RESOLUTION NO. 7860

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, IDENTIFYING A LIST OF PROJECTS FOR FISCAL YEAR 2024-2025 FUNDED BY SENATE BILL 1: THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 in order to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of the City of South Pasadena (City) are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1 by resolution, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City will receive RMRA funding in the amount of \$653,380 in Fiscal Year (FY) 2023-2024 from SB 1; and

WHEREAS, this is the eight year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the City has undergone a robust public process to ensure public input into our community's transportation priorities/the project list. The City's Mobility and Transportation Infrastructure Commission (MTIC) reviewed the proposed project list, received public input and provided a recommendation to the City Council; and

WHEREAS, the City used a Pavement Management System (PMS) to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the community's priorities for transportation investment. The PMS generates a comprehensive report of the citywide pavement condition index (PCI) for all streets. The PCI, engineering recommendation, citizen participation, and MTIC input are utilized to establish the proposed capital improvement program annually; and

WHEREAS, the funding from SB 1 will help the City maintain and rehabilitate streets/roads, bridges, add active transportation infrastructure throughout the City this year and similar projects into the future; and

WHEREAS, the 2020 California Statewide Local Streets and Roads Needs Assessment found that the City's streets and roads are in an at-risk condition, and this revenue will help the City increase the overall quality of our road system and over the next decade will bring the City's streets and roads into good condition; and

WHEREAS, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials, and practices, will have significant positive co-benefits statewide.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The following list of newly proposed and previously proposed and adopted projects will be funded in-part or solely with FY 2024-2025 Road Maintenance Rehabilitation Account revenues. With the new listing and relisting of these projects in the adopted fiscal year resolution, the City is reaffirming to the public and the State our intent to fund these projects with Road Maintenance and Rehabilitation Account revenues:

Project Description – The project scope of work consists of street and highway pavement maintenance; rehabilitation, installation, construction, and reconstruction of necessary associated facilities such as drainage and traffic control devices; maintenance, rehabilitation, installation, construction, and reconstruction of facilities that expand ridership on transit systems; safety projects to reduce fatalities; or as a local match to obtain state or federal transportation funds for similar purposes.
