and undertakes long range land use planning. The Building staff enforces construction standards to safeguard life, health, and property by reviewing building plans for code compliance, issuing building permits, and performing construction inspections. The Community Improvement (code enforcement) staff works with property owners to secure compliance with the municipal code regarding property maintenance and health and safety issues. The Housing Division focuses on developing affordable housing policies and implementing strategies to improve housing opportunities for all income levels. Additionally, the Housing staff helps to monitor and implement the Housing Element programs. The department is also home to the South Pasadena Film Office which coordinates all filming activity in the City.

Notable Changes – Wages and Benefits

There is an increase in overall wages and benefits due to additional staffing needed in the department. A full-time Management Assistant position is being requested to help manage the department's four commissions and provide additional administrative assistance to the Housing Division. Additionally, this budget proposes to convert the part-time Community Improvement position to full-time to help with the code cases and to respond to various new City codes and State laws such as the ban on gas powered leaf blowers, and AB 838 tenant health and safety complaints.

Notable Changes – Operations and Maintenance

There is a significant increase in professional services to contract planning firms and consultants to assist with the implementation of the housing programs in the State mandated 6th Cycle Housing Element Update 2021-2029. During this fiscal year the department will be making significant zoning code amendments and finalize the General Plan and Downtown Specific Plan updates, among other department priorities. In addition, the budget for Professional Services includes an extensive work plan including:

- Zoning Code amendments;
- Tenant Protection Programs;
- Cultural Heritage Ordinance update; and
- Department organizational and operational assessment.

Capital Outlay

Improvements to the Housing Authority owned property (308 San Pasqual) are needed within the fiscal year such as potential reroof, septic tank inspection and potential pumping, and kitchen rehabilitation.

Library

Fiscal Year 2022-23 Budget Snapshot

Overview

The Library Department is a community anchor and a resource and learning hub. It is a welcoming place for people of all ages, walks of life and socioeconomic backgrounds. People visit the Library to study, work, relax, and recharge. It is a place where people learn about their community, connect with their neighbors, and expand their horizons. The Library provides resources in a variety of formats to meet the information and learning needs of a diverse population. It supports reading readiness, literacy, lifelong learning, recreation, and professional development with its collections, programs, and services. The Library is open 7 days a week, for a total of 58 hours. In the first three-quarters of Fiscal Year 2022-23 the Library issued more than 2,000 new library cards, and an average of 14,285 patrons came through the doors every month. Borrowing is close to pre-pandemic levels, averaging 28,600 checkouts a month. Librarians at our reference desks helped around 80 patrons each day and presented programs attended by more than 7,700 people.

Fiscal Year 2022-2023 was a banner year at the Library. We saw library operations return to normal as the impacts of COVID-19 receded, and the Library Special Tax, which provides approximately 20% of the Library's budget, was renewed by 86.65% of the voters, and will continue until terminated by a majority vote of the electorate. A robust strategic planning process engaged the community and staff and resulted in a plan that will guide library programs and services for the next five years, as well as inform decisions about the allocation of human and fiscal resources. The plan outlines many exciting goals related to operations, the facility, technology, and services.

The Library's goals for Fiscal Year 2023-2024 are tied to the strategic plan and include implementing a Radio Frequency Identification (RFID) system that will improve customer self-service options and collection management, implementing a module for the Integrated Library System (ILS) that will streamline the acquisition of library materials, and securing funding from the California State Library for critical infrastructure and life-safety improvements to the facility.

Notable Changes – Wages and Benefits

The Library is not requesting any new positions or changes to positions for Fiscal Year 2023-24.

Notable Changes – Operations and Maintenance

The budget includes funding to enable librarians to attend The American Library Association's annual conference, which will be held in San Diego.

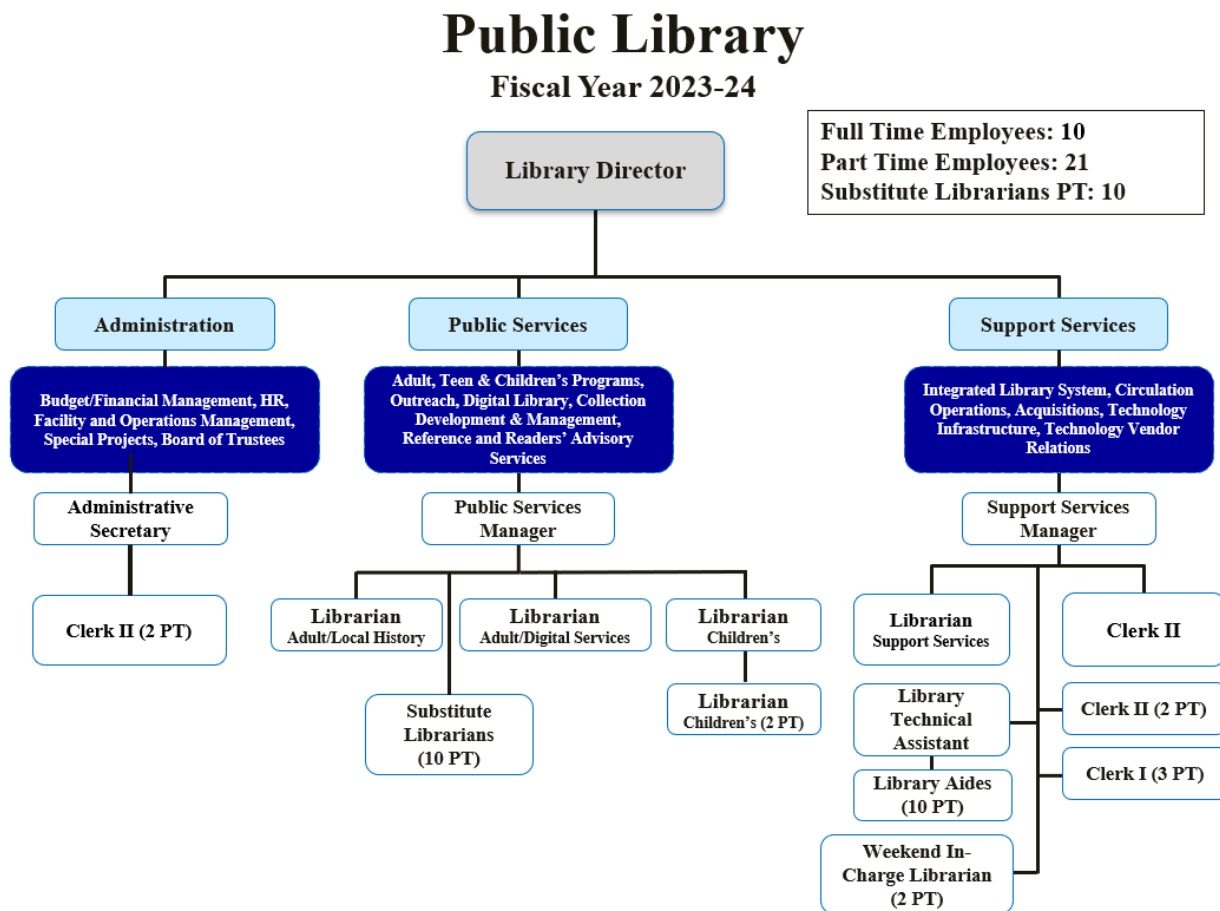

Capital Outlay

Funds have been designated to paint, re-carpet and replace the furniture in the teen area, as well as to replace the curbside book drops on Oxley Street.

Community Services

Fiscal Year 2022-23 Budget Snapshot

Overview

The Community Services Department is pleased to submit the Fiscal Year 2023-24 budget proposal. The Community Services Department provides services within four divisions: Senior Division, Recreation Youth Division, Community Transit, and Community Services Division.

The following is a synopsis of the fiscal year for the Community Services Department.

The Senior Citizens Center, a multi-purpose facility, provides older adults with educational, social, physical, nutritional, and emotional services and city special events such as the Memorial Day Celebration. On-site meals, classes, and programs have resumed in person. Home-delivered meals continue to serve seniors residing within city limits.

The Recreation and Youth Division operates out of the Orange Grove Recreation Center and coordinates recreational classes for children and adults, after-school and summer child care, Facility and Park reservation, and city events such as Concerts in the Park, Eggstravaganza, Spooktacular, and Breakfast with Santa.

The Community Transit operates the Dial a Ride Program, which offers essential services for seniors, including rides to medical appointments, grocery stores, financial institutions, and social gatherings provided by the City. The Division has experienced an increase in ridership since the pandemic. A full-time Management Analyst and Management Assistant were hired to fill vacant positions. A new All-Electric 14 Passenger Van was purchased and is in operation. The Division will undergo an analysis of the Dial-A-Ride program.

The Community Services Division provides general department oversight plus budget and grant administration, park improvements, community liaison activities, and contract management of the Arroyo Seco Golf Course (Golf Course), Arroyo Seco Racquet Club, San Pascual Stables, South Pasadena Batting Cages, Ironworks Museum, and Tower Venture Cellular. All agreements have been fully executed with new contract terms except for the Golf Course which the agreement is on a month-to-month. The Golf Course completed a Market Support and Financial Analysis which is under review by City Council. An assessment of the Department was conducted by a consultant and recommendations will be implemented in FY 2023-2024. The Department implemented a new registration software called CivicPlus which will enhance the registration and reservation processes.

The staff supports the Community Services Commission, Festival of Balloons, South Pasadena Tournament of Roses Committee, and Recreation Leased Facilities Ad Hoc Committee.

The most common types of bonds are General Obligation, Revenue and Special Tax bonds.

BUDGET

A fiscal plan of financial operation listing an estimate of proposed applications or expenditures/expenses and the proposed means of financing them for a particular time period. The budget is "Proposed" until it has been approved by the City Council. South Pasadena's budget covers one fiscal year, from July 1 through June 30.

ENCUMBRANCE

A legal obligation to pay funds, the expenditure/expense of which has not yet occurred. An encumbrance ceases when the obligation is paid or is otherwise terminated. Technically, encumbrances lapse at year's end and require Council action to re-appropriate funds to cover any remaining encumbrances.

ENTERPRISE FUND

A type of fund established for the total costs of those governmental facilities and services that are operated in a manner similar to private enterprises. Enterprise fund activities are entirely or predominately self-supporting. The City has three enterprise funds.

FISCAL YEAR

for use. Similar to retained earnings, this represents the excess of all prior year's operating surpluses and deficits. This includes cash on hand, and current assets less current liabilities.

GENERAL FUND

The primary fund of the City, it is used to account for all revenues and expenditures of the City not legally restricted as to use. The fund is used to account for the cost of the City's general operations. Description of Funds

General Fund

101-General Fund – The General Fund is the primary operating fund of the City. The General Fund accounts for all financial resources except those required to be accounted for in another fund. That is, it is assumed that all of the City's activities are reported in the General Fund unless there is a compelling reason to report an activity in some other fund type. Generally Accepted Accounting Principles (GAAP) prescribe that a government report only one general fund.

There are at least three compelling reasons to account for a particular activity in some type of fund other than the General Fund:

- **GAAP Requirements.** In certain instances, GAAP require the use of another fund type. Examples of such requirements are found in reporting for resources that are required to be held in trust for employee pension plans, other postemployment benefit plans, or other employee benefit plans. The City does not have such plans.
- **Legal Requirements.** There may be legal requirements that a certain fund type be used to account for a given activity. Most special revenue sources that are legally restricted to expenditure for specified purposes (Capital Growth Fund, grants, local return of Proposition A and C, CDBG, Gas Taxes, etc.) fall into this accounting category.
- **Financial Administration.** The demands of sound financial administration may require the use of a fund other than the General Fund. For example, the City has found it appropriate to account for the Parking and Business Improvement Tax, and Mission Meridian Public Garage in this manner.

Basis of Budget Accounting

The City of South Pasadena's accounting records are maintained in full accordance with Generally Accepted Accounting Principles (GAAP), as established by the Governmental Accounting Standards Board (GASB).

The budget basis refers to when revenues and expenditures are recognized in the City's accounts. Our annual budget is prepared on the same basis as the City's Annual Comprehensive Financial Report (ACFR).

The modified accrual basis is followed in all governmental funds (General, Special Revenue, Debt Service and Capital). Under the modified accrual basis of accounting – wherein the measurement focus is placed on current financial resources rather than a determination of net income – revenues are recognized when they become measurable and available. The reported fund balance provides an indication of available, spendable resources. Expenditures are recognized generally when the related liability is incurred.

Enterprise Funds are accounted for using the accrual basis of accounting. This is an economic resources measurement focus. Revenues are recognized when they are earned, and expenses are recognized when incurred. The accrual basis focuses on net income, and the operating statements provide an indication of the economic net worth of the fund. For budgetary purposes, however, the reported fund balance is a calculation of liquid or near-liquid cash assets (current assets minus current liabilities).

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA ADOPTING THE CAPITAL IMPROVEMENT PROGRAM FOR FISCAL YEARS 2023-2024 TO 2027-2028, MAKING A FINDING OF CONSISTENCY WITH THE GENERAL PLAN AND MAKING A FINDING OF EXEMPTION UNDER CALIFORNIA ENVIRONMENTAL QUALITY ACT GUIDELINES SECTION 15061(B)(3)

THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA HEREBY FINDS, RESOLVES AND ORDERS AS FOLLOWS:

SECTION 1. The City Council of the City of South Pasadena desires to develop a proactive Capital Improvement Program to meet the community's needs for future services, programs and facilities.

SECTION 2. The projects within the City of South Pasadena Capital Improvement Program - Fiscal Years 2023-2024 to 2027-2028 ("CIP") are divided into the following general categories: General Buildings & Facilities; Housing Authority; Information Technology; Library; Community Services & Parks; Sewer; Stormwater; Streets; Sustainability; Transportation and Traffic; and Water.

SECTION 3. The City Council hereby finds that it can be seen with certainty that there is no possibility that the approval of the CIP may have a significant effect on the environment. The Capital Improvement Program is a prioritizing and funding allocation program and cannot and does not have the potential to cause a significant effect on the environment. No physical activity will occur until all required environmental review is conducted at the time the physical improvements prioritized in the Capital Improvement Program are undertaken at a future unspecified date. Accordingly, the approval of this Capital Improvement Program is therefore exempt from the environmental review requirements of the California Environmental Quality Act pursuant to Section 15061(b)(3) of Title 14 of the California Code of Regulations.

SECTION 4. Pursuant to the applicable provisions of the Government Code, a finding that the CIP is consistent with the City's General Plan is required. As set forth in the CIP and the analysis therein for each project within the general categories listed above, the analysis demonstrates that all of these capital projects are consistent with the goals, policies and programs of the South Pasadena General Plan. The findings of consistency set forth in the CIP are incorporated herein by this reference.

SECTION 5. That certain document entitled "City of South Pasadena Capital Improvement Program - Fiscal Years 2023-2024 to 2027-2028," a copy of which is in office of the City Clerk is hereby approved.

SECTION 6. The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

Garfield Avenue and Monterey Road Traffic Signal and Garfield Avenue Signal & Bicycle Lane Improvements

BUDGET:

Appropriated 22-23	Carryover from 22-23	Proposed 23-24	Proposed 24-25	Proposed 25-26	Proposed 26-27	Proposed 27-28	TOTAL 5-YEAR
-	-	-	\$100,000	\$300,000	-	-	\$400,000

DESCRIPTION:

This project would evaluate the need for a traffic signal at the currently all-way stop controlled intersection. The analysis would include a traffic study, impact analysis, public outreach to the neighborhood, as well as coordination and potential cost sharing with the City of San Marino. Furthermore, the project will consider a synchronization of this signal to the existing signal at Garfield Avenue and Mission Street, research programming an off-peak flashing yellow signal phase, and potential bicycle lane implementation along this section of Garfield Avenue.

-	-	-	\$300,000	-	-	-	\$300,000

DESCRIPTION:

This project would restripe Columbia Street from Fair Oaks to Orange Grove to add a two-way centered turn lane, and various traffic signals improvements along the corridor. The implementation of a left-turn lane will prevent unnecessary, sudden stops for vehicles proceeding straight behind left turning vehicles in the current single lane, thereby reducing rear-end collision potential and sudden evasive maneuvers. Cost sharing with the City of Pasadena is anticipated.
